The Danube is Europe's Amazon. It flows through more countries than any other river on Earth - from the Black Forest in Germany to Europe's farthest fringes, where it joins the Black Sea in Romania. Andrew Eames' journey along its length brings us face to face with the Continent's bloodiest history and its most pressing issues of race and identity. As he travels - by bicycle, horse, boat and on foot - Eames finds himself seeking a bed for the night with minor royalty, hitching a ride on a Serbian barge captained by a man called Attila and getting up close and personal with a bull in rural Romania. He meets would-be kings and walks with gypsies, and finally rows his way beyond the borders of Europe entirely...

The brief war that Black Hawk waged against the United States in 1832 saw half of the people under his leadership killed in savage massacres and the entire Sauk tribe removed to Iowa. Yet this dismal outcome cannot obscure the superb military leadership that Black Hawk demonstrated during many phases of the war. His crowning glory occurred at a place called Wisconsin Heights, where his force of about 120 warriors held off an estimated 700 American militia volunteers while the women, children and elderly under his protection escaped across the Wisconsin River.

The Black Hawk War was a conflict between the United States and Native Americans led by Black Hawk, a Sauk leader. The war erupted soon after Black Hawk and a group of Sauks, Meskwakis, and Kickapoos, known as the "British Band", crossed the Mississippi River, into the U.S. state of Illinois, from Iowa Indian Territory in April 1832. Black Hawk's motives were ambiguous, but he was apparently hoping to avoid bloodshed while resettling on tribal land that had been ceded to the United States in the disputed 1804 Treaty of St. Louis. Black Hawk, born Ma-ka-tai-me-she-kia-kiak, (1767-1838) was a band leader and warrior of the Sauk American Indian tribe in what is now the Midwest of the United States. Although he had inherited an important historic medicine bundle from his father, he was not a hereditary civil chief. Black Hawk earned his status as a war chief or captain by his actions: leading raiding and war parties as a young man, and a band of Sauk warriors during the Black Hawk War of 1832.

Backpackers and hikers looking for less crowded outdoor experience should grab Long Trails of the Southeast to discover the many opportunities available in the Deep South. This guide covers 600 miles of trails in 6 states, including the 104-mile Pinhoti Trail, the 90-mile Benton MacKaye Trail, and 171 miles of the Florida Trail.

The tragic, the comic, the terrifying, the poignant are all part of the story of the Black Pony pilots who distinguished themselves in the Mekong Delta during the Vietnam War. Flying their turboprop Broncos down and dirty, low and slow, they killed more of the enemy and saved more allied lives with close-air support than all the other naval squadrons combined during the three years they saw action. Author Kit Lavell was part of this squadron of black sheep given a chance to make something of themselves flying these dangerous missions. The U.S. Navy's only land-based attack squadron, Light Attack Squadron Four (VAL-4) flew support missions for the counter insurgency forces, SEALs, and allied units in borrowed, propeller-driven OV-10s. For fixed-wing aircraft they were dangerous, unorthodox missions, a fact readers quickly come to appreciate.

Cattails grow in a marsh, pitcher plants grow in a bog, jewelweed grows in a swamp, right? Do sandhill cranes live among sandy hills? Frogs live near lakes and ponds, but can they live on prairies, too? What is a pine barrens, an oak opening, a calcareous fen? Wisconsin's Natural Communities is an invitation to discover, explore, and understand Wisconsin's richly varied natural environment, from your backyard or neighborhood park to stunning public preserves. Part 1 of the book explains thirty-three distinct types of natural communities in Wisconsin—their characteristic trees, beetles, fish, lichens, butterflies, reptiles, mammals, wildflowers—and the effects of geology, climate, and historical events on these habitats. Part 2 describes and maps fifty natural areas on public lands that are outstanding examples of these many different natural communities: Crex Meadows, Horicon Marsh, Black River Forest, Maribel Caves, Whitefish Dunes, the Blue Hills, Avoca Prairie, the Moquah Barrens and Chequamegon Bay, the Ridges Sanctuary, Cadiz Springs, Devil's Lake, and many others. Intended for anyone who has a love for the natural world, this book is also an excellent introduction for students. And, it provides landowners, public officials, and other stewards of our environment with the knowledge to recognize natural communities and manage them for future generations.

Black and Asian Theatre in Britain is an unprecedented study tracing the history of 'the Other' through the ages in British theatre. The diverse and often contradictory aspects of this history are expertly drawn together to provide a detailed background to the work of African, Asian, and Caribbean diasporic companies and practitioners. Colin Chambers examines early forms of blackface and other representations in the sixteenth century, through to the emergence of black and Asian actors, companies, and theatre groups in their own right. Thorough analysis uncovers how they led to a flourishing of black and Asian voices in theatre at the turn of the twenty-first century. Figures and companies studied include: Ira Aldridge Henry Francis Downing Paul Robeson Errol John Mustapha Matura Dark and Light Theatre The Keswidee Centre Indian Art and Dramatic Society Temba Edric and Pearl Connor Tara Arts Yvonne Brewster Tamasha Talawa. Black and Asian Theatre in Britain is an enlightening and immensely readable resource and represents a major new study of theatre history and British history as a whole.

"This wonderful narrative by a retired history professor takes us back through the time and space of his ancestors and his own youth. Weaving between present and past, it offers a unique blend of nostalgia and incisive commentary about the imprint of Americans on the land and on each other. Gaines Post Jr. shares with us an odyssey that is at once personal and universal."-James McPherson, Emeritus Professor of History, Princeton University, and author of *Battle Cry of Freedom* On a solo trip in 2002, Gaines Post Jr. drives his 1966 Volkswagen Bug from California to Wisconsin and back, traveling so slowly that the land and its history seep into his bones. Crossing old trails kindles his imagination of the westward expansion that attracted his ancestors and shaped America's national character. In South Dakota, he visits Red Cloud's grave and hears the great Lakota leader whisper that Post is not at the end of his path. While working cattle on a Wyoming ranch, Post recalls his grandfather, born during Red Cloud's War. Part travelogue, part memoir, and overflowing with history's natural wonder, *Blue Bug, Red Road* speaks to those with a wandering spirit searching for quiet layers of time and memory within the American landscape.

The papers in this volume derive from the Third Hamito-Semitic Congress, which took place in London in 1978. The papers, loosely grouped according to language families and theoretical issues, are in a number of cases considerably expanded and updated version of those presented at the conference. The papers in the earlier part of the volume tend to be more substantive and to present primary evidence, the subsequent ones focus more on specific issues within particular languages, are surveys of the field, or deal with questions of methodology. Together they provide an overview of the current state of affairs in the subject.

A geographical encyclopedia of world place names contains alphabetized entries with detailed statistics on location, name pronunciation, topography, history, and economic and cultural points of interest.

Since its publication in 1932, *Black Elk Speaks* has moved countless readers to appreciate the American Indian world that it described. John Neihardt's popular narrative addressed the youth and early adulthood of Black Elk, an Oglala Sioux religious elder. Michael F. Steltenkamp now provides the first full interpretive biography of Black Elk, distilling in one volume what is known of this American Indian wisdom keeper whose life has helped guide others. *Nicholas Black Elk: Medicine Man, Missionary, Mystic* shows that the holy-man was not the dispirited traditionalist commonly depicted in literature, but a religious thinker whose outlook was positive and whose spirituality was not limited solely to traditional Lakota precepts. Combining in-depth biography with its cultural context, the author depicts a more complex Black Elk than has previously been known: a world traveler who participated in the Battle of the Little Bighorn yet lived through the beginning of the atomic age. Steltenkamp draws on published and unpublished material to examine closely the last fifty years of Black Elk's life—the period often overlooked by those who write and think of him only as a nineteenth-century figure. In the process, the author details not just Black Elk's life but also the creation of his life story by earlier writers, and its influence on the Indian revitalization movement of the late twentieth century. *Nicholas Black Elk* explores how a holy-man's diverse life experiences led to his synthesis of Native and Christian religious practice. The first book to follow Black Elk's lifelong spiritual journey—from medicine man to missionary and mystic—Steltenkamp's work provides a much-needed corrective to previous interpretations of this special man's life story. This biography will lead general readers and researchers alike to rediscover both the man and the rich cultural tradition of his people.

In this redesigned edition of Scott O'Dell's classic novel, a young Eskimo girl encounters frightening obstacles when she takes her father's place in the Iditarod, the annual 1,172-mile dogsled race in Alaska. Biography of Edward Mazique, respected physician, contemporary of Martin Luther King, Jr., and influential Civil Rights activist in Washington, D.C.

During the 1930s in the United States, the Works Progress Administration developed the Federal Writers' Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The rolling hills between the Mississippi and Missouri Rivers are home to the Midwest's Hawkeye State, faithfully cataloged in the WPA Guide to Iowa. Stressing the agricultural roots and varied crops grown throughout the state, this guide includes many pictures depicting the lives of Iowa farm workers in the 1930's.
