Basic Nursing's multimedia enhanced edition has new resources on the Evolve website including case studies, journal articles from Mosby's Nursing Consult, updated skills content plus interactive checklists, and the new Mobile Quick Reference - a web app with even more resources that can be accessed on any device. Online videos support the book's easy-to-read, visual approach, making it easier to understand fundamental nursing - from principles and concepts to nursing skills and care plans. A strong focus on critical thinking provides an excellent foundation for clinicals. Developed by expert nursing educators Patricia A. Potter, Anne Griffin Perry, Patricia Stockert, and Amy Hall, Basic Nursing Multimedia Enhanced Version is ideal for busy nursing students! UNIQUE! Case studies in every chapter follow nursing interventions for specific patient ailments, and include coverage of documentation. Care plans demonstrate the application of the 5-step nursing process to individual patient problems, showing how a plan is developed and how to evaluate care. Critical thinking exercises relate case scenarios to those you will encounter in clinicals and practice. Review questions prepare you for the NCLEX® examination. The 5-step nursing process provides a consistent framework for care in all clinical chapters. UNIQUE! Video icons direct you to videos of skills on the Evolve companion website. Audio summaries allow for easy review of each chapter, even on the go. English/ Spanish audio glossary provides definitions and explanations of key terms. NEW and UNIQUE! The Mobile Quick Reference is a free web application that contains an entire Clinical Companion, plus new material on safety, evidence-based practice, gerontology, and more! NEW! Updated skills and checklists contain the latest information for safe and effective practice. NEW! Case studies with questions on the Evolve companion website help you apply your knowledge in core areas. Links to Mosby's Nursing Consult offer access to current research and the latest changes in nursing practice, including areas such as pain and sedation, sepsis, and cardiac guidelines. Virtual Clinical Excursions Pacific View Regional Hospital is a groundbreaking workbook/CD-ROM package that brings learning to life in a "virtual" hospital setting. This guided learning experience features textbook reading assignments that correspond with the CD-ROM and workbook activities. The workbook acts as a map, guiding students through the virtual hospital as they care for patients, helping them make connections between what they experience through the CD-ROM and what they've learned in their textbook. Each virtual hospital visit allows the student to access realistic information resources essential to patient care, resulting in a true-to-life, hands-on learning experience. Real-world problems place users in nursing scenarios where they can set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. The highly-engaging format encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. Lessons in the workbook complement the content in the textbook and guide the student through the virtual hospital. Includes over 250 NCLEX-RN examination-style questions based on the VCE patients that offer built-in testing of clinical knowledge. Augments knowledge of physical assessment by allowing the student to examine and document vital signs, as well as assess information related to the head and neck, chest, back and spine, upper extremities, abdomen, pelvic, and lower extremities. The CD-ROM offers users the opportunity to visit each patient and access realistic information essential for patient care, including: charts, medical administration records, electronic patient records, video clips of nurse-client interactions, and other related materials. Offers students the opportunity to monitor and care for one or more patients during three 45-minute periods of care within a 12-hour shift. Clinical Alerts highlight changes in the patient's condition within these 45-minute periods. A Time Icon appears under each lesson, indicating how much time it will take the student to complete the activity. Includes 6 unique new patients/cases, each with complex conditions for students to care for and monitor within the virtual hospital. A new Medication Room that introduces students to a wide variety of drug storage areas, such as a Unit Dosage Cabinet, Automated Dispensing System, IV Storage, and a Refrigerator. A medication administration feature enables users to select, prepare, and administer medications, reinforcing the precepts of safe medication in a harm-free environment. Over 50 common medication errors imbedded within the software to boost clinical realism and prepare students for current practice. Greater faculty support with the addition of the Fac Pac, a new instructors' website, and a radically expanded testing component. A drug guide provides complete drug monographs for all medications used within the program.

This textbook is designed for beginning students in all types of professional nursing programs. The comprehensive coverage provides fundamental nursing concepts, skills, and techniques of nursing practice and a firm foundation for more advanced areas of study. [It] provides a contemporary approach to nursing practice, discussing the entire scope of primary, acute, and restorative care.-Pref. to the Instructor.

Potter and Perry's Fundamentals of Nursing, 4th ANZ edition ebook is the leading fundamentals text for nursing students in Australia and New Zealand. The dynamic fourth edition of Potter and Perry's Fundamentals of Nursing presents an engaging approach to the fundamentals of nursing while building on its renowned reputation as the foremost text for nursing students across Australia and New Zealand. The new editorial team presents a critical thinking approach, to encourage the critical skills and understandings students require to maintain a high level of active engagement in the development of their practice within the health care systems they will work throughout their careers. Meaningful clinical examples combined with critical thinking questions, promote reflection and support deeper learning. These examples underscore how putting quality nursing knowledge and skills into practice can mean the difference between patient recovery and independence versus life threatening complications and patient decline. Current research examples encourage students to see the dynamic nature of evidence for nursing practice and gain understanding that ongoing change in practice is the norm and should be embraced. Potter and Perry's Fundamentals of Nursing, 4th ANZ edition ebook is supported by the Fundamentals of Nursing: clinical skills workbook 2nd edition. The skills in this indispensable workbook are directly aligned to the National Competency Standards for the Registered Nurse for Australia and New Zealand and support the theory and practice of each skill. A mobile study app for iOS called ClinicalCases is also available via the Apple App store for purchase. The ClinicalCases app takes an engaging approach to learning and revision. Students will find it the perfect exam preparation and study tool. It consists of 24 progressive case studies with MCQs and explanations for all answers. It also features over 150 Flash card key terms and a Word game. A great way to learn at your own pace, whenever, wherever... Elsevier's Evolve platform also offers a wealth of online resources for nursing students and lecturers, including an impressive suite of Australian nursing clinical skills videos to be used in conjunction with the text and workbook. These videos are

ideal for viewing in class or during independent study and are a valuable tool for revision prior to assessment. Other online resources include PowerPoint presentations, an exam view test bank, critical thinking questions and answers, integrated lesson plans, images, weblinks and a chapter on the Essentials of Care.

Introducing Virtual Clinical Excursions -- a new breed of workbook that is now a critical component of several of Mosby and W.B. Saunders' most prominent nursing texts. Inside, an extraordinary new CD-ROM provides an incredibly true-to-life simulation of clinical practice! This CD-ROM features a virtual hospital setting with five unique patients. These patients have their own diverse health problems, medical histories, families, cultural backgrounds, and personalities. You can access the patients, review their charts, lab data, and medication administration records...monitor daily changes when their nurses take their vital signs and perform a variety of tests...formulate nursing diagnoses...and plan interventions. In short, you can practice making all of the clinical decisions that lie at the heart of nursing...on your own schedules and at your own convenience! This workbook sends you into the virtual hospital setting to learn communication, documentation, assessment, critical thinking, and other essential skills. It also calls on you to collect information, make decisions, and set priorities. Each lesson has a reading assignment from Potter & Perry: Basic Nursing: Essentials For Practice, Fifth Edition, as well as activities that call on you to "visit" the patients in the virtual hospital. The workbook exercises provide a perfect environment in which you can practice what you are learning from the text.

This innovative text presents nursing fundamentals in a concise, visually attractive format that captures students' attention and addresses dramatic changes taking place in the health care environment. At the heart of this revision is the critical thinking model presented as a practical, clinical decision-making guide and applied to the nursing process throughout. Case studies in all clinical chapters bring this process to life, demonstrating to students how using the combination of critical thinking and the nursing process will help them deliver comprehensive, professional care. Case

studies introduce the client, family and nurse, and follow them through synthesizing knowledge and assessment data, planning and evaluating care. It addresses community health care and health promotion by consistently organizing each implementation section into three main areas: health promotion, acute care, and restorative care. Other themes include delegation, multidisciplinary collaboration, focus on outcomes, cultural sensitivity, gerontologic principles, and client satisfaction. * Complete coverage of fundamentals in a concise, readable, visually appealing format. * Five-step nursing process provides a consistent framework in all clinical chapters. * Hundreds of color photographs and drawings increase educational value while adding visual appeal. * Client teaching covered in both narrative and boxes to highlight this key nursing role. * Skills are presented in a clear, two-column format with rationales for all steps. NEW FEATURES: * Critical thinking model provides a practical, clinical decision-making guide applied to the nursing process. * Case studies in all clinical chapters include the client, family and nurse, and are developed throughout the chapter to demonstrate the ongoing nature of nursing care. * Implementation consistently addresses health promotion, acute care, and restorative care to reflect the current focus on community-based nursing and health promotion. * Skills include guidelines to assist nurses when delegating to unlicensed assistive personnel, Critical Decision Points, Recording and Reporting, and Home Care Considerations. * Expanded evaluation includes both the nurse's and client's perspectives to stress today's "customer satisfaction" emphasis. * Care Plans based on the case studies highlight key assessment data and include client goals and expected outcomes. * Procedural Guidelines provide step-by-step instructions for performing basic skills in a clear and concise format. * Cultural focus is reflected throughout and in special boxes to highlight the importance of cultural sensitivity. * Collaborative care and multidisciplinary problems are addressed in narrative and care paths/maps to reflect current health care focus.
