The city that we now know as Istanbul has been known by many different names throughout its long history. It was founded in 667 B.C.E. as Byzantium. Then, in 330, the Roman Emperor Constantine I christened it as New Rome. Later, it would come to bear his own name and be known as Constantinople, which was then rendered into Arabic languages as Kostantiniyye, which the Ottomans also adopted. The city was destined to finally be known in our modern age as Istanbul, derived from a Greek phrase meaning, simply, to the city. So much has changed over the time those names spanned that it seems impossible they could possibly refer to only one city. Yet they do, and the city of Istanbul is still a vibrant place that treasures the artifacts of the various peoples who once lived here and knew it by such different names. One phrase has also been used to name the city: "The City of the World's Desire." If judges could pick the most appropriate name for the city, perhaps they would choose this one, as it reflects most accurately how famous and how loved the city has been since antiquity. The face of Istanbul has changed considerably inside the modern nation. Justinian's masterpiece, the Hagia Sophia, was turned into a museum and its wonderful mosaics were revealed to the world once more in 1935. Two bridges now span the Bosphorus, and along with the historic skyline of the old city there are now also skyscrapers. Today, the city's importance in world history is indisputable, and it is difficult to believe that all of this long history concerns just one city. There is only one thing to do now – visit! Let's go! Your guide, WanderStories

In this compelling new book, bestselling author Erwin Lutzer urges Christians to see this as both an opportunity to share the gospel and a reason for concern. We have now reached a tipping

point—the spread of Islam is rapidly altering the way we live. These changes are cause for alarm, for they endanger our freedoms of speech and religion. At the same time, this opens an incredible door of ministry for Christians, for Muslims normally do not have access to the gospel in their own lands. In *The Cross in the Shadow of the Crescent*, readers will discover helpful answers to these questions and more: How does Islam's growing influence affect me personally? In what ways are our freedoms of speech and religion in danger? How can I extend Christ's love to Muslims around me? A sensitive, responsible, and highly informative must-read!

Istanbul Tourism, Turkey. The History and Travel Information, a Guide. Istanbul is hustling, beautiful, busy, chaotic, romantic, historic, kitsch, gorgeous depending on which part of the city you are and the time of day. A city of over 14 million people the time of day really would change the impression you get from where you are at. People move in this vast city built on two continents crossing continents, covering huge distances within the city. You may still relax, take your time and enjoy as long as you go to the right places at the right times. Want to relax? Then hit a side street, take a boat cruise, sit at a cafe on the Bosphorus, immerse yourself in Byzantine times in the quiet of a mosaic museum or watch the beautiful tiles in Blue Mosque. Want to see some city rush and human touch? Then go to Istiklal Street and just watch people pass by. European side is the business side, Asian the residential. Most people who work at foreign and domestic major corporations have left the city center for a life in the far suburbs where big gated communities, or even small scale cities in peripheries of Istanbul and are commuting daily to the city center. But they sure are missing the center!. Where ever you go, one thing is for sure: there's something strange about this city. May be it is because it has seen three empires in its long history: East Roman, Byzantine and Ottoman Empires. May be it has seen so many kinds of people from different parts of the world: Europe, Middle East, Central Asia, Eurasia, Africa.. Or may be it is just this strange mix that it offers. A blend of east and west or a fusion of old and new or a combination of traditional and modern. Is Istanbul the furthest east of the west? Or is it just the other way around? Are Turks eastern or western? Is "contrast" an Istanbul born phenomenon? You have to see it yourself and decide. The Vikings named it Miklagard "big city", the Slavs called it Tsarigrad, "City of Caesar", for the Greeks it has been Konstantinapolis. May be you will have a name of your own for Istanbul once you get to see this place. The thing is: you have to see this place.

Tour guides, a highly responsible group of professionals who are in direct communication with tourists traveling around the world, have a great impact on the proper promotion of the culture of countries, global peace, and tolerance. Additionally, they are also effective in the preservation of world natural heritage. Thus, the educational status of tour guides, as well as the characteristics and ethical values that they should possess, need to be examined on an international scale. In today's world, where tourism demand is directed towards all types of tourism, practices in special interest tourism should be customized in order to ensure the highest level of service quality and cultural appreciation. *Cases on Tour Guide Practices for Alternative Tourism* provides emerging research exploring the theoretical and practical aspects of the occupational issues that surround tour guides and their applications within international tourism. Featuring coverage on a broad range of topics such as cultural education, specialized learning, and

international business, this book is ideally designed for tour guides, travel agencies, tour managers, tour developers, heritage sites, museums, academicians, researchers, students, industry experts, and hospitality professionals.

Through every turn of the biblical story, God's people are a wandering people. When they are rescued from slavery in Egypt, God sends them into the desert, where they wander for a generation. Jesus and his disciples wander from town to town. In fact, some of God's most important truths are imparted to people with dusty feet as they travel on the road. With his trademark thoughtful introspection, A. J. Swoboda boldly suggests that wandering is not an absence of faith but a central component of faith. In *The Dusty Ones*, he leads the restless, the frustrated, and the curious on a spiritual journey to uncover the answers to questions like - Do I wander because I'm failing or because God has left me? - Is the desert something I can overcome? - Why is God sometimes "hidden" in the Bible? - What do I do when the end seems nowhere in sight? This compassionate and contemplative book offers hope and peace to Christians and seekers alike as they make their way down the winding road of faith.

Gradually since 2003, Turkey's autocratic leader Recep Tayyip Erdogan has sought to make Turkey a great power -- in the tradition of past Turkish leaders from the late Ottoman sultans to Ataturk, the founder of modern Turkey. Here the leading authority Soner Cagaptay, author of *The New Sultan* -- the first biography of President Erdogan -- provides a masterful overview of the

power politics in the Middle East and Turkey's place in it. Erdogan has picked an unorthodox model in the context of recent Turkish history, attempting to cast his country as a stand-alone Middle Eastern power. In doing so Turkey has broken ranks with its traditional Western allies, including the United States and has embraced an imperial-style foreign policy which has aimed to restore Turkey's Ottoman-era reach into the Arabian Middle East and the Balkans. Today, in addition to a domestic crackdown on dissent and journalistic freedoms, driven by Erdogan's style of governance, Turkey faces a hostile world. Ankara has nearly no friends left in the Middle East, and it faces a threat from resurgent historic adversaries: Russia and Iran. Furthermore, Turkey cannot rely on the unconditional support of its traditional Western allies. Can Erdogan deliver Turkey back to safety? What are the risks that lie ahead for him, and his country? How can Turkey truly become a great power, fulfilling a dream shared by many Turks, the sultans, Ataturk, and Erdogan himself?

Orhan Pamuk, der 2006 den Nobelpreis für Literatur erhielt, ergründet in Istanbul die Geheimnisse seiner eigenen Familie und führt uns an die verlorenen Paradiese der sagenhaften Stadt. Er beschreibt die verwünschten Villen und verwilderten Gärten, die Wasserstraßen des Bosphorus und des Goldenen Horns und die melancholischen Gassen der Altstadt. "Istanbul" ist ein Porträt der legendären Stadt an der Schnittstelle zwischen Ost und West und zugleich ein Selbstbildnis des Schriftstellers als junger Mann

What are the political uses—and misuses—of archaeology in the Middle East? In answering this question, the contributors to this volume lend their regional expertise to a variety of case studies, including the Taliban's destruction of Buddhas in Afghanistan, the commercialization of archaeology in Israel, the training of Egyptian archaeology inspectors, and the debate over Turkish identity sparked by the film *Troy*, among other provocative subjects. Other chapters question the ethical justifications of archaeology in places that have

process, they form various views of the role of the archaeologist, from steward of the historical record to agent of social change. The diverse contributions to this volume share a common framework in which the political use of the past is viewed as a process of social discourse. According to this model, political appropriations are seen as acts of social communication designed to accrue benefits to particular groups. Thus the contributors pay special attention to competing social visions and the filters these impose on archaeological data. But they are also attentive to the potential consequences of their own work. Indeed, as the editors remind us, 'people's lives may be affected, sometimes dramatically, because of the material remains that surround them.' Rounding out this important volume are critiques by two top scholars who summarize and synthesize the preceding chapters.

Inland territories are currently of great interest in the tourism industry based on their natural and cultural resources, the surroundings and valuing of natural spaces, local traditions and cultures, ways of life, and the experiences of territories with authenticity. In this context, ecocultural resources are determining factors of development for the mobilization of economic and socio-cultural initiatives, promoting tourism and generating conditions of sustainability in inland territories. They are spaces of opportunity, maintaining resources and heritage with high preservation, enhancing new perceptions and forms of use, generating territorial cohesion, promoting self-esteem for local communities, and providing diverse and differentiated tourist experiences. The involvement of the community is decisive in valuing the destination, understanding local ecocultural realities, and developing the processes of preservation and service creation. It is considered a necessary approach for inclusion, protection, and aggregating the ecological and cultural binomial as a determinant for deeper knowledge of territorial realities and their specificities. Thus, sustainability and participation are crucial for the long-term future of inland tourism activities, with local governance assuming an important role in building tourism capacity, mobilizing resources, and streamlining entrepreneurial initiatives.

Challenges and New Opportunities for Tourism in Inland Territories: Ecocultural Resources and Sustainable Initiatives provides knowledge on the trends for tourism in inland territories, territorial innovation, good governance practices, new projects in inland tourism, and other important aspects in the field. The topics covered include sustainability of local culture, cultural heritage, social responsibility, local governance, public policies, and innovation and tourism in inland territories. This book is essential for tourism management organizations, environmentalists, hotel managers, restaurateurs, tourism departments, practitioners, policymakers, public officials, researchers, academicians, and students interested in the innovative practices and initiatives in tourism with a specific focus on inland territories.

through honesty, hard work, strong determination, and perseverance, the American Dream could be realized regardless of his beginnings in life. "Puttin' on Airs" is the author's own story of himself as a poor boy who made good against the odds, a story which could have been written by Horatio Alger. The author describes his life growing up in rural Louisiana as one of the children of uneducated parents, under conditions of spirit-crushing poverty. He escaped this life by joining the Navy at age 17. Within 5 years' time he became an officer and aviator and went on to complete a 21-year Navy career. In time he obtained a university degree (with honors), the only member of his family to even attend college. Only 2 of the 10 children even graduated from high school, himself and a sister. "Join the Navy and see the world," the recruiting poster said, and see the world, he did. He has been on 6 continents and in over 40 countries. He was also on the front line of the Cold War from near its beginning to near its end, which included a year in Viet Nam as a helicopter pilot. As a helicopter pilot, he also helped retrieve the astronauts from the sea after their return to earth. With the same determination and grit that propelled him in his Navy career, he entered private business after retiring from the Navy, which has made him a wealthy man. This well-written book should be an inspiration to anyone who enjoys a good rags-to-riches story.
