Oil Spaces traces petroleum's impact through a range of territories from across the world, showing how industrially drilled petroleum and its refined products have played a major role in transforming the built environment in ways that are often not visible or recognized. Over the past century and a half, industrially drilled petroleum has powered

factories, built cities, and sustained nation-states. It has fueled ways of life and visions of progress, modernity, and disaster. In detailed international case studies, the contributors consider petroleum's role in the built environment and the imagination. They study how petroleum and its infrastructure have served as a source of military conflict and political and economic power, inspiring efforts to create territories and reshape geographies and national boundaries. The authors trace ruptures and continuities between colonial and postcolonial frameworks, in locations as diverse as Sumatra, northeast China, Brazil, Nigeria, Tanzania, and Kuwait as well as heritage sites including former power stations in Italy and the port of Dunkirk, once a prime gateway through which petroleum entered Europe. By revealing petroleum's role in organizing and imagining space globally, this book takes up a key task in imagining the possibilities of a post-oil future. It will be invaluable reading to scholars and students of architectural and urban history, planning, and geography of sustainable urban environments.

In 1949 Bavaria was not only the largest and best known but also the poorest, most agricultural, and most industrially backward region of Germany. It was further its most politically conservative region. The largest political party in Bavaria was the Christian Social Union (CSU), an extremely conservative, even reactionary, regional party. In the ensuing twenty years, the leaders of the CSU's small liberal wing (in particular Franz Josef Strauss, long-time party chair and the most colorful and polarizing politician in

postwar Germany) broke with the anti-industrial traditions of Bavarian Catholic politics and made themselves useful to industry. With tactical brilliance the politicians pursued their individual political ambitions, rather than a coherent modernization strategy, which, by 1969, had turned Bavaria into a prosperous Land, the center of Germany's new aerospace, defense, and energy industries, with a disproportionate share of its research institutes.

La costruzione del petrolchimico Anic Gela, a seguito della scoperta del petrolio nel 1956, segna l'inizio del grande sogno industriale per il Sud. Enrico Mattei, attraverso il braccio operativo dell'Ufficio Cinema, chiama a raccolta i nomi più importanti del cinema documentario del tempo (Vittorio De Seta, Joris Ivens, i fratelli Taviani e Valentino Orsini, Gilbert Bovay, Giuseppe Ferrara, Piero Nelli e Massimo Mida) che danno vita a una narrazione nitida e coerente rappresentando la miseria del mondo rurale siciliano e la necessità di avviare un radicale processo di modernizzazione di tutto il Mezzogiorno. A distanza di oltre mezzo secolo, è facile rendersi conto del fallimento di quel sogno, perché studiare il cinema d'impresa ci permette di capire l'evoluzione della nostra storia recente, di quella politica ed economica, ma anche di quella sociale. Per una speranza affamata prova a fare proprio questo: a mettere ordine tra le immagini, i desideri e le paure della Sicilia di allora e di oggi.

Italy from Crisis to Crisis seeks to understand Italy's approach to crises by studying the country in regional, international, and comparative context. Without assuming that the country is abnormal or unusually crisis-prone, the authors treat Italy as an example from which other countries might learn. The book integrates the analysis of domestic politics and foreign policy, including Italy's approach to military interventions, energy security, economic relations with the European Union (EU), and to the NATO alliance, and covers a number of issues that normally receive little attention in studies of "high politics," such as information policy, national identity, immigration, youth unemployment, and family relations. Finally, it puts Italy in a comparative perspective – with other European states, naturally – but also with Latin America, and even the United States, all countries that have experienced similar crises to Italy's and similar – often populist – responses. This text will be of key interest to scholars and students of, and courses on, Italian politics and history, European politics and, more broadly, comparative politics and democracy.

This book provides a comprehensive profile of the development of sociology in Italy from the post-war period to the present day. The first English-language account of the

history of Italian sociology, it focuses on the process of institutionalization of the discipline within the Italian university system and its changing relationships with extra-academic actors and institutions: political parties, unions, the Catholic Church, political and social movements, as well as local and national governments. Arranged chronologically across eight chapters, it presents all major steps in the development of the discipline in a theoretically-informed but accessible way. The authors explore the pioneering phase of the 1950s to the establishment of the first academic chairs in the 1960s, from the student revolts of 1968 to the creation of the first sociological association in the 1980s and up to the present day. It will appeal to social science and history scholars and students, as well as readers interested in the history of Contemporary Italy.

The island of Sicily has for centuries been a meeting point where civilizations transformed one another and gave life to the cultural developments at the foundation of European modernity. The essays collected here explore Sicily as a place where these cultural interactions have produced conflict but also new material and intellectual exchange.

The importance of oil for national military-industrial complexes appeared more clearly than ever in the Cold War. This volume argues that the confidential acquisition of geoscientific knowledge was paramount for states, not only to provide for their own energy needs, but also to buttress national economic and geostrategic interests and protect energy security. By investigating the postwar rebuilding and expansion of French and Italian oil industries from the second half of the 1940s to the early 1960s, this book shows how successive administrations in those countries devised strategies of oil exploration and transport, aiming at achieving a higher degree of energy autonomy and setting up powerful oil agencies that could implement those strategies. However, both within and outside their national territories, these two European countries had to confront the new Cold War balances and the interests of the two superpowers.

Un romanzo che non appare subito di facile comprensione ma sin dalle prime pagine, una volta penetrati nella sua chiave, avvince e costringe ad andare sino in fondo...

Una mosca si posa sui muri delle stanze dove i potenti decidono i destini dei popoli...

House of zar è la raccolta dei racconti di questo insetto ficcanaso, che origlia i discorsi e studia le mosse degli strongman o dei siloviki, se preferiamo usare l'antico nome russo, nella contesa più importante della modernità, quella per l'energia, che si tratti di gas naturale o petrolio. Il viaggio parte dall'analisi della politica di Vladimir Putin, la versione del XXI secolo dello zar di tutte le Russie. La sua diventa una "maschera della politica" di un palcoscenico calcato dai suoi pari, a cominciare dal nemico-amico Donald Trump alla cancelliera di ferro Angela Merkel, passando per il califfo Erdogan e finire inevitabilmente a Xi Jinping, attorno ai quali si muovono molti ambiziosi

comprimari. House of zar è un'analisi che mette insieme elementi geopolitici, storici, geografici e culturali per costruire uno storytelling sulle scelte dei commander in chief delle nazioni che si contendono il potere sul mondo. Dietro ognuno dei quali c'è una storia da spiegare, un obiettivo da raggiungere, un segreto da suggerire. House of zar ci prova con leggerezza, perché per la mosca dopo tutto è più importante essere un testimone del teatro dei potenti, per additare le loro virtù e le loro debolezze. Come il bambino che nella celebre fiaba I vestiti nuovi dell'imperatore puntandogli l'indice contro grida "il re è nudo".

Dopo la chiusura del suo "Candido", Giovannino Guareschi collaborò con "il Borghese", la rivista fondata da Leo Longanesi. Questo volume, introdotto da Alessandro Gnocchi, raccoglie per la prima volta gli articoli, le rubriche, le vignette pubblicati sul settimanale tra il 1963 e il 1964, oltre a quelli proposti ma non stampati e a brani tagliati e dunque inediti. Anche qui, Guareschi combatte con tutte le armi a sua disposizione (prima fra tutte l'ironia: della parola e del segno grafico) la sua eterna battaglia contro comunisti, democristiani, progressisti in generale (anche nella Chiesa) e conformisti. Il risultato è una controstoria dell'Italia degli ultimi anni del boom tracciata da un bastian contrario e straordinariamente vicina allo spirito del nostro tempo.

Die vorliegende Ausarbeitung gibt denjenigen Hilfestellung, die bereits gute Grundkenntnisse der italienischen Sprache besitzen und diese nun um den Wortschatz erweitern wollen, wie er in den italienischen Medien verwendet wird. Mit vielen Beispielsätzen lässt sich der Kontext der ausgewählten Begriffe besser einordnen. Zahlreiche Begriffe sind zum vertieften Verständnis mit weiteren Hintergrundinformationen ergänzt. Dem Leser bietet sich eine wahre Fundgrube, die in dieser Zusammenstellung bislang nicht vorhanden ist. Mit seinem Anliegen richtet sich das Werk sowohl an den wissenschaftlich vorgeprägten Leser als auch an den interessierten Laien. Thematisch wird dabei, in Anlehnung an den Aufbau einer italienischen Tageszeitung, ein weiter Bogen geschlagen von Politik über Wirtschaft, Justiz, Arbeit und Soziales bis hin zu Kultur, Umwelt, Verkehr oder Sport. Für häufig verwendete Namen und Bezeichnungen wird oftmals ein Ersatzbegriff gewählt. Wichtige Institutionen erhalten z.B. geografische Bezeichnungen: "Palazzo Chigi", "Montecitorio" u.a. Andere Einrichtungen werden nur in ihrer verkürzten Bezeichnung wiedergegeben. Das Werk enthält eine ganze Reihe solcher Stellvertreter- oder Kurzbezeichnungen. Ebenso sind die gängigsten Abkürzungen aufgenommen worden, die in den Medien meist nicht in der Langfassung enthalten sind. La pubblicità serve solo per vendere? O diventa anche uno strumento politico inserito in un ampio piano strategico di comunicazione? Una politica comunicativa allettante e incisiva, come quella dell'Ente nazionale idrocarburi guidato da Enrico Mattei, quanto può incidere sulla società e quanto ne riflette di essa? Quanto può influenzare l'immaginario collettivo degli italiani? Sono solo alcune delle domande a cui prova a dare risposta il volume. E lo fa attraverso l'analisi della strategia politica della comunicazione attuata dall'azienda dal miracolo economico agli anni Settanta. Le interviste alla Rai del presidente Enrico Mattei, i cortometraggi pubblicitari per la rubrica televisiva Carosello e le prime due riviste aziendali sono alcuni degli strumenti di comunicazione che, in sinergia tra loro, rispondono al bisogno di presentare al pubblico l'immagine di un'azienda moderna e di successo. Il volume documenta lo stretto legame che le attività dell'azienda hanno avuto con la società italiana, non solo perché l'Eni è stato uno dei pilastri del boom economico, ma anche per la capacità della politica comunicativa aziendale di riflettere l'immaginario di un'epoca e di essere in sintonia con l'evoluzione sociale del Paese.

laypeople. Based on the style of an Italian daily newspaper, the themes presented cover a broad range of subjects from politics to business, justice, labor and social issues as well as cultural topics, the environment, traffic, and sports.

Over the past century, the Italian landscape has undergone exceedingly rapid transformations, shifting from a mostly rural environment to a decidedly modern world. This changing landscape is endowed with a narrative agency that transforms how we understand our surroundings. Situated at the juncture of Italian studies and ecocriticism and following the recent “material turn” in the environmental humanities, *Elemental Narratives* outlines an original cultural and environmental map of the bel paese. Giving equal weight to readings of fiction, nonfiction, works of visual art, and physical sites, Enrico Cesaretti investigates the interconnected stories emerging from both human creativity and the expressive eloquence of “glocal” materials, such as sulfur, petroleum, marble, steel, and asbestos, that have helped make and, simultaneously, “un-make” today’s Italy, affecting its socio-environmental health in multiple ways. Embracing the idea of a decentralized agency that is shared among human and nonhuman entities, Cesaretti suggests that engaging with these entangled discursive and material texts is a sound and revealing ecocritical practice that promises to generate new knowledge and more participatory, affective responses to environmental issues, both in Italy and elsewhere. Ultimately, he argues that complementing quantitative, data-based information with insights from fiction and nonfiction, the arts,

and other humanistic disciplines is both desirable and crucial if we want to modify perceptions and attitudes, increase our awareness and understanding, and, in turn, develop more sustainable worldviews in the era of the Anthropocene. Elegantly written and convincingly argued, this book will appeal broadly to scholars and students working in the fields of environmental studies, comparative literatures, ecocriticism, environmental history, and Italian studies.

This book aims to provide an overview of Italian foreign policy from the moment of unification to the establishment of the European Union. Three turning points are crucial in order to clarify Italy's foreign policy: 1861, the proclamation of the Italian Kingdom; 1943, when Italy surrendered in World War II; 1992, the signing of the Maastricht Treaty. The international position of Italy continues to be an enigma for many observers and this fuels misinterpretations and prejudices. This book argues that Italy is different but not divergent from other European countries. Italian elites have traditionally seen foreign policy as an instrument to secure the state and import models for development. Italy can still contribute to international security and the strengthening of the EU. At the same time, Italy is not a pure adaptive country and has always maintained a critical attitude towards the international system in which it is incorporated.

Molti amanti degli animali farebbero di tutto per i propri cani, ma spesso sottovalutano un aspetto importante della loro salute: l'alimentazione. Ci sono molte scuole di

penso su cosa un cane possa o non possa mangiare, ma alla fine chi li ama sa che ognuno è diverso, nell'indole e nella pancia. Proprio come gli umani. Questo libro è stato pensato per chi rifiuta di nutrirli con scatolette di dubbia qualità, ma non può permettersi di acquistare i costosi prodotti delle marche più attente ai loro bisogni. Forse non tutti i giorni, ma in un'occasione speciale possiamo cucinare piatti deliziosi e adatti (con pochissime variazioni) per noi e per loro. Grazie ai consigli di Laura Rangoni, amante della cucina e degli animali, potremo condividere con i nostri cani anche uno dei piaceri della vita: la buona tavola.

The Organization of the Petroleum Exporting Countries (OPEC), celebrating its 60th anniversary in 2020, is one of the most recognizable acronyms in international politics. The organization has undergone decades of changing importance, from political irrelevance to the spotlight of world attention and back; and from economic boom for its members to deep political and financial crisis. This handbook, with chapters provided by scholars and analysts from different backgrounds and specializations, discusses and analyzes the history and development of OPEC, its global importance, and the role it has played, and still plays, in the global energy market. Part I focuses on the relationship between OPEC and its member states. Part II examines the relationship between OPEC and its customers, the consuming countries and their governments, while Part III addresses the relationship between OPEC and its competitors and potential partners, the non-OPEC producers, and the international oil companies. The

final section, Part IV, looks at OPEC and the governance of international energy. This study looks at entrepreneurial history from three angles: Entrepreneurial Typologies; Business Leaders; and Culture vs Institutions. The previous scarcity of material makes this collection of eight papers an invaluable resource and should encourage further analysis.

Francesco Rosi is one of the great realist artists of post-war Italian, indeed post-war world cinema. In this book, author Gaetana Marrone explores the rich visual language in which the Neapolitan filmmaker expresses the cultural icons that constitute his style and images. Over the years, Rosi has offered us films that trace an intricate path between the real and the fictive, the factual and the imagined. His films show an extraordinarily consistent formal balance while representing historical events as social emblems that examine, shape, and reflect the national self. They rely on a labyrinthine narrative structure, in which the sense of an enigma replaces the unidirectional path leading ineluctably to a designated end and solution. Rosi's logical investigations are conducted by an omniscient eye and translated into a cinematic approach that embraces the details of material reality with the panoramic perspective of a dispassionate observer. This book offers intertextual analyses within such fields as history, politics, literature, and photography, along with production information gleaned

from Rosi's personal archives and interviews. It examines Rosi's creative use of film as document, and as spectacle). It is also a study of the specific cinematic techniques that characterize Rosi's work and that visually, compositionally, express his vision of history and the elusive "truth" of past and present social and political realities.
