Studies of the organisation and location of retailing activity have played a central role in the emergence of urban geography as a major area of academic study. Moreover, retailing is increasingly the focus of interdisciplinary research, with economists, sociologists, psychologists and marketing specialists all contributing. This book surveys and sets in context the wide range of research work that has recently been done on retailing. It concentrates on western industrial societies, particularly Britain and the USA, and considers empirical research, theory and theoretical applications. Topics covered include location analysis which is a traditional area of academic interest; consumer behaviour, which is of particular interest to psychologists, and retail organisation and government involvement, which will interest all those concerned, especially those actually involved in retail planning and management. This comprehensive book is the first substantial review of research in retail geography and suggests many future lines of research within the field. Originally published 1980.

Geography for Edexcel A Level Year 1 and AS Level Revision Guide is the most student-friendly resource for the 2016 Edexcel A Level and AS Level Geography specifications - written specially to target the demands of revising for these content-heavy linear geography courses. Motivating revision

activities and a focus on all aspects of the exam reinforce the guide's rigour. The guide also features revision checklists and a full glossary of terms.

This wide-ranging volume, first published in 1983, reflects the increasing scope of the field of rural geography in the second half of the twentieth century. Although traditional areas of study such as agriculture and the land-use patterns of the countryside remained important, scholars also began to consider rural transport, employment, housing and policy, as well as to develop new theories and methodologies for application to study. The chapters included here addressed the need for a review of the changes that had taken place within the field of rural geography, and as such provide an essential background to students with an interest in rural demography, planning and agriculture.

Exam board: Cambridge Assessment International Education Level: IGCSE Subject: Geography First teaching:

September 2018 First exams: Summer 2020 This title is endorsed by Cambridge Assessment International Education to support the full syllabus for examination from 2020.
