

Before Atlantis 20 Million Years Of Human And Pre Human Cultures

Throughout our lives, most of us have been conditioned to view the essence of our human being and the greater realm of creation itself as somehow mysterious and unknowable. In many ways, it seems as if we have relegated our lives to dense matter as the central focus of our identity. Exploring the possible inner or metaphysical realities can provide an orientation and detail necessary for greater understanding of ourselves and the dimensional spheres of life that connect us. My life's work has included studying the underlying structures that support all physical manifestation as well as the beings that live within and work to sustain them. I believe that all inner and outer life forms and entities are dimensionally connected. We are continuously interacting with them unconsciously through various levels of our being, the collective consciousness of humanity, our planet, and the celestial bodies in the universe. My experience has been that the lack of awareness of our own greater being is what hinders our ability to comprehend the universe multidimensionally. In my view, before entering our present dense physical forms as humans, we have progressed through many developmental cycles, as did our Earth, solar system, and universe. This book documents what I have learned about the universal creative process and dimensional human evolution from our source beginnings to the present. I have tried to integrate the various accounts of the scientific, mythological, religious, and metaphysical versions of cosmology, cosmogenesis, and cosmogony. Exploring the inner realms of possible connections between humanity, Earth, and the cosmos has been a complex undertaking and journey into uncharted territory. My research, life experiences, and clairvoyant perspectives regarding the dimensionality of all life are the basis for the writing of this book.

Reveals the Pacific Ur-culture that seeded the ancient civilizations of China, Egypt, India, Mexico, and Peru • Shows how the Pan diaspora explains the similarities between Gobekli Tepe and Toltec carvings and stone towers in Japan and on Easter Island • Reveals the mother tongue of Pan hidden in shared word roots in vastly different languages, including Quechua, Sanskrit, Japanese, Greek, and Sumerian • Explains the red-haired Caucasian mummies of China, the Ainu of Japan, the presence of "white" humans in early Native American legend, and other light-skinned peoples found in Southeast Asia and the Middle East The destruction of the vast continent of Pan--also known as Lemuria or Mu--in the Pacific Ocean 24,000 years ago was the greatest catastrophe that ever befell humanity. Yet it resulted in a prehistoric Golden Age of arts and technology thanks to the Sons of Noah, who, forewarned and prepared for the disaster, escaped in 5 organized fleets. Theirs was the masterful Ur-culture that seeded China, Egypt, India, Mexico, and Peru, explaining the sudden injection of the same advanced knowledge and sophisticated arts into those widely separated lands.

Examining the diaspora from the sunken continent of Pan, Susan B. Martinez finds traces of the oceanic Pan civilization in arts and technologies from canal-works, masonry, and agriculture to writing, weaving, and pottery, but most importantly in the art of navigation, the hallmark of the survivors of the catastrophe. Using archaeo-linguistic analysis, she reveals the mother tongue of Pan hidden in strikingly similar words for royalty, deities, and important places in vastly different languages, including Quechua, Maori, Sanskrit, Japanese, Chinese, Greek, and Sumerian, as well as English through the prefix "pan" which denotes "all-encompassing." The author reveals how the Pan diaspora explains the mound builders on each continent, the presence of "white" humans in Native American legend, the red-haired mummies found in China, and the Ainu of Japan. She shares recent genetic studies that reveal Polynesian DNA in central Europeans, Mesopotamians, South Americans, and the 9000-year-old Kennewick man and shows how Pan provides the missing link. She reveals why carvings at Gobekli Tepe are similar to Toltec artistry, why stone towers in Japan and Easter Island are identical, and how the Pacific Ring of Fire was activated. Moving the Garden of Eden from the Fertile Crescent to the South Seas, Martinez strikes down the pervasive view of Atlantis as the source of ancient knowledge and exposes the original unity of mankind on the ancient Pacific continent of Pan.

The last book in the monumental work of Theosophic thought. This book focuses on gaining occult power in the formation of the humanity and the earth. This group sought to learn the secrets of nature, science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained. It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself.

The series "Crystal" starts from the beginning of the creation of the universe and permeates the entire human culture. It then reaches the present and will continue into the future, briefly following the evolution of human civilization. In the first book 'First Battle of the Titans: Vacuum-Otherworldly conflict'(13.85 to 5 billion years ago) we witnessed the beginning of the fictional series "Crystal", which started in a Greek provincial town. In this town an object with transcendent abilities was discovered. Studies on this object have shown great results and with this very object a cosmic journey began. In this cosmic journey we traveled back in time and witnessed the creation of the universe. In the second book "Second Battle of the Titans: Worldly-Supernatural conflict" (5 billion to 50 million years ago) we watched through the cosmic journey of Titanic forces contributing to the creation of our galaxy, our solar system, the creation and manufacturing of planet Earth, the emergence of life on Earth and its evolutionary path. Additionally, we also watched the clash of the Ti-tans' forces led by Saturn with otherworldly forces under the command of Heaven. In the third and fourth book, "Third battle of the Titans: Supernatural-Natural" Conflict (50 million years to 100,000 years ago) the Olympian gods dominate, led by Zeus. The evolution of life occurring on planet Earth, the dominance of mammals and human phylogenetic branch are presented in the form of epic duels and fights. The evolution of man arrives until Homo sapiens. Particular emphasis is given to the "human" and the evolutionary steps of humanization, from the primates to hominids (Hominoidea), then to the Australopithecines and then onto the "Homo". Continuing this magical journey through myth, metaphors, real events and real scientific knowledge, in the next books the reader will explore the universal culture from the creation of the universe until today.

Atlantis Today: The USA Poised for Destruction draws parallels between Atlantis and our current civilization. The similarities concerning the use of technology, social pathways, and political aims are unnerving. According to archeologists and researchers, the ancients did possess a high level of civilization--and it became their downfall. Shouldn't we heed history? Twelve thousand years later, we are repeating the same mistakes. As the year 2012 draws near and the Mayan Calendar ends, will we see a new, enlightened era, as many prophets predict, or will the "end days" befall us?

Community Visioning for Place Making is a groundbreaking guide to engaging with communities in order to design better public spaces. It provides a toolkit to encourage and assist organizations, municipalities, and neighborhoods in organizing visually based community participation workshops, used to evaluate their existing community and translate images into plans that embody their ideal characteristics of places and spaces. The book is based on results generated from hundreds of public participation visioning sessions in a broad range of cities and regions, portraying images of what people liked and disliked. These community visioning sessions have been instrumental in generating policies, physical plans, recommendations, and codes for adoption and implementation in a range of urban, suburban, and rural spaces, and the book serves as a bottom-up tool for designers and public officials to make decisions that make their communities more appealing. The book will appeal to community and neighborhood organizations, professional planners, social and psychological professionals, policy analysts, architects, urban designers, engineers, and municipal officials seeking an alternative vision for their future.

Billions of years ago, the mind separated from The Source. During this separation, the soul came into existence. But why? Consciousness details the history of man and which states of consciousness human beings have gone through in their evolution, and what is still ahead. The time between our lives on Earth is explained and the author elaborates on questions like: What does being born and dying actually mean? How do they pertain to karma and the life plan? And how does the energy system of chakras and aura work?

Investigates and questions the scientific consensus on the origins of civilization Do we, the human species, really know who we are or where we came from or how we originated or our place in the cosmos? Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to keep people in power and everyone else in line? Exploring alternative theories on the establishment of society and civilization, Hidden History: Ancient Aliens and the Suppressed Origins of Civilization looks at a variety of dissenting, suppressed, and forbidden accounts of history and the origins of humanity. It takes a broad and inclusive survey of historical documents, various theories, and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong. The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization. It combines cutting-edge science with metaphysical, spiritual, and even paranormal views, daring to ask whether there might be a better explanation for humanity's existence and the origins of civilization than the current scientific consensus. Hidden History looks at the multiverse and parallel dimensions, the ancient alien theory, metaphysics, and hypotheses beyond physical perception, the eleven dimensions of string theory, radio telescopes that penetrate to the event horizon of our universe, mathematical equations that take us where no one has gone before, and the world-wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths. With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography provides sources for further exploration, and an extensive index adds to its usefulness. This fascinating book is a thorough investigation and examination of the mysteries surrounding early civilizations, their myths, legends, histories, monuments—and lasting legacies.

Are you struggling to understand the data you need to support your business activities? Are you frustrated over data that don't answer your questions or provide the wrong answers to your questions? Are you worried that your organization is not adequately supporting its citizens or customers? Are you concerned over civil or criminal liability for the quality and use of your data? If the answer to any of these questions is Yes, then you need to read Data Resource Understanding to help you and everyone in your organization thoroughly understand the data they need to support the business activities. Most public and private sector organizations have no formal method for thoroughly understanding the data needed to support their business activities. They seldom have a method that begins with the organization's perception of the business

world and continues through a formal Data Resource Development Cycle to produce a high quality, thoroughly understood data resource that fully supports the organization's current and future business information demand. Data Resource Data provided the complete detailed data resource model for understanding and managing data as a critical resource of the organization. Data Resource Understanding is the companion book to Data Resource Data. It provides a detailed explanation of how to thoroughly understand an organization's data resource and to document that understanding with Data Resource Data. Together they provide an organization with the foundation for properly managing their data as a critical resource. Like Data Resource Simplicity, Data Resource Integration, Data Resource Design, and Data Resource Data, Michael Brackett draws on over half a century of data management experience, in a wide variety of different public and private sector organizations, to understand and document an organization's data resource. He leverages theories, concepts, principles, and techniques from many different and varied disciplines, such as human dynamics, mathematics, physics, chemistry, philosophy, and biology, and applies them to the process of formally documenting an organization's data resource.

A provocative challenge to Darwin's theory of evolution • Shows there is no missing link because the human race, since day one, is the result of outright interbreeding among highly diverse types • Reveals multiple "Gardens of Eden" and how each continent has its own independent hominid lineages • Explains Homo sapiens' mental powers (the Great Leap Forward) and how we acquired the "blood of the gods," which endowed us with a soul Did we evolve from apes, or are we all descendants of Adam and Eve? Why is the "missing link" still missing? Is the dumb luck of natural selection valid? Piecing together the protohistory of humanity through anthropology, genetics, paleolinguistics, and indigenous traditions, Susan B. Martinez offers an entirely original alternative to Darwin's evolution: Modern humanity did not evolve but is a mosaic of mixed ancestry, the result of eons of cross-breeding and retro-breeding among different groups, including Cro-Magnon, Neanderthal, hobbits, giants, and Africa's "Lucy" and "Zinj." Martinez shows that there were multiple "Gardens of Eden" and how each continent had its own blend of races prior to the Great Flood, which caused the diaspora that brought a renaissance of culture to every division of the Earth. Martinez explains Homo sapiens' mental powers (the Great Leap Forward) in cosmological terms--how we are the product of both heaven and earth. She identifies the "Sons of Heaven" and the angel-engendered races, explaining how Homo sapiens acquired the "blood of the gods," which endowed us with a soul. Providing the ultimate resolution to the Evolution versus Creationism debate, this landmark study of hybrid man justifies his unexpectedly sudden appearance in the fossil record, the curious parallels between oral histories of the world's people, and why anatomically modern features are found in the earliest paleontological evidence.

A compelling new portrait of the lost realm of Lemuria, the original motherland of humanity • Contains the most extensive and up-to-date archaeological research on Lemuria • Reveals a lost, ancient technology in some respects more advanced than modern science • Provides evidence that the perennial philosophies have their origin in Lemurian culture Before the Indonesian tsunami or Hurricane Katrina's destruction of New Orleans, there was the destruction of Lemuria. Oral tradition in Polynesia recounts the story of a splendid kingdom that was carried to the bottom of the sea by a mighty "warrior wave"--a tsunami. This lost realm has been cited in numerous other indigenous traditions, spanning the globe from Australia to Asia to the coasts of both South and North America. It was known as Lemuria or Mu, a vast realm of islands and archipelagoes that once sprawled across the Pacific Ocean. Relying on 10 years of research and extensive travel, Frank Joseph offers a compelling picture of this motherland of humanity, which he suggests was the original Garden of Eden. Using recent deep-sea archaeological finds, enigmatic glyphs and symbols, and ancient records shared by cultures divided by great distances that document the story of this sunken world, Joseph painstakingly re-creates a picture of this civilization in which people lived in rare harmony and possessed a sophisticated technology that allowed them to harness the weather, defy gravity, and conduct genetic investigations far beyond what is possible today. When disaster struck Lemuria, the survivors made their way to other parts of the world, incorporating their scientific and mystical skills into the existing cultures of Asia, Polynesia, and the Americas. Totem poles of the Pacific Northwest, architecture in China, the colossal stone statues on Easter Island, and even the perennial philosophies all reveal their kinship to this now-vanished civilization.

Three experts on the lost civilizations of Lemuria and Atlantis use personal research and the Edgar Cayce readings to explain the rise and fall of these mystical cities

Teide Volcano has many different meanings: For the Guanche aborigines, who endured several of its eruptions, it was Echeide (Hell). Early navigators had in Teide, a lifesaving widely visible landmark that was towering over the clouds. For the first explorers, Teide was a challenging and dangerous climb, since it was thought that Teide's peak was so high that from its summit the sun was too close and far too hot to survive. Teide was considered the highest mountain in the world at that time and measuring its height precisely was a great undertaking and at the time of global scientific significance. For von Buch, von Humboldt, Lyell and other great 18th and 19th century naturalists, Teide helped to shape a new and now increasingly 'volcanic' picture, where the origin of volcanic rocks (from solidified magma) slowly casted aside Neptunism and removed some of the last barriers for the development of modern Geology and Volcanology as the sciences we know today. For the present day population of Tenerife, living on top of the world's third tallest volcanic structure on the planet, Teide has actually become "Padre Teide", a fatherly protector and an emblematic icon of Tenerife, not to say of the Canaries as a whole. The UNESCO acknowledged this iconic and complex volcano, as "of global importance in providing evidence of the geological processes that underpin the evolution of oceanic islands". Today, 'Teide National Park' boasts 4 Million annual visitors including many 'volcano spotters' and is a spectacular natural environment which most keep as an impression to treasure and to never forget. For us, the editors of this book, Teide is all of the above; a 'hell of a job', a navigation point on cloudy days, a challenge beyond imagination, a breakthrough in our understanding of oceanic volcanism that has shaped our way of thinking about volcanoes, and lastly, Teide provides us with a reference point from where to start exploring other oceanic volcanoes in the Canaries and beyond. Here we have compiled the different aspects and the current understanding of this natural wonder.

1963 Each lesson of this marvelous course grows more and more interesting. It is a most remarkable and revolutionary body of information. The following facts are revealed. That man did not evolve from the ape, but degenerated from a previous race of Su. This eBook edition of "The Secret Doctrine" has been formatted to the highest digital standards and adjusted for readability on all devices. The Secret Doctrine is one of the most influential esoteric and occult books of all time. In the first part of the book the author explains the origin and evolution of the universe itself, in terms derived from the Hindu concept of cyclical development. While in the second part she describes the origins of humanity through an account of "Root Races" said to date back millions of years.

A comprehensive exploration of Earth's ancient past, the evolution of humanity, the rise of civilization, and the effects of global catastrophes • Explores biological evidence for the aquatic ape theory and 20-million-year-old evidence of pre-human cultures from which we are not descended • Traces the genesis of modern human civilization to Indonesia and the Central Pacific 75,000 years ago after a near-extinction-level volcanic eruption • Examines the profound similarities of megaliths around the world, including Nabta Playa and Gobekli Tepe, to reveal the transoceanic civilization that built them all Exploring emerging and suppressed evidence from archaeology, anthropology, and biology, Frank Joseph challenges conventional theories of evolution, the age of humanity, the origins of civilization, and the purpose of megaliths around the world. He reveals 20-million-year-old quartzite tools discovered in the remains of extinct fauna in Argentina and other evidence of ancient pre-human cultures from which we are not descended. He traces the genesis of modern human civilization to Indonesia and the Central Pacific 75,000 years ago, launched by a catastrophic volcanic eruption that abruptly reduced humanity from two million to a few thousand individuals worldwide. Further investigating the evolutionary branches of humanity, he explores the mounting biological evidence supporting the aquatic ape theory--that our ancestors spent one or more evolutionary phases in water--and shows how these aquatic phases of humanity fall neatly into place within his revised timeline of ancient history. Examining the profound similarities of megaliths around the world, including Nabta Playa, Gobekli Tepe, Stonehenge, New Hampshire's Mystery Hill, and the Japanese Oyu circles, the author explains how these precisely placed monuments of quartz were built specifically to produce altered states of consciousness, revealing the spiritual and technological sophistication of their Neolithic builders--a transoceanic civilization fractured by the cataclysmic effects of comets. Tying in his extensive research into Atlantis and Lemuria, Joseph provides a 20-million-year timeline of the rise and fall of ancient civilizations, both human and pre-human, the evolutionary stages of humanity, and the catastrophes and resulting climate changes that triggered them all--events that our relatively young civilization may soon experience.

Where do we come from? What are the origins of modern civilization? Do the world's pyramids, the Nazca Lines, Easter Island statues, and other enigmatic structures, archaeological wonders, and geographic anomalies contain evidence of ancient gods? Sifting through the historical and archaeological evidence, *Ancient Gods: Lost Histories, Hidden Truths, and the Conspiracy of Silence* probes the myths, stories, history, and facts of ancient civilizations, lost technologies, past catastrophes, archetypal astronauts, and bygone religions to tease out the truth of our distant past and modern existence. It takes an in-depth look at the facts, fictions, and controversies of our ancestors, origins, who we are as a people—and who might have come before us. It tackles more than 60 nagging stories of ancient gods, ancestors, alien visitors, theories and explanations, including: • Why did our ancestors crawl deep underground and paint on cave walls? • How did the megalithic temple site called Göbekli Tepe come to be built—11,600 years before the agricultural revolution? • How were massive stones, weighing tons, dragged miles to build Stonehenge? • Who—and why—were pyramids built on the equatorial band circling the earth? • What secrets does modern DNA analysis reveal mankind's heritage? • Are we to believe the Ancient Alien Theory? • And more!

Michael Cremo, an international authority on human antiquity, has justly earned the "forbidden archeologist" title. For over twenty-seven years he's been digging up documented, credible findings that mainstream archeologists don't want you to know about—discoveries in the fossil record that tell a completely different story from Darwinian evolution. His latest book, *The Forbidden Archeologist*, presents his research at international scientific conferences, comments on the latest discoveries and "missing links," examines famous archeological sites such as the Sterkfontein Caves—the alleged cradle of humanity—and responds to mixed reactions to his books, now translated into twenty-six languages. This collection of forty-nine articles published in *Atlantis Rising* magazine is like the Cliff Notes on his best-selling, encyclopedic *Forbidden Archeology* and formidable *Human Devolution*. Readers will quickly understand the strongest arguments and remarkable discoveries that reveal evolution as a failing theory. Could the lost civilization of Atlantis provide the answer to the origins of human existence? In his controversial new study, John Gordon examines the evidence and makes some startling discoveries. Though many have dismissed Plato's account of the vanished continent and its people as fantasy, Gordon argues that not only is the story true, but it's a brilliant and complex metaphor for cosmic creation. Gordon's research leads him to oppose modern scientific orthodoxy on a range of accepted ideas from the "Big Bang" theory to Darwinian evolution. He questions the concept that humans emerged relatively recently; the notion that dinosaurs became extinct due to an asteroid impact; and the belief that present-day global warming has a human cause. It's an eye-opening look at our world.

Many have an enduring fascination for mythical lost realms like Atlantis—because they don't believe they're entirely mythical! Documented evidence supports that some ancient stories of lost worlds are grounded in truth. This adventurous volume delves into the most celebrated legendary civilizations and cities, beginning with Atlantis, but also including Camelot, El Dorado, and Lemuria. It examines where the lore may have originated, whether rooted in world history or outlandishly fun extraterrestrial theories. Readers can use all the evidence, supported by creative images and real-life photographs, to decide what they believe about each tale.

Almine probes further into the nature and meaning of existence, introducing the Goddess mysteries as they apply not only to individual human lives, but to the cycles of the cosmos.

A comprehensive guide to the cosmic influences that underlie health and how to apply them for profound health and healing • Examines how ancient and modern traditions of healing interconnect through the doctrine of signatures, "As above, so below" • Reveals how one's astrological chart has implications for personal health and healing • Explains how each sign of the zodiac corresponds not only to parts of the body and its chakras but also to specific plants, herbs, colors, and emotions • Explores how to use sound healing to harmonize astrological imbalances When we look at the vast and intricate cosmos--galaxies, planets, organisms, organs, cells, molecules, atoms--there is a fundamental order, a music or harmony of the spheres. Our cells reflect the images of galaxies seen through our telescopes. We are the microcosm, reflecting the macrocosm of the heavens. Our ancestors

understood these patterns and connections between humanity and the universe and developed spiritual and healing traditions in line with these cosmic truths. Yet in the 19th century, knowledge of these connections was set aside as medical science sought to create the “one size fits all” approaches to healing that dominate modern medicine today. In this comprehensive exploration of the celestial influences that underlie health and healing, Jennifer Gehl, with Marc Micozzi, examines how ancient and modern traditions of healing interconnect through the doctrine of signatures, “As above, so below”. She reveals how one’s celestial nature--the arrangement of the cosmos at the moment of birth--has implications for personal health and how each sign of the zodiac corresponds to parts of the body, the chakras, and specific plants, herbs, colors, and emotions. She explains how sound re-arranges forms according to the principles of harmony, leveraging not only the human self-regulating capacity to restore health but also that of the Earth to restore balance and harmony. Also explored are the recurrence of geometric forms in nature and how to apply this knowledge in sound healing and medical astrology. Weaving together the threads of ancient science and spirit that formed the original tapestry of medicine, Gehl explains how to restore the cosmic foundations of healing for personal, planetary, and universal health and wellbeing.
