This book offers a much needed alternative to the more traditional texts used to teach writing instruction.

Grounded in history, the book clarifies changing theoretical and practical approaches to teaching writing, critically assessing each approach in relation to the social and political movements of the day, both within and beyond the university. The author takes us inside the real world of writing instruction; not only from the viewpoint of instructor, but as seen through the eyes of students struggling to make sense of the expectations of writing class. Mitchell emphasizes that "writing" entails far more than putting words to paper, and delves into contextually variable culturally defined expectations, that include multiple linguistic forms - both oral and written - highlighting the complexity of writing(s), while engaging the reader in lively academic debates about language and society.

There are currently two Private Members Bills before the New South Wales Parliament relating to abortion. In order to inform debate, this paper reviews and compares abortion law across all Australian jurisdictions. Topics include abortion offences, lawful abortions, conscientious objection, decriminalisation, safe access zones around facilities providing abortions, and public opinion.

Currently, there is no uniform approach to abortion law across Australia. In New South Wales, abortion remains a criminal offence punishable by imprisonment, with only a limited exception for when necessary to preserve a woman from serious danger to her life or health.

At the end of the 20th century, college and university libraries face enormous challenges and opportunities. Libraries must fight for increasingly limited resources at a time when expenses continue to spiral. This volume offers academic administrators and librarians a better understanding of the issues facing the library during this time of change, and the role of the library in the evolving campus of the future.

From choosing the right topic to proofreading their finished work, RESEARCH PAPERS, 16e helps students confidently tackle the process of creating a successful research paper, one step at a time. Featuring straightforward, step-by-step descriptions--each of which is supported by current examples and hands-on exercises--this edition offers today's students an unparalleled writing resource. In keeping with the authors' commitment to providing the most user-friendly and up-to-date writing manual on the market, students will also find the very latest information on documentation styles, including the 2009 MLA and 2010 APA updates, plagiarism, and online research, all contained within a convenient large format and easy-to-use spiral binding. This collection of non-partisan reports written by award-winning CQ Researcher journalists focuses on provocative current policy issues. As an annual publication that comes together just months before it goes to press, the volume is as up-to-date as possible. And because it's CQ Researcher, the policy reports are expertly researched and written, showing all sides of an issue. Among the articles featured in the Sixteenth Edition are youth unemployment, the militarization of the police, domestic drones, and food policy debates. Chapters follow a consistent organization—exploring three issue questions, then offering background, current context, and a look ahead—and feature a pro/con debate box. All issues include a chronology, bibliography, photos, charts, and figures.

Teaching Mindful Writers introduces new writing teachers to a learning cycle that will help students become self-directed writers through planning, practicing, revising, and reflecting. Focusing on the art and science of instructing self-directed writers through major writing tasks, Brian Jackson helps teachers prepare students to engage purposefully in any writing task by developing the habits of mind and cognitive strategies of the mindful writer. Relying on the most recent research in writing studies and learning theory, Jackson gives new teachers practical advice about setting up writing tasks, using daily writing, leading class discussions, providing feedback, joining teaching communities, and other essential tools that should be in every writing teacher's toolbox. Teaching Mindful Writers is a timely, fresh perspective on teaching students to be self-directed writers.

Students in the 21st century still need to develop traditional reading and writing skills, and they must also learn how to use technology for communicating and collaborating in new ways. This book offers

»Der Fuchs weiß viele Dinge, aber der Igel weiß eine große Sache.« Der griechische Dichter Archilochos hat diesen Satz formuliert, Isaiah Berlin hat ihn mit seinem Tolstoi-Essay berühmt gemacht. Aber was ist diese »eine große Sache«? Ronald Dworkin liefert eine Antwort: Es sind Werte in all ihren Erscheinungsformen. Wenn wir verstehen wollen, was Wahrheit und Schönheit sind, was dem Leben Sinn verleiht, was die Moral fordert und die Gerechtigkeit verlangt, so müssen wir der Spur jener moralischen Einstellungen nachgehen, die menschliches Denken, Fühlen und Handeln durchdringen und zu einer Einheit formen.

»Gerechtigkeit für Igel« ist eines jener Bücher, wie es sie in Zeiten der Füchse – der Spezialisten und Skeptiker – immer seltener gibt: eines, das aus einem einzigen Prinzip eine ganze Welt erklären und zugleich Orientierung geben möchte.

invaluable reference, this book helps researchers make use of the many new resources available today. Divided into four sections, this easy-to-use guide helps students and general readers prepare for research papers and class studies. Step-by-step guides, detailed explanations, and valuable appendixes covering style guides, such as APA, MLA, and The Chicago Manual of Style, combine to create an incredibly authoritative accessible reference.

The rationale behind *Writing the Research Paper--Pocket Guide*, is essentially a simple one: the typical student reaches college having written perhaps a dozen research papers and is familiar enough with the broad convention of the form to neither need nor want a big book on the research paper. Instead, what the student needs is a handy summary of research paper protocol that can be easily consulted. All its explanations should be brief, helpful, and to the point. Its examples should be pointed and illustrative, covering major matters rather than minor ones. That, in a nutshell, is the idea behind this book.

How do individuals change their behavior when abortion access increases? In this innovative book, economist Phillip Levine uses economic analysis to consider this question, comparing abortion to a form of insurance. Like insurance, he contends, abortion provides protection from downside risk. A pregnant woman who would

otherwise give birth to an unwanted child has the option to abort. On the other hand, the availability of this option may increase the likelihood of a pregnancy in the first place. In a very restrictive abortion environment, few women would choose to have an abortion; legalizing abortion would reduce unwanted births. But if abortion becomes readily available, it may cause individuals to increase their sexual activity and/or reduce their use of contraception, Levine contends. Women will become pregnant more frequently, but will abort those pregnancies. Therefore, these abortions will not reduce unwanted births. Levine's analysis suggests that the manner in which individuals change their behavior depends on the extent to which abortion is accessible. He supports these assertions using data from both the United States and Eastern Europe, comparing areas that have restricted access to abortion services with those that have liberalized access. Using sound economic analysis, *Sex and Consequences* goes beyond the ideological arguments that frequently dominate the abortion debate, lending a new perspective to this controversial subject.

Any teacher driven to despair by a stack of student research papers will find welcome inspiration in *Beyond Note Cards*. Since the research paper first became a fixture in the composition classroom, no other assignment has caused as much dread in students. By putting it in historical context, Ballenger offers new insight into the problems and promise of the research paper - and practical advice on how to revive it. *Beyond Note Cards* examines the best of the existing scholarship to offer a fresh, theoretically sound approach to teaching the research paper. Drawing on the recent movement to encourage inquiry-based learning, Ballenger argues that the spirit of inquiry should be at the heart of research paper instruction - not the usual preoccupation with teaching the paper's formal qualities. While Ballenger deals with theory, his book is never dry. Through case studies of his students and often revealing autobiographical anecdotes, the author weaves a fascinating story about the evolution of the research paper historically and in his own classroom. The book also contains many practical features, including:

Relationships, sex, pregnancy, and abortion are among the topics discussed with engaging frankness by sixteen women in this collection of oral histories. *Our Choices: Women's Personal Decisions About Abortion* presents readers with the opportunity to understand the abortion choice in a way that statistics and abstract debate cannot. The accounts show how pregnancy and abortion are inextricably tied together in the complicated social and psychological lives of men and women. By exploring the women's feelings about becoming pregnant unintentionally and the circumstances surrounding that occurrence, the stories reveal much about how men and

women communicate with each other about sex, the effect of pregnancy and abortion on relationships, and how a woman's upbringing has shaped her knowledge and attitudes regarding sex and abortion. *Our Choices: Women's Personal Decisions About Abortion* includes stories of both legal and illegal abortions from the 1950s through the 1980s. The women included represent a variety of socioeconomic, cultural, and religious backgrounds, reminding readers that any woman can potentially be faced with the decisions surrounding unintended pregnancy and abortion. The issues raised cover the trauma of an illegal abortion, abortion versus adoption, abortion following rape, abortion as a medical procedure, and the role of family and partner support. Women who are considering abortion or who have had an abortion in the past will gain a deeper understanding of this complex and private experience; their partners, families, and friends will be better equipped to provide help and support. Professionals, including counselors and health care providers, will want to read this engrossing book and refer their clients to it. Students in women's studies and health care programs, policymakers, ethicists, and others with an interest in women's issues will find the book enlightening. It should be read by anyone wishing a more complete knowledge of abortion and the vast array of issues it encompasses. *Our Choices: Women's Personal Decisions About Abortion* can be sold in family planning clinics to clients, used in pregnancy counseling training, and retained for reference by both public libraries and family planning clinics, reproductive rights organizations, universities,

The only volume on higher education law written specifically for nursing faculty, this volume imparts the basic foundations of the legal, professional, and ethical issues that concern faculty on a daily basis. It clearly defines the legal rights of students, professors, and educational institutions along with the case laws supporting those rights. Each chapter contains a vivid legal scenario, related legal principles and theoretical foundations, and critical thinking questions. Written by an author who is both a nurse educator and attorney, the volume emphasizes sound decision making so that readers can successfully navigate the complex legal issues confronting them in the faculty role. This second edition reflects recent changes in higher education and includes an emphasis on students' rights and safety. Chapters address the general legal rights of students with expanded content on the interplay with social media, rights of faculty regarding freedom of speech, faculty protection against lawsuits, faculty and the employment relationship, faculty relations, the teaching and scholarship roles of faculty, the service and clinical practice role of faculty, and ethical considerations for patients, students, and faculty in education environments. Appendices include information on how to

This provocative new book will help you design and implement the most effective library user education possible--one that builds on basic library use skills through a progressively sophisticated program that is fully integrated into course curriculum at all levels, from the freshman year to graduation and beyond. By exploring major issues underlying the integration of library use skills and research methodologies into the general education curriculum, contributors raise important questions, offer creative ideas, and provide insight into the many improvements made in library instruction in the past few years. Following an introduction by Patricia Breivik, a recognized national authority on libraries and general education, contributors representing two- and four-year institutions and research universities discuss such issues as the relationship between high school and college programs, research skills instruction in a remote access environment, the use of microcomputers and end user searching programs to promote critical thinking,

and the improved relationship between librarians and faculty. In addition to articles on library instruction geared towards question analysis, information generation by field, structure of published knowledge and dissemination of a discipline's literature, chapters identify cooperative efforts needed among school, public, special, academic libraries and other information agencies, computer center personnel, and online database vendors. Bibliographic instruction librarians who are active participants in planning and administering library user education programs will find this volume to be essential for building and developing stronger, more integrated programs. This book explores the lives of five Mexican immigrant-origin youths in the United States, documenting their language and literacy journeys over an eight-year period from adolescence to young adulthood. In these qualitative case studies, the author uses a "longitudinal interactional histories approach" (LIHA) to explore literacy events in which the young people participated over time, telling the stories behind texts they created in order to better understand opportunities for bilingual and biliterate development available inside and outside of formal schooling. The book begins with an overview and exploration of theories and research underpinning the project, with a focus on countering minoritizing discourses faced by many multilingual immigrant youth and prioritizing the "goodness" of their experiences. The study's methodology, including LIHA, is presented, before individual case studies of all five youth are explored. The book closes with a synthesis of these cases and exploration of pedagogical, policy, and research implications. It will be of particular interest to students and scholars of education, applied linguistics and sociolinguistics, as well as teachers and policy-makers working with bilingual and biliterate immigrant youth.

"You cannot find a Christian without prayer," Martin Luther said, "just as you cannot find a living man without a pulse. The pulse never stands still; it is always throbbing and beating by itself..." This book is "throbbing and beating" with the power of Christian prayer. It doesn't "stand still"! The book will take you through every week of the year, present you with a portion of Scripture, add a spiritual exercise or two, and often inspire you with a reflection from the wide-ranging ministries of Bob and Alice Smith. Then the book will guide you into prayer. I am pleased to recommend this book. It is honest, based in the Bible, focused on the mission of God, and filled with practical strategies and advice. Readers will discover plain talk about doubts and assurances, challenges and promises, "flat" times when the command of God was all that kept you praying - and times brimming over with a sense of God's presence and provision. I have known Bob and Alice for some years; they are themselves positively throbbing with prayer. Bob's reflections here might get you "throbbing" a little, too.
