The new edition of The Best of Five MCQS for the European Specialty Examination in Gastroenterology and Hepatology is a question book designed to assist in preparations for the European Specialty Examination in Gastroenterology and Hepatology (ESEGH). The book has been fully updated to reflect the new examination introduced in 2018 and the most recent guidelines. Containing a foreword by Sir Ian Gilmore, former president of both the British Society for Gastroenterology and the Royal College of Physicians, the book adopts the same Best of Five question format used in the ESEGH and covers the breadth of the curriculum. It has been designed to exactly match the relative proportion of questions on each topic area found in the examination. Each of the 300 questions contained in the book is accompanied by an answer, a set of three succinct bullet points of key 'take-home' messages, and a short summary of the relevant background, evidence-base and up-to-date European guidelines. The book ends with a chapter of 50 questions, which again matches the proportions of topic areas found in the ESEGH, and is designed to act as a mock-examination for use in the final stages of preparation.

Postgraduates studying dermatology -- for example for the Royal College of Physicians postgraduate specialist certificate examination in the subject -- can face a frustrating lack of appropriate revision aids. Reference books can be too exhaustive or insufficiently up-to-date to be helpful, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations. Providing much more than a cheat sheet' of questions and answers, its chapters are designed to be studied in sequence, each building on the last to develop a strong overall understanding. Common and introductory topics are briefly discussed and an understanding of basic dermatology is assumed, with MCQs (multiple choice questions) following the widespread best of five' format.
