

At The Dark End Of The Street Black Women Rape And Resistance A New History Of The Civil Rights Movement From Rosa Parks To The Rise Of Black Power

2700 Kilometer bemisst der Jakobsweg von Köln bis Santiago de Compostela, den der Autor im Frühjahr und Sommer 2011 in 93 Tagen gewandert ist. Der Autor beschreibt neben seinen persönlichen Erfahrungen und Eindrücken schwerpunktmäßig, was dieser zutiefst europäische Weg an Natur, Geschichte und Kunstgeschichte vor ihm ausgebreitet hat. Er illustriert den Text durch eigene Fotos. Das Buch lädt ein, diesen Weg zu erleben. The old European pilgrim's road, the Way of St. James, covers a distance of 2700 kilometers from Cologne in Germany to Santiago de Compostela in Spain. During spring and summer 2011 the author peregrinated on this way, arriving in Santiago after 93 days. Besides his personal experiences and impressions he describes what this deeply European road has to offer with respect to nature, history and art history. The description is illustrated by a selection of the author's photographs. The book is an invitation to experience this Way of St. James.

In 1973, the year the women's movement won an important symbolic victory with *Roe v. Wade*, reports surfaced that twelve-year-old Minnie Lee Relf and her fourteen-year-old sister Mary Alice, the daughters of black Alabama farm hands, had been sterilized without their or their parents' knowledge or consent. Just as women's ability to control reproduction moved to the forefront of the feminist movement, the Relf sisters' plight stood as a reminder of the ways in which the movement's accomplishments had diverged sharply along racial lines. Thousands of forced sterilizations were performed on black women during this period, convincing activists in the Black Power, civil rights and women's movements that they needed to address, pointedly, the racial injustices surrounding equal access to reproductive labor and intimate life in America. As horrific as the Relf tragedy was, it fit easily within a set of critical events within black women's sexual and reproductive history in America, which black feminists argue began with coerced reproduction and enforced child neglect in the period of enslavement. While reproductive rights activists and organizations, historians and legal scholars have all begun to grapple with this history and its meaning, political theorists have yet to do so. *Intimate Justice* charts the long and still incomplete path to black female intimate freedom and equality—a path marked by infanticides, sexual terrorism, race riots, coerced sterilizations and racially biased child removal policies. In order to challenge prevailing understandings of freedom and equality, Shatema Threadcraft considers the troubled status of black female intimate life during four moments: antebellum slavery, Reconstruction, the nadir, and the civil rights and women's movement eras. Taking up important and often overlooked aspects of the necessary conditions for justice, Threadcraft's book is a compelling challenge to the meaning of equality in American race and gender relations.

"MacLeod is a splendid and elegiac narrator of neglected patches of Scotland's history and brings his poetic gifts again to this, the single most dreadful event in our nation's story" - *The Observer* "An unflinching record of what remains of Scotland's greatest human disaster in modern history" - *The Herald* Vibrating with endeavours for Britain's effort against the might of Nazi Germany, Clydebank was - in hindsight - an obvious target for the attentions of the Luftwaffe. When, on the evening of 13 March 1941, the authorities first detected that Clydebank was 'on beam' - targeted by the primitive radio-guidance system of the German bombers - no effort was made to raise the alarm or to direct the residents to shelter or flight. Within the hour, a vast timber-yard, three oil-stores, and two distilleries were ablaze, one pouring flaming whisky into a burn that ran blazing into the Clyde itself in vivid ribbons of fire. And still the Germans came; and Clydebank, now an inferno, lay illuminated and defenceless as heavy bombs of high-explosive, as land-mines and parachute blasters began to fall ... With reference to written sources and the memories of those who survived the experience, John MacLeod tells the story of the Clydebank Blitz and the terrible scale of death and devastation, speculating on why its incineration has been so widely forgotten and its ordeal denied any place in national honour. Groundbreaking, controversial, and courageous, here is the story of Rosa Parks and Recy Taylor—a story that reinterprets the history of America's civil rights movement in terms of the sexual violence committed against Black women by white men. "An important step to finally facing the terrible legacies of race and gender in this country." —*The Washington Post* Rosa Parks was often described as a sweet and reticent elderly woman whose tired feet caused her to defy segregation on Montgomery's city buses, and whose supposedly solitary, spontaneous act sparked the 1955 bus boycott that gave birth to the civil rights movement. The truth of who Rosa Parks was and what really lay beneath the 1955 boycott is far different from anything previously written. In this groundbreaking and important book, Danielle McGuire writes about the rape in 1944 of a twenty-four-year-old mother and sharecropper, Recy Taylor, who strolled toward home after an evening of singing and praying at the Rock Hill Holiness Church in Abbeville, Alabama. Seven white men, armed with knives and shotguns, ordered the young woman into their green Chevrolet, raped her, and left her for dead. The president of the local NAACP branch office sent his best investigator and organizer—Rosa Parks—to Abbeville. In taking on this case, Parks launched a movement that exposed a ritualized history of sexual assault against Black women and added fire to the growing call for change.

2014 NAACP Image Award Winner: Outstanding Literary Work – Biography / Auto Biography 2013 Letitia Woods Brown Award from the Association of Black Women Historians Choice Top 25 Academic Titles for 2013 The definitive political biography of Rosa Parks examines her six decades of activism, challenging perceptions of her as an accidental actor in the civil rights movement Presenting a corrective to the popular notion of Rosa Parks as the quiet seamstress who, with a single act, birthed the modern civil rights movement, Theoharis provides a revealing window into Parks's politics and years of activism. She shows readers how this civil rights movement radical sought—for more than a half a century—to expose and eradicate the American racial-caste system in jobs, schools, public services, and criminal justice.

It is the year 2036. The asteroid Apophis has come and gone. The world is saved, but only for a brief time. Something deadlier is heading towards Earth! Michael Thompson and a small group of scientists must race against the clock to find a way to save mankind. They will be led into the darkness of space, on a journey spanning thousands of years. What is heading to Earth? Will the result be a dark end for mankind? Während neue Technologien immer schneller und immer massiver bis in die letzten Winkel unseres Lebens vordringen, sind wir immer weniger dazu in der Lage, sie unseren Erfordernissen anzupassen. Sie sind längst zu einer Bedrohung für humane Lebensformen geworden. Eine japanische Touristenfamilie folgt an der Küste Australiens ihrem Navi bis in den Ozean, obwohl die Straße längst verschwunden ist. Auch die Ranger im Death Valley in Arizona kennen dieses Phänomen, dass Ortsfremde der Technik mehr vertrauen als den eigenen Sinnen. Sie haben sogar einen eigenen Begriff dafür: "Tod durch GPS". Doch dieser makabre "automation bias" ist nur ein Gleichnis für die Lage, in der sich die Menschheit heute befindet. Während neue Technologien immer schneller und immer massiver bis in die letzten Winkel unseres Lebens vordringen, sind wir immer weniger dazu in der Lage, sie unseren Erfordernissen anzupassen. Sie sind längst zu einer Bedrohung für humane Lebensformen geworden. In einer rasanten Tour de Force führt uns James Bridle, der "Orwell des 21. Jahrhunderts", durch die technologischen Dystopien der Gegenwart - vom Klimawandel und dem Internet bis zur Automatisierung der Arbeitswelt und der omnipräsenten Datenerfassung. Doch er zeigt noch mehr: Wir müssen eine unberechenbar gewordene Welt anders denken lernen, wenn wir uns in unserem "New Dark Age" noch zurecht finden wollen. Bridle ist ein junger Harari noir - kompetent, funkelnd und düster wie ein Roman von H.P. Lovecraft.

Why are some claims seen or heard as political claims, while others are not? Why are some people not seen or heard as political agents? And how does their political unintelligibility shape political bodies, and the terms of political agency, from which they are excluded? In this groundbreaking book, Sina Kramer uses the framework of constitutive exclusion to describe the phenomenon of internal exclusion -- exclusions that occur within a political body. More specifically, constitutive exclusions occur when a system of thought or a political body defines itself by excluding some difference (based on gender, race, class, sexuality, etc.) that is considered intolerable to the boundaries that comprise the body or system's political worth. This exclusion is not absolute, but preserves the very difference it seeks to repress in order to define itself against what it is not. Yet, as Kramer argues, if those who are excluded contest their repression, their political claims are deemed threatening and criminal. But can we ever be without constitutive exclusions? And can we avoid reinscribing them through critique? Kramer ultimately argues that to do justice to the excluded, to render those claims intelligible as political claims, instead requires the reconstitution of the political body on new terms. Importantly, this book offers both a diagnosis and a critique of the concept of constitutive exclusion, articulating what counts as a political action and who counts as a political agent. Kramer takes up a range of cases -- including those of Antigone, Claudette Colvin and Rosa Parks, the 1992 Los Angeles riots, and the Black Lives Matter movement -- to better understand who counts as a political actor, and how we understand political belonging and the contestation of exclusion. Excluded Within articulates who we are by virtue of who we exclude, and what claims we cannot see, hear, or understand.

Light: The Shape of Space Designing with Space and Light Lou Michel Every design professional who touches a space shapes the light and the feeling of that space. Architect, lighting engineer, interior designer, lighting or home furnishing manufacturer: each contributes an aesthetic layer, sometimes yielding unexpected results. All too often the best laid plans of one professional are unintentionally subverted by another. Removing surprises and guess work from design, Lou Michel, honored architectural lighting educator, has created Light: The Shape of Space, showing how to design with the effects of light rather than light itself. The book is a revolutionary resource for all design professionals and manufacturers of surfacing materials. Drawing on over fifteen years' experience of research and teaching in the architectural Space and Light Laboratory at The University of Kansas, Michel masterfully examines the interrelationship of lighting and the design of architectural space as perceived not in architectural photos or paint chips and fabric swatches, but by human vision — the gateway to emotional response. The book was written for professionals who care about how people feel in the spaces they design, and focuses on the humanization of architecture. Taking a non-stylistic approach to design, Michel analyzes architecture from the perspective of how the users see their surroundings as they move through space. The reader will learn what pleases and what disturbs people based on how the human visual system responds to color, texture, pattern, and brightness. The book features principles of design for the student and professional, and is generously supported by illustrations and research. Michel also provides a method for evaluating the visual effectiveness of building materials and lighting systems, including those that will appear on the market long after this book is dog-eared. Michel unveils a groundbreaking luminance brightness rating system (LBR) and a nine-zone brightness scale to aid designers in previsualizing the appearance of surfacing materials at every stage of the design process, from schematics to development to refinement. Among the topics treated are: the interaction of lighting and spatial design color theory for space and light the luminance relationships between free-standing objects and the surrounding spatial boundaries against which they are seen the appearance of building materials in color and brightness when modified by light and spatial location lighting spatial connections, including the perception of rooms adjacent to the observer lighting and perception of spaces screened by architectural grilles creating lighted space Designing with the effects of light is both an art and a science. No other book on the market bridges that gap as successfully as Light: The Shape of Space.

In the 1970s, feminist slogans proclaimed "Sisterhood is powerful," and women's historians searched through the historical archives to recover stories of solidarity and sisterhood. However, as feminist scholars have started taking a more intersectional approach—acknowledging that no woman is simply defined by her gender and that affiliations like race, class, and sexual identity are often equally powerful—women's historians have begun to offer more varied and nuanced narratives. The ten original essays in U.S. Women's History represent a cross-section of current research in the field. Including work from both emerging and established scholars, this collection employs innovative approaches to study both the causes that have united American women and the conflicts that have divided them. Some essays uncover little-known aspects of women's history, while others offer a fresh take on familiar events and figures, from Rosa Parks to Take Back the Night marches. Spanning the antebellum era to the present day, these essays vividly convey the long histories and ongoing relevance of topics ranging from women's immigration to incarceration, from acts of cross-dressing to the activism of feminist mothers. This volume thus not only untangles the threads of the sisterhood mythos, it weaves them into a multi-textured and multi-hued tapestry that reflects the breadth and diversity of U.S. women's history.

Ausgezeichnet als "Bester Boulderfhrer: Deutschland" von bester-reisefhrer.de Klettern und Bouldern an Bauwerken nennt man Buildering. Dabei handelt es sich meist um ffentliche Bauwerke, an denen legal geklettert wird. Buildering ist eine Mglichkeit, den stdtischen Raum fr mehr zu nutzen als Wohnen, Arbeiten und Spaziergehen. Der Ansatz von Buildering ist, ausgewhlte Bauwerke, Brcken und Mauern als Kletter- und Boulder-Spots zu nutzen. Einen besonderen Reiz bieten die vielfltigen Strukturen und Materialien, die man greift. Udo Neumann (langjhriger DAV Bundestrainer des deutschen Nationalkaders Bouldern) beschreibt die Attraktivitt von Buildering in seinem Kommentar wie folgt: Buildering ist fr jeden Kletterer eine wertvolle Bereicherung und fr Menschen, die sich bis jetzt nur an ergonomischen Plastik festgehalten haben, ganz besonders. Das Buildering oft an abgefahrenen Orten stattfindet, an denen man sich sonst weniger aufhlt, macht die ganze Sache noch besser!" Statt immer mehr Kletterhallen zu bauen, ist Buildering eine Alternative im Freien, um den steigenden Zahlen begeisterter Sportler Raum zum Klettern sowie Bouldern zu geben und dabei gleichzeitig die Natur zu entlasten. Durch ortsnahes Buildering entfallen lange Anreisen mit dem Auto zum Fels, und der groe Ansturm von Menschen auf die lokal meist begrenzt verfgbaren natrlichen Kletter- und Boulder-Felsen kann entzerrt werden. Damit ist Buildering eine Alternative zu etablierten Gebieten wie Frankenjura, Allgu, Pfalz, Elbsandsteingebirge, Eifel, den Felsen des Rhein-Main Gebietes usw. Das Buch Buildering-Spots ist in zwei Teile unterteilt: Zum einen enthlt es Informationen und Hintergrnde zur Sportart Buildering fr alle Interessierten und alle, die es ausprobieren mchten. Dabei gibt es Kapitel zum Sport selbst und seiner Geschichte, der Gesetzeslage, der Vorreiterrolle des Deutschen Alpenvereins (DAV) sowie einen Kommentar von Udo Neumann, unterlegt mit Fotos. Darber hinaus werden aktuelle Projekte und Chancen fr die stdtische Sportentwicklung vorgestellt sowie Mglichkeiten, die zunehmende Naturbelastung durch den Kletter- und Bouldersport mit Buildering zu reduzieren. Zum anderen ist das Buch ein stdtischer Kletterfhrer, also ein Builderingfhrer, mit etwa 200 Buildering Kletter- und Boulder-Spots in 61 Stdten. Bis auf wenige Ausnahmen befinden sich die Spots in Deutschland. Die Spot-Beschreibungen beinhalten Koordinaten, Adressen, Beschreibungen, ggf. Routen inkl. Schwierigkeitsgrad und Bildmaterial. Zuztlich wird auf verfgbare Videos der Spots und der Begehungen hingewiesen. Dabei sind nicht nur Metropolen wie Kln, Frankfurt, Hamburg, Berlin oder Mnchen vertreten, sondern auch untypische Orte zum Klettern und Bouldern wie Husum oder extravagante wie Barcelona. berall finden sich Buildering-Spots. Dabei knnen die beschriebenen Spots auch als Inspiration fr die individuelle Erschlieung neuer Spots durch andere Sportler hilfreich sein, um geeignete Orte und Strukturen selbst zu erkennen und zu erschlieen. Die Vielfalt beim Buildering zeigt sich an Spots wie einem Studentenwohnheim inkl. Fassaden-Kletteranlage oder zentral in Innenstdten gelegenen Bunker-Anlagen mit Kletterpark. Ein besonderes Highlight sind die Deep Water Buildering-Spots (DWS), die es bereits in Hamburg, Mnchen, Frankfurt am Main, Wiesbaden und Paulsdorf bei Dresden gibt. Zu den Stdten mit dokumentierten Spots gehren unter anderem: Aachen, Bad Neustadt, Bamberg, Berlin, Bingen am Rhein, Chemnitz, Dietfurt, Duisburg, Dresden, Emmering, Fehmarn, Frankfurt am Main, Freiburg, Freising, Gttingen, Grfendorf, Hamburg, Husum, Karlsruhe, Kln, Krefeld, Leipzig, Mainz, Mannheim, Mnchen, Mnster, Nrnberg, Paulsdorf, Passau, Steinfurt, Stuttgart, Waiblingen, Weinheim, Wiesbaden, Worms, Wrzburg, Enschede, Innsbruck, Wien, Glasgow, Blenio, Fribourg und Barcelona usw.

In the last decade, since the publication of the first edition of Scanning Electron Microscopy and X-ray Microanalysis, there has been a great expansion in the capabilities of the basic SEM and EPMA. High resolution imaging has been developed with the aid of an extensive range of field emission gun (FEG) microscopes. The magnification ranges of these instruments now overlap those of the transmission electron microscope. Low-voltage microscopy using the FEG

now allows for the observation of noncoated samples. In addition, advances in the development of x-ray wavelength and energy dispersive spectrometers allow for the measurement of low-energy x-rays, particularly from the light elements (B, C, N, O). In the area of x-ray microanalysis, great advances have been made, particularly with the "phi rho z" [(ρ)(ρz)] technique for solid samples, and with other quantitation methods for thin films, particles, rough surfaces, and the light elements. In addition, x-ray imaging has advanced from the conventional technique of "dot mapping" to the method of quantitative compositional imaging. Beyond this, new software has allowed the development of much more meaningful displays for both imaging and quantitative analysis results and the capability for integrating the data to obtain specific information such as precipitate size, chemical analysis in designated areas or along specific directions, and local chemical inhomogeneities.

Memphis Boys chronicles the story of the rhythm section at Chips Moman's American Studios from 1964, when the group began working together, until 1972, when Moman shut down the studio and moved the entire operation to Atlanta. Utilizing extensive interviews with Moman and the group, as well as additional comments from the songwriters, sound engineers, and office staff, author Roben Jones creates a collective biography combined with a business history and a critical analysis of important recordings. She reveals how the personalities of the core group meshed, how they regarded newcomers, and how their personal and musical philosophies blended with Moman's vision to create timeless music based on themes of suffering and sorrow. Recording sessions with Elvis Presley, the Gentrys, Aretha Franklin, Wilson Pickett, the Box Tops, Joe Tex, Neil Diamond, B. J. Thomas, Dionne Warwick, and many others come alive in this book. Jones provides the stories behind memorable songs composed by group writers, such as "The Letter," "Dark End of the Street," "Do Right Woman," "Breakfast in Bed," and "You Were Always on My Mind." Featuring photographs, personal profiles, and a suggested listening section, Memphis Boys details a significant phase of American music and the impact of one studio.

"In an intense tale of psychological suspense, a San Francisco psychiatrist becomes sexually involved with a female patient who suffers from multiple personality disorder, and whose pathological ex-husband is an Oakland homicide detective--from a Los Angeles Times Book Prize-winning author. Dr. Eldon Chance is a brilliant, lonely, forensic neuropsychologist with a long track record of getting involved with damaged, complicated women. While apartment hunting after separating from his wife, a series of bad decisions leads to Chance sleeping with a patient named Jaclyn Blackstone. Unfortunately her ex-husband is an Oakland homicide detective and the jealous type. Meanwhile, Dr. Chance meets a young man who goes by "D"; Chance believes he is a war-veteran, but he is in fact a deranged loner and self-styled Samurai skilled in the art of the blade. D is fascinated by Chance's tales of his tormented and increasingly dangerous affair with Jaclyn and advises him that her ex-husband will find a way to destroy Chance. As Detective Blackstone does indeed threaten the doctor, Chance and D plan a counter-strike. Meanwhile Chance continues his steamy affair with Jaclyn Blackstone (or is it one of her multiple personalities?) But the sexually voracious "Jackie Black" has a story that is far more complex and darker than he could have ever imagined ... Gritty, twisted, and impossible to put down, the surprises keep coming in Chance until the final page has been turned"--

Mastering Emotions examines the interactions between slaveholders and enslaved people, and between White people and free Black people, to expose how emotions such as love, terror, happiness, and trust functioned as social and economic capital for slaveholders and enslaved people alike.

In this pocket-sized, portable guide, renowned photographer Michael Freeman addresses one of photography's most popular--and challenging--areas: black and white. One of the most remarkable collections of letters to come out of the American Civil War is this compilation by the Woolsey family. Educated, aware, and closely affectionate, the family exchanged and kept letters throughout the war. Included in the set are those from family members serving in hospitals, taking collections for soldiers at home, and a soldier serving on the front lines with Grant, Sheridan, and Meade. What was life like for those who watched their country rent by war? The desperate anxiety and despair of the early war and the hopeful expressions later on give a vivid and very human face to an event that, though long past, is still apart of who we are as Americans today. There is also humor and gossip, and an incredible awareness of what was going on in battles far from home. That the collection includes letters from various family members provides a view into Civil War life as no other. For less than you'd spend on gas going to the library, this long out-of-print volume is available as an affordable, well-formatted book for e-readers and smartphones.
