Designed to facilitate the use of audit data analytics (ADAs) in the financial statement audit, this title was developed by leading experts across the profession and academia. The guide defines audit data analytics as “the science and art of discovering and analyzing patterns, identifying anomalies, and extracting other useful information in data underlying or related to the subject matter of an audit through analysis, modeling, and visualization for planning or performing the audit.” Simply put, ADAs can be used to perform a variety of procedures to gather audit evidence. Each chapter focuses on an audit area and includes step-by-step guidance illustrating how ADAs can be used throughout the financial statement audit. Suggested considerations for assessing the reliability of data are also included in a separate appendix.

As a result of its Clarity Project, the Auditing Standards Board (ASB) has issued Statement on Auditing Standards (SAS) No. 126, The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern (Redrafted), to supersede SAS No. 59, The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern, as amended (AICPA, Professional Standards, AU sec. 341 and AU-C sec. 570). SAS No. 126 does not change or expand SAS No. 59, as amended, in any significant respect. The ASB has moved forward with the clarity redraft of SAS No. 59, as amended, so that it is consistent with the format of the other clarified SASs that were recently issued as SASs No. 122, Statements on Auditing Standards: Clarification and Recodification, No. 124, Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country, and No. 125, Alert That Restricts the Use of the Auditor's Written Communication. However, the ASB decided to delay convergence with International Standard on Auditing 570, Going Concern, pending the Financial Accounting Standards Board's (FASB) anticipated development of accounting guidance addressing going concern. FASB issued an exposure draft, Going Concern, in October 2008, but based on recent decisions, FASB has divided the project into two separate and distinct phases. As a result, FASB projects to issue an exposure draft that addresses Phase 1, “The Liquidation Basis of Accounting,” in the second quarter of 2012, and to reissue an exposure draft that addresses Phase II, “Going Concern,” in the fourth quarter of 2012. SAS No. 126 addresses the auditor's responsibilities in an audit of financial statements with respect to evaluating whether there is substantial doubt about the entity's ability to continue as a going concern. This SAS applies to all audits of financial statements regardless of whether the financial statements are prepared in accordance with a general purpose or a special purpose framework¹. This SAS does not apply to an audit of financial statements based on the assumption of liquidation (for example, when [a] an entity is in the process of liquidation, [b] the owners have decided to commence dissolution or liquidation, or [c] legal proceedings, including bankruptcy, have reached a point at which dissolution or liquidation is probable).²

AICPA Audit Guides are developed and updated to provide guidance and tools for practitioners as they perform audit engagements. The AICPA Audit Guide Analytical Procedures, updated as of March 1, 2012, includes relevant guidance contained in applicable standards and other technical sources. The guide summarizes applicable requirements and practices, and delivers "how-to" advice for handling analytical procedures used in audits. The included case study illustrates the use of analytical procedures in planning and substantive testing, utilizing trend analysis, ratio analysis, reasonableness testing, and regression analysis. The appendices include a variety of examples of financial ratios and a comparison of the key provisions of the Risk Assessment Standards. This AICPA Audit Guide has been fully conformed to reflect the new standards resulting from the Clarity Project. Fully incorporating the clarified auditing standards into this year's edition of the guide enables auditors to further their understanding of these recently issued auditing standards, as well as begin updating their audit methodologies, resources, and tools prior to the clarified auditing standards' effective date. Additionally, this approach gives auditors the opportunity to review and understand the changes made by their third-

party audit methodology and resource providers, if applicable. The clarified auditing standards are effective for audits of financial statements for periods ending on or after December 15, 2012 (calendar year 2012 audits). Auditors should continue to use the previous edition of this guide (2008 edition) until the clarified auditing standards become effective for the auditors' engagements.

As a result of its Clarity Project, the Auditing Standards Board (ASB) has issued Statement on Auditing Standards (SAS) No. 128, Using the Work of Internal Auditors, to supersede SAS No. 65, The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements (AICPA, Professional Standards, AU sec. 322 and AU-C sec. 610), and amend: SAS No. 122, Statements on Auditing Standards: Clarification and Recodification, section 315, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement (AICPA, Professional Standards, AU-C sec. 315); Various other sections in SAS No. 122 (AICPA, Professional Standards, AU-C secs. 200, 220, 230, 240, 260, 265, 300, 402, 500, 550, and 600); and Statement on Quality Control Standards No. 8, A Firm's System of Quality Control (Redrafted) (AICPA, Professional Standards, QC sec. 10). SAS No. 128 addresses the external auditor's responsibilities when using the work of internal auditors if it includes (a) using the work of the internal audit function in obtaining audit evidence and (b) using internal auditors to provide direct assistance under the direction, supervision, and review of the external auditor. Consistent with International Standard on Auditing (ISA) 610 (Revised 2013), SAS No. 128 introduces the concept of a systematic and disciplined approach, which is not included in SAS No. 65. Paragraph 13 of SAS No. 128 would require, among other things, as a prerequisite to being able to use the work of the internal audit function, that the external auditor evaluate the application by the internal audit function of a systematic and disciplined approach, including quality control. Paragraphs A12–A14 of SAS No. 128 provide application guidance with regard to the application of a systematic and disciplined approach. The ASB believes that relative to SAS No. 65, this requirement represents an additional and explicit evaluation that the external auditor would need to perform to conclude on the appropriateness of using the work of internal auditors.

The clearest, easiest-to-use guide to understanding all the clarified standards, including the new attestation standards—fully updated! This comprehensive guide to understanding Generally Accepted Auditing Standards (GAAS) is not just about auditing. It addresses the toughest part of an accountant's job—identifying, interpreting, and applying the many audit, attest, review, compilation, and preparation standards relevant to a particular engagement. Wiley Practitioner's Guide to GAAS 2017 offers a clear and accessible distillation of the official language of GAAS, Statements on Standards for Attestation Engagements (SSAEs), and Statements on Standards for Accounting and Review Services (SSARSs)—as well as advice on exactly how to remain fully compliant with each. Wiley Practitioner's Guide to GAAS 2017 is organized according to the logical arrangement of the clarified standards, presenting each section individually, and explaining how it is related to the engagement process. Guidance is offered on the entire process, in the form of practice notes, checklists, questionnaires, and real-world examples, illustrating how the fundamental requirements of

each section are applied. Other key features include: A brief identification of each auditing, SSAE, and SSARS section, with effective dates and tips on how to apply it Highlights of new requirements in the clarified attestation standards Concise listing and descriptions of each section's specific mandates, including definitions Easy-to-read capsule summary of interpretations, plus selected technical alerts Helpful techniques for remaining compliant with each standard New in GAAS 2017: In 2016, the AICPA's Auditing Standards Board completed a major stage of its clarity project and issued SSAE No. 18. The new guidance is effective for reports dated May 1, 2017. SSAE No. 18 replaces the attestation standards, introducing major new requirements that will change practice. In this transition year, guidance on the extant attestation standards is also included. Wiley Practitioner's Guide to GAAS 2017 is completely updated to reflect all the clarified standards and provide valuable implementation information.

the Audit of Financial Statements SAS No. 135, Omnibus Statement on Auditing Standards—2019 SAS No. 134 is a suite of auditor reporting standards that includes a new AU-C section 701, Communicating Key Audit Matters in the Independent Auditor's Report, and replaces AU-C sections 700, 705, and 706. SAS No. 134, which also amends various other AU-C sections, addresses the auditor's responsibility to form an opinion on the financial statements and the form and content of the auditor's report issued because of an audit of financial statements. It also addresses the auditor's responsibilities, and the form and content of the auditor's report, when the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary, and when additional communications are necessary in the auditor's report. SAS No. 135 is intended to more closely align ASB guidance with the PCAOB's standards by primarily amending AU-C section 260, Communications With Those Charged With Governance, AU-C section 550, Related Parties, and AU-C section 240, Consideration of Fraud in a Financial Statement Audit. This codification is fully indexed and arranged by subject. The codified standards and related interpretations are vital to practitioners performing audits.
