A detailed look at the importance of corporate governance in today's business world The importance of corporate governance became dramatically clear at the beginning of the twenty-first century as a series of corporate meltdowns from managerial fraud, misconduct, and negligence caused a massive loss of shareholder wealth. As part of the Robert W. Kolb Series in Finance, this book provides a comprehensive view of the shareholder-manager relationship and examines the current state of governance mechanisms in mitigating the principal-agent conflict. This book also offers informed suggestions and predictions about the future direction of corporate governance. Relies on recent research findings to provide guidance through the maze of theories and concepts Uses a structured approach to put corporate governance in perspective Addresses essential issues related to corporate governance including the idea of principal-agent conflict, role of the board of directors, executive compensation, corporate monitoring, proxy contests and corporate takeovers, and regulatory intervention Corporate governance is an essential part of mainstream finance. If you need to gain a better understanding of this topic, look no further than this book.

Global Corporate Finance, 2nd edition written by a son-father team introduces students and practitioners to those principles essential to the understanding of global financial problems and the policies that global business managers contend with. The objective of this book is to equip current and future business leaders with the tools they need to interpret the issues, to make sound global financial decisions, and to manage the wide variety of risks that modern businesses face in a competitive global environment. In line with its objective, the book stresses practical applications in a concise and straightforward manner, without a complex treatment of theoretical concepts. Instructors who want students to possess practical, job-oriented skills in international finance will find this unique text ideal for their needs. Suitable for both undergraduate- and graduate-level courses in international finances, this book is clearly the "go-to" book on one most important aspect of corporate finance. Das Lehrbuch bietet eine kurz gefasste Einführung in die Grundfragen des Themenfeldes der Organisation. Es behandelt dabei neben der formalen Seite des Organisierens auch die in den letzten Jahren immer wichtigeren informellen Prozesse, so dass ein vollständiges Bild organisatorischer Wirkfaktoren vermittelt wird. Ausgangspunkt sind jeweils praktische Probleme des Organisierens in Verbindung mit theoretischen Lösungsansätzen, wie zum Beispiel: technologische Reaktionsfähigkeit, Motivationsaufbau, Wandelbarrieren usw. Ziel ist es, den Leser zu befähigen, die Probleme des Organisierens und ihre Querverbindungen zu verstehen und sich die Grundlagen praktischer Organisationsarbeit anzueignen. Das Buch ist direkt für die Verwendung in einer Lehrveranstaltung zugeschnitten. Es ist in 13 Kapitel gegliedert und orientiert sich am typischen Verlauf eines integrierten Lehrmoduls, das Vorlesungs- und Übungselemente beinhaltet.

EBOOK: Corporate Finance: European Edition

Brealey, Fundamentals of Corporate Finance, 10e, is an introduction to corporate finance and focuses on how companies invest in real assets, how they raise the money to pay for the investments, and how those assets ultimately affect the value of the firm. It also provides a broad overview of the financial landscape. The book offers a framework for systematically thinking about most of the important financial problems that both firms and individuals are likely to confront. Fundamentals is organized around the key concepts of modern finance. These concepts, properly explained, simplify the subject. They are also practical. The tools of financial management are easier to grasp and use effectively when presented in a consistent conceptual framework. This text provides that framework.

This three-volume book constitutes the first attempt to define corporate finance law as an independent field of law with its own principles and tools. The book also contains a unique theory of corporate governance with the firm as the most important principal.

How to make sound investment decisions: Fundamentals of Investment Appraisal, 2nd edition, is based on long-term experience with students and is written in an easily understood style. A case study has been constructed to illustrate all methods discussed. The goal of the book is to pace a sure way through the variety of methods in investment appraisal. Mathematical basics are specifically explained in detail. The book shows clearly why there are different methods in investment appraisal and on where to focus in a given situation. As all methods are introduced by the same case study, it is easy to compare and evaluate the results. The statements in the text are further consolidated by abstracts and evaluations of each of the methods. Exercises with extensive solutions will lead to the confidence which is necessary for an ease of handling the investment appraisal techniques and for a good preparation for students' exams. German and international students at universities and other institutions of higher education will find this book an excellent systematic preparation for their exams.
