Recent SLA research recognizes the necessity of attention to grammar and demonstrates that form-focused instruction is especially effective when it is incorporated into a meaningful communicative context. Designed specifically for second-language teachers, this text identifies and explores the various options for integrating a focus on grammar and a focus on communication in classroom contexts and offers concrete examples of teaching activities for each option. Each chapter includes a description of the option, its theoretical and empirical background, examples of activities illustrating in a non-technical manner how it can be implemented in the classroom, questions for reflection, and a list of useful resources that teachers can consult for further information.

Language description plays an important role in language learning/teaching because it often determines what specific language forms, features, and usages are taught and how. A good understanding of language description is vital for language teachers and material writers and should constitute an important part of their knowledge. This book provides a balanced treatment of both theory and practice. It focuses on some of the most important and challenging grammar and vocabulary usage questions. Using these questions as examples, it shows how theory can inform practice and how grammar and vocabulary description and explanation can be made more effective and engaging. Part I describes and evaluates the key linguistic theories on language description and teaching. Part II discusses and gives specific examples of how challenging grammar and vocabulary issues can be more effectively described and explained; each chapter focuses on one or more specific grammar and vocabulary. An annotated list of useful free online resources (online corpora and websites) for grammar and vocabulary learning and teaching, and a glossary provide helpful information.
