Morpheus knew before all of us did. He knew the reality we created for ourselves is a lie. We are being used. We are the cogs in someone else's plan. Well, friends, I'm here to tell you that your SALARY or hourly rate is the BRIBE they give you to forget your dreams. Are you going to keep sleeping? Are you going to take a different path that freaks you the fuck out? The time to decide is right now. I don't need to tell you the world is falling apart but, do you see what a virus is doing to us humans? Do you know the way each country responds? Do you have toilet paper? I am in no way making an argument for mutiny. I love my country. I wouldn't want to live anywhere else except on a beach with a fishing rod and a never-ending drink, but that's another story. My goal is to open one of your eyes to investing. Hopefully, you will open the other eye! Then maybe with two eyes open, you can create your path. What does this mean for investing? Simple, what goes up must come down. If you are juggling flaming knives, when one is tossed up, another is aimed at you. Now, picture a trusted friend helping you with these flaming knives. Their job is to catch the knives and toss them in cold water to put out the flame. As it turns out, you can do this same thing with flaming stocks and their icy, bitter twins. These types of stocks are played against each other. When one is up, the other is down. Play the downturn loser, not the winner. Why buy the inverse stock that is running up? You probably think it is a done deal. Buy the winner hitting 15% today! Hold till tomorrow..... BUST. Often new traders have timing issues that cause them to enter into a position that suddenly drops after purchase. Instead, watch the inverse stock fall off the face of a cliff. Wait until the RSI is dirty low before buying in. Wait some more on purchasing the inverse until you see the running up stock flip (aka turn red or decrease in gains). The inverse chart will begin to show green tickers on the one day one minute chart. DO NOT PLAY INVERSE ETF'S ON ANYTHING BUT A DAY TRADE. You will lose everything and be stuck bad holding a L O S E R for a long time. I've done this. Don't do this; it sucks watching a \$100 stock go to \$30. You can cut your losses and take it in the rear. Or bag hold for who knows how long. When investing, you want to wait for the potential purchase to show you its actual value. A Floridian will buy shrimp off of some dude's pickup truck but, we won't dangle our feet off a dock because we know the hidden dangers under the water. Just as in investing, there are dangers you can only see when you truly take the time to look. Or you learn first hand when you get bit in the ass by a stock you had no business buying without a clear cut plan of entry and exit. You must learn to see the stocks for what they are—a shell game.

Make Money Work for You! Learn the 30 Best Lessons to Kickstart your Investing Journey! It is not a secret that the wealthiest people in the world leverage their money to produce additional streams of income. It is not possible, in fact, to produce prosperity without making your money work for you. However, how can a beginner start investing? This is the main question the book tries to answer. Often times, people save money but when it comes to investing it, they do not know how to proceed. Especially at the early stages, where the capital is not so big, it is important to follow specific rules and strategies that have been proved over time. This is why the book offers an atypical approach from other titles. After a general overview of the standard terms and concepts, the book explains the right mindset to acquire and the strategies to apply in 30 valuable lessons. Furthermore, the manual provides the reader with a list of the 15 most common mistakes beginners make when starting investing, along with practical ways to avoid them. Thanks to this innovative approach, the reader will be able to "get his hands dirty" from the start and acquire the necessary knowledge to take conscious decisions. During the course of the book, the reader will learn about The difference between saving

and investing; The 5 most common excuses that broke people make to avoid learning about money; The 15 most popular mistakes made by beginners and how to avoid them; 30 Premium Rules for investing in the right way from the start (with advice from some of the richest people on the planet); Different type of investments; The criteria to select the perfect stock to invest in. It is important to note that the book does not offer "get rich quick solutions". Easy money does not exist, especially at the early stages. However, by studying the material provided and applying it diligently, it is possible to successfully get started in a matter of weeks. Are you ready to take your personal finance to the next level?

Supply and demand trading is not rocket science and no one owns it or has a patent on it. The good news is that anyone can learn it, it is a simple market principle that has been in existence since there was a market and it will always be the same principle till there is no more market which will be the end of days. The even better news is that you don't need an MBA or even a high school diploma to learn it and use it to make an unlimited income from trading. Using supply and demand is a no brainer and doesn't require years to learn it and use it. Supply and demand is the only way live markets work meaning for every buyer there has to be a seller and for every seller there has to be a buyer, it's that simple. Supply and Demand Trading 101 is written for brand new beginner traders who wish to be a self-directed investor and trading and do trading on their own. The best way to learn supply and demand trading is by actually learning it the right way from the start. There are a lot of tips and tricks in the book that can help a beginner cut down their learning curve and get them making real money right away. When you have completed the reading of this entire book you will have an understanding of what a brand new self-directed beginner trading needs to know to make an unlimited income from trading the financial markets and how and where to get further information and even mentoring to help you to expedite your learning curve so you can begin making money right away.

Intermediate Techniques for Day Trading Beginners is written to provide straightforward, easy to understand and easy to apply advice, tips and intermediate techniques that can be the backbone of any brand new self-directed traders success in the financial markets trading Forex, futures, ETF's or equities. Use Intermediate Techniques for Day Trading Beginners as an overview or a guide if you will, to what intermediate techniques to study and learn to give yourself an extra edge over the competition to become consistently profitable investing and trading in the financial markets. As a brand new futures investor and trader with zero knowledge of the business you are at a loss as to what information you

actually do and do not need. Much of what the current trading education industry is putting out is not only giving you information that is all backwards, it is very unrealistic to do in the live markets, and can get you into a lot of trouble. Why would you want to learn something that could potentially cause you to lose money right away in your new trading business? The trading education industry is not regulated so beware of that. I have seen brand new futures investors and traders waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets. No one wants that however it is a huge mistake that brand new futures traders make because they don't know any better. Futures Trading for Self-Directed Beginners is unique because it is going to tell you about who your competition is and how you can beat them, what you need to study first that will make you rich fast, where you need to go to get consistently profitable quickly, when you should and should not be in the live market and how about the other information you need to know to be able to trade and invest in today's financial markets (or any tradable market) with confidence and zero fear and to be able to do it on as little as \$500 capital to start with. Futures Trading for Self-Directed Beginners will help you understand how important it is to have a competitive edge when putting your hard earned money at risk in the markets. Each day, the wealth from beginner trader's accounts is transferred from those without an edge into the accounts of those who have developed a rule based plan that gives them the needed edge to destroy the competition which one do you want to be? Do you want to be the one who is always paying or do you want to be the one who gets paid?

There are a lot of pre-education and pre-trading decisions you will need to make before you spend any money on trading or capitalizing an account to trade live with as a brand new self-directed trader. Set it and Forget it Day Trading for Beginners delivers a basic comprehensive guide to some of the tools and resources needed to help give you the best beginner information to make some of those hardest decisions. You've heard the saying "trade less and make more"? This Set it and Forget it EOD method of investing and trading is exactly how you are able to do that. It has some great advantages for a beginner investor and trader that will enable them to make money right away right from the start of their career, and it's a lot easier to set up and implement for a beginner trader. If you need to learn this business from the ground up then Set it and Forget it Day Trading for Beginners is definitely a good starting point for you. I encourage you to read it as many times as it takes for it to become clear to you as to what you do and do not need to learn to be successful in this business from the start. There are no money back guarantees in the financial markets however you must know the right information from the start to have a chance of becoming consistently profitable and financially successful. When you are done reading Set it and Forget it Day Trading for Beginners you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in Set it and Forget it Day Trading for Beginners will put you on the fast track to becoming a successful self-directed financial market investor and trader with very little money invested other than the cost of this book.

The making money with money business isn't really an H&P type of business, what is H&P you might be asking, hoping and praying. You don't need a rosary you need a money making edge especially as a beginner. I'm not going to sugar coat it, this

business is an ugly place for an untrained and underfunded self-directed beginner. There are very bad people in the live market who are looking to take all of your money from you, and they will should you not be prepared properly to go to work in the live markets with a money management plan. Picture yourself throwing all your startup capital into the bon fire at the party you'll throw for yourself for starting your new self-directed trading business up and watch it burn up in smoke and flames right before your very eyes. You smell that? That's all your money burning up because you did not have a money management plan. Many people say that money doesn't buy happiness and while that is true, a lot of it can buy a Gulfstream 650! I hate standing in line at the airport don't you? Do what it says in *Forex Money Management Tips for Supply & Demand Trading Beginners* and you could be on your way owning your own G650. With some good planning and the right education and training from the very start a new self-directed investor and trader can get up to speed fairly quickly and then it is a matter of polishing ones skills and money management plan. Once they are confident in their money management skills and their plan is solid they should have no problems going into the live market and becoming a successful market participant.

If you're brand new to investing and trading you can learn to go from financial mediocrity to financial prosperity in the time it takes you to read this entire book. Money spells don't necessarily have the best reputation - quite wrongly. Why not live in abundance? There are a lot of classical methods to get money - from Jupiter talisman to sigil magic. This also works reasonably well. However, you can also be more thorough and explore why you have had too little money so far - for this you can use the horoscope, knowledge of the chakras and

some other things. If by improved self-knowledge regarding money there are no more "Yes, but ..." wishes, but instead "Yes, gladly!" wishes, one's own money magic will also become more effective. But one can do it still another step more thoroughly: One can look at the own relationship to the abundance altogether and see whether something in one's own life is no longer in the center: Has the fire become polarized to power and powerlessness? The water to renunciation and gluttony? The air to lies and bossiness? The earth to poverty and gluttony? If one can dissolve these polarized extremes, truth, power, love and flourishing will again come into one's life. But even this is not the real foundation of the money theme: There is the possibility to live in trust to the world and in responsibility for the world and to connect with the world through a constantly working magic, so that abundance can flow at any time. Would you like to join us on this journey of discovery?

The road to success in financial market speculating as I always say is paved with the smoking blown up accounts of investors and traders. It did not have to be a long hard and expensive road though, it can be a road paved with gold and be fairly easy if you just take time to learn this business the right way from the start on your first day, keep it simple and it will be. This book does an excellent job in explaining the very first things a brand new financial market speculator needs to know before even doing anything. It is meant to be a spring board for the very first educational information that a new person needs for a baseline to get started from. The professional advice I give you in this book will empower you to have confidence and zero fear of going in the live markets and accurately initiating a low risk high reward position with which you can have a high probability outcome from being a live market participant. Becoming a successful self-directed financial market speculator is not nearly as difficult as one would think as long as they have the proper education and proper knowledge base right from day one, it takes a while but you can do it!

It is huge step when you make the decision to become a self-directed trader. Most brand new traders are getting into this business because they think they can make quick money and become rich beyond their dreams. While that may be true, it is not as easy as one thinks and certainly will not happen as soon as one thinks. There are only two groups of people who are doing business in the markets, the professionals and the retail investors and traders Brand new self-directed traders all make the same mistakes over and over because they don't know any better, now you do.
