In a uniquely entertaining book by a rising star, here are uncanny true tales of haunted highways, weird encounters, and legends of the road. It may have happened to you; it's happened to almost everyone who's ever driven down a highway at night, or in the fog, or snow. Something suddenly appears: a flash of movement, a shadow...what was it? It could be, as the true stories in this book attest, a ghost. These are true stories from the highways and byways of America. These firsthand accounts are as varied as the storytellers themselves—some are detailed and filled with the terror and suspense that made people feel they had to share what happened to them with others; others are brief and straightforward retellings of truly chilling events. Here is a chupacabra attack on the desert highway between L.A. and Las Vegas; ghost trains and soldiers; UFOs; the prom girl ghost of Alabama; a demon in Texas, and other accounts of the creepy, scary things that truckers and other drivers and passengers told to editor Annie Wilder. With so many different stories, Trucker Ghost Stories moves beyond the usual haunted house to offer stories to entice any ghost story reader...and anyone who's ever wondered.... Dictionaries say that dreams are a sequence of images from sleep. What is left out is that these images are recollections of something else. They are memories of experiences some fanciful some shatteringly real. When author Andrew Paquette first dreamed of the future he was able to avert a mugging that possibly saved his life. Over the course of the next twenty years he kept meticulous records of his dreams discovering in the process that future dreams are not only possible they are common. Even more importantly because of their quantity he was able to see that his dreams were not just isolated events but remembered snatches of a continuum of existence shared by everyone. In this groundbreaking book he destroys the myths of what dreams are how they are described what they mean and why they are or are not important.

Ghosts and spirits abound in western Oregon. The imprints of pioneers, soldiers, prostitutes, and murder victims haunt the places they trod in life, searching for loved ones, reliving joyful times, protecting favorite haunts, and seeking revenge. This guide, history, and comprehensive how-to offers tantalizing information about the lives, deaths, and locales of the Portland area's lingering past. Areas include Central Portland, East Portland communities, Vancouver and North Portland, communities south of Portland, and Oregon's coastal communities. The infamous Shanghai Tunnels have long reverberated with the screams of kidnapped victims, doomed to a brief life of forced servitude. Lone Fir Cemetery is visited to this day by the spirits of the Chinese laborers, mental asylum inmates, and Civil War veterans who rest there. Thelma Taylor can sometimes be felt in Cathedral Park, under the St. John Bridge. Historical hotels still host the spirits of guests who died, sometimes by their own hand. Opera houses and ballrooms tell a happier story: the imprints left by decades of entertainment and energy can be felt even now. These sites, and many others, are vividly described, and entries include locations and contact information. Informative sections cover what a ghost is, how it can manifest, ideal ghost sighting conditions, and types of imprints. Techniques included are preliminary historical research, physical and mental preparation, and the two primary schools of ghost hunting: the technical and psychic methods. The technical method section covers equipment use and suggestions, and the psychic method section discusses using your intuition and sensitivity to sense phenomena. Helpful appendixes include a sighting report form; suggested readings, videos, and websites; a list of tours and events; and a collection of area museums and historical societies.

Deep in the country stood a beautiful mansion said to be the most haunted place you'd ever step foot in, but does this place really exist or is it just a legend. Here is where the story begins. It all happened one stormy night on October 31, 1929. A man by the name of Jasper Davis and his wife Elizabeth were driving down country roads in search of their dream home when his wife said, "Honey slow down, I see a for sale sign in the yard, let's get out and check it out. I feel that this could be what we've both been looking for." Her husband stopped the car, and they got out of the car, and walked up to the front door to see if anyone was home. Mr. Davis knocked on the door, and a man dressed in black opened the door, and said in a low eerie voice, "Won't you come in and see the mansion?" The Davis's entered the mansion and the creaky door slowly closed behind them. The creepy man in black said, "I think you both will like the rest of the mansion, follow me please." The Davis's were over taken by the beautiful antiques that occupied each room. Mrs. Davis said to the man in black, "These antiques must be very expensive." The man in black replied in an eerie voice, "You are so right." "Well what do you think?" asked the man in black. The Davis's replied, "We'll take it." The man in black pulled out what appeared to be the deed to the house, and little did the Davis's know that whoever signs the papers will die.

Richard Grant has never spent more than twenty-two consecutive nights under the same roof. Motivated partly by his own wanderlust and partly by his realisation that America is a land populated by wanderers, he set out to test his theory. AMERICAN NOMADS is the extraordinary result. 'Freedom is impossible and meaningless within the confines of sedentary society, the only true freedom is the freedom to cross the land, beholden to no one'. Grant follows the trails of the first European to wander across the American West (a failed conquistador); joins a group of rodeo-competing cowboys (and gets thrown by a mechanical bull); tells the story of the vanishing nomadic Indians and links up with 300,000 'gerito gypsies' - old people who live and travel in their RVs (Recreational Vehicles). 'When all is said and done, there are two types of men: those who stay at home and those who do not' Kipling. This is the story of those that 'did not' who are populated - and are still travelling - in America.

The FIRST book written of ghost encounters of American Indians written by an American Indian! AMERICAN INDIAN GHOST STORIES OF THE WEST is unlike any other book. Make no mistake, this first of its kind book is definitely unlike no other!

This anthology explores how theatre and performance use home as the prism through which we reconcile shifts in national, cultural, and personal identity. Whether examining parlor dramas and kitchen sink realism, site-specific theatre, travelling tent shows, domestic labor, border performances, fences, or front yards, these essays demonstrate how dreams of home are enmeshed with notions of neighborhood, community, politics, and memory. Recognizing the family home as a symbolic space that extends far beyond its walls, the nine contributors to this collection study diverse English-language performances from the US, Ireland, and Canada. These scholars of theatre history, dramaturgy, performance, cultural studies, feminist and gender studies, and critical race studies also consider the value of home at a time increasingly defined by crises of homelessness — a moment when major cities face affordable housing shortages, when debates about homeland and citizenship have dominated international elections, and when conflicts and natural disasters have displaced millions. Global struggles over immigration, sanctuary, refugee status and migrant labor make the stakes of home and homelessness ever more urgent and visible, as this timely collection reveals.

Life is an adventure, full of surprises day in and day out, month in and month out, year after year. Life brings joy, faith, pain, hope, despair, laughter, suffering, love, and hope. In "Time, and Time Again," author Paul Brown shares a collection of stories from his life growing up during the 1950s to the 1970s. Culled from Brown's four earlier books in the Time series, the stories recapture his memories from childhood, through the teen years, to adulthood. The colorful narratives describe everything from his own adventures and emotions coming of age, to traveling to his grandmother's house for family events, to incidents and tragedies that shaped his memories. "Time, and Time Again" provides personal insights into the life and times of his extended family, including some eccentric relatives. With humor and an eye for details about people, places, and events, Brown writes about a plethora of topics including the daily struggles of the previous generation—from church, school, and social activities to battles with weather, insects, and crops to accidental deaths, disease, debt, alcohol, and cultural identifiers from Model T Fords to Jack Benny to Ozzie and Harriett. "Time, and Time Again" reminds us that time is a treasure that must be dearly held and cannot be replaced.
