Foster ist kein normaler Teenager: Sie besitzt die Gabe, Gedanken zu manipulieren. Und nicht nur das: Als ihre Adoptivmutter durch einen Tornado stirbt, offenbart sich, dass sie das Element Luft nach ihrem Willen beeinflussen kann. Aber nicht nur sie ist dazu imstande, sondern auch Tate, der ihr den letzten Nerv raubt. Und beiden wurde ihre Gabe nicht zufällig zuteil, sondern sie wurden bewusst zu Gebietern der Elemente erschaffen. Doch von wem und mit welchem Ziel? Während Foster und Tate sich näherkommen, müssen sie erkennen: Nur gemeinsam können sie ihrem Schöpfer die Stirn bieten.

This book analyzes the impact of digitization on management accounting in five manufacturing companies. It is one of the first in-depth empirical studies on the intersection of management accounting and digitization. The study suggests that there are two archetypes of digitization of the management accounting function. The first archetype emphasizes top-down-driven changes that aim to enhance efficiency, such as conducting tasks with a higher degree of automation in a leaner structure with fewer resources. The second archetype is strongly driven

and initiated by employees in the management accounting function (bottom-up). The focus is on improving the use of data by applying innovative analytics methods, integrating additional sources of data, and benefiting from new technologies like artificial intelligence. The results of the study also indicate that digitization of the management accounting function is mostly in line with the overall company strategy.
