Dieser Band berichtet - für das Fach Englisch - über die Methoden und Ergebnisse der Evaluierung eines Schulversuchs zur Begabtenförderung nach dem Prinzip der Akzeleration des gymnasialen Bildungsganges (sogenannte «Expressklassen»). Die deskriptive Studie zeichnet nicht nur ein detailliertes Bild der Sprachfähigkeit von Gymnasialschülern der ausgehenden Sekundarstufe I, sondern beschreibt darüber hinaus den Unterricht in diesen Klassen und die Sicht der Beteiligten (Schüler, Eltern und Lehrer). Sie zieht ferner Konsequenzen für dringend notwendige Veränderungen des weiterführenden und fortgeschrittenen Englischunterrichts. Das Fach Englisch braucht eine funktionale Rede-, Gesprächs- und Schreibschulung, die im Sinne eines positiven Rückkopplungseffekts auf den Unterricht von validen und zuverlässigen Verfahren der Leistungskontrolle und -messung begleitet wird.

making amazing art with polymer clay. Polymer clay is a type of modeling clay with a polymer polyvinyl chloride (PVC). It doesn't actually have clay minerals in it, but it's just as pliable and easy to work with (if not, more so!). Once you mold it into your desired shape, you can pop it in the oven to cure it. It doesn't shrink when you cure the clay, just hardens it. This also allows polymer clay to be a great activity to enjoy with the kids as well as adults can take care of the curing process. It's just as fun as Play-Doh but way better in my opinion, since you actually get to solidify your object into something you can keep. You've probably seen polymer clay at your local crafting stores in rows and rows of colorful blocks from brands like Fimo, Sculpey, Premo, and many others. Well, now's your chance to finally grab a few blocks to try to see what you can make. Grab this copy now and start having super fun with this craft.

Why Kids Can't Spell is a resource reference book for parents and educators who have an interest in and a concern for children's spelling ability. The purpose of this book is to encourage and foster good spelling practices in the home and at school to reflect modern teaching methods. The design of this book uses a scope and sequence format with each chapter building on the previous one. Every chapter includes a discussion on spelling background knowledge. In this section one finds an analysis of children's writing samples, in accordance with J. Richard Gentry and Jean Wallace Gillet's Model of Spelling Development. This is followed by numerous inquiry-based, project based and generative ideas and activities. The activities in this book are practical and easy to prepare, use readily available materials and are meant to facilitate readers' understanding. All chapters are related and therefore, the reader is encouraged to browse and borrow from any chapter. The activities may be modified in order to appropriately challenge and meet individual needs.
