Educational Research As An Extensive Activity In The Institutes For Higher Learning Generates Lot Of Enthusiasm Among Students And Researchers, But Little Is Known About The Relevance And Applicability On The Area And Clientele On Which Investigations Have Been Carried Out. An Attempt Has Been Made In The Book To Document The Research Outputs On School Education And To Examine How Could These Be Best Used As An Instrument For Improving School Education And Its Functioning Thereof. The Study Further Documents And Reviews The Trend Of Research Studies With A View To Examine Where We Stand Now, What Are The Gaps And Weaknesses In The Researches And On What Areas Could These Be Best Carried Out In Future. Recognizing The Need For Building Contextualized Research Capacities To Investigate Local Specific Problems, The Book Introduces The Notion Of Practitioner Research By Strengthening School-University Partnerships. This Move Is Envisaged To Reinforce School Practitioners To Take Up Small But Meaningful Researches On Their Day To Day Teaching And Learning Situations. It Is Felt That Due To Lack Of Professional Guidance, The School Practitioners Fail To Carry Out A Small Research Project. The Book, Therefore, Provides Guidelines And Directions To School Practitioners On How To Move On A Practice-Based Research Plan. It Is Expected That The Book Would Be Of Great Use To Students, Researchers, Practitioners And Educational Managers, Right From School To University Stages Of Education As Well As Professional And Vocational Education Training Institutes At Least To Those Who Show Concern And Belong To The Entire Education System But Are Committed To Initiate The Process By Making Strides Toward School Improvement As A Preliminary Step.

This book provides a comprehensive overview of the theory and praxis of Big Data Analytics and how these are used to extract cognition-related information from social media and literary texts. It presents analytics that transcends the borders of discipline-specific academic research and focuses on knowledge extraction, prediction, and decision-making in the context of individual, social, and national development. The content is divided into three main sections: the first of which discusses various approaches associated with Big Data Analytics, while the second addresses the security and privacy of big data in social media, and the last focuses on the literary text as the literary data in Big Data Analytics. Sharing valuable insights into the etiology behind human cognition and its reflection in social media and literary texts, the book benefits all those interested in analytics that can be applied to literature, history, philosophy, linguistics, literary theory, media & communication studies and computational/digital humanities.

This book constitutes the refereed proceedings of the Second International Conference on Futuristic Trends in Network and Communication Technologies, FTNCT 2019, held in Chandigarh, India, in November 2019. The 49 revised full papers and 6 short papers presented were carefully reviewed and selected from 226 submissions. The prime aim of the conference is to invite researchers from different domains of network and communication technologies to a single platform to showcase their research ideas. The selected papers are organized in topical sections on network and computing technologies; wireless networks and Internet of Things (IoT); futuristic computing technologies; communication technologies, security and privacy.

India, in this chronology of events, stands for the country as it is today and as it was before the Partition in 1947. This book takes off from 1424 BC, the year widely accepted by historians as that of the Battle of Mahabharata. Until the end of the 17th century, it mostly covers historical events with reference to matters concerning religion as well as the lives of luminaries. From the 18th century onwards, the chronology gradually embraces various aspects of the national panorama, including social reforms, law, politics, literature, education, sports, science, discoveries, inventions, industry, communications, cinema, etc., These are interspersed with anecdotes to make the book more interesting. The present edition has been revised till July 2008. Divided into four parts, the encyclopaedia contains: (A) a chronology of events, by year with cross-references to other years; (B) arrangement of the events by calendar dates; (C) a list of

important dynasties; and (D) a full index section, as well as an extra feature, 'First time in India' Chr(45) General and Women.

Jamia Millia Islamia MBA Entrance Exam Guide Ramesh Publishing House

This volume assembles renowned scholars to address, for the first time, the relationship between minorities and populism in South Asia and Europe from a critical perspective. Despite the very different and to some extent opposite historical and political trajectories, there is today a convergence on nationalist affirmation and on majoritarian politics between South Asia and Europe. In India, the Hindu majority rebels against wide-ranging minority rights anchored in the Constitution. In Europe, the refugee crisis and Islamic radicalization bring to the forefront the postcolonial legacy. Despite all rhetoric, there are obvious dangers of majoritarianism. Populist parties are divisive, partisan, disregard minority rights, engage in lynching, social division, stigmatization and exclusion, turning minorities into second-class citizens. There is a profound structural connection between minorities and the current rise of populism in India and Europe. But there remains a deep perplexity and also anxiety: Does the presence of minorities necessarily have to trigger majoritarian policies? Are there no solutions to this dilemma? Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration. But eventually they seem to have failed. Why so? Are multiculturalism and the recognition of differences still options today? On the other hand, most scholars in India typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west. But is liberal democracy really so bad in dealing with pluralism? This volume, collecting a selection of the Reset DOC Venice-Padua-Delhi dialogue series, is going to answer two fundamental questions. First, what precisely is the nexus between minorities and populism in South Asia and Europe? Starting from those case studies, the authors will also draw some general theoretical inferences about the nature of populism. Secondly, given the dangers of populism for minorities, the volume will look for the most adequate and feasible solutions.

With the steady growth of interest in the history of India under the British, interpretations have emerged, and they may sharply alter much of our thinking about Indian nationalism and British Imperialism. Some of these historical revisions, and the conclusions which may flow from them, are illustrated by the essays in this book. All of them grapple with questions of Indian political organization in different parts of the British Raj. They enquire how these organizations worked at different level; in the towns and in the countryside, in the

provinces and in the subcontinent itself. They examine how these kinds of politics came to be bonded together into what were called 'nationalist' movements. They suggest that the interplay between these movements and British Imperialism was very much more ambiguous than has been commonly supposed. All these essays are preliminary announcements of findings which will later appear in longer versions.
