On a dark and stormy night, Meg Murry and her family are visited by a stranger who surprises them by announcing that "there is such a thing as a tesseract." Two years earlier, Meg's father had disappeared while conducting experiments with a tesseract, a method of traveling through the fifth dimension. Now Meg, her brother Charles Wallace, and their friend Calvin must journey across time and space to find Meg's father. Though they are aided by three mysterious women, they must rely on their own skills--and in Meg's case, her faults--to rescue Mr. Murry from the forces of evil. 1963 Newbery Medal winner. Setting: Imaginative

On Geopolitics shows how the 'new geopolitics' combines the fields of geography and international relations to create a comprehensive overview of current political developments. Using recent developments in geographical technology as well as traditional theories and methods, Harvey Starr explores themes of spatiality and territoriality as they connect to international affairs. He also examines geopolitical dynamics beyond borders in a world now buffeted by non state actors and subject to intergovernmental institutions and norms. On Geopolitics is a brilliant synthesis of Starr's ongoing work on conflict and co-operation, alliances, opportunity, and willingness, within a geographic framework. At the same time, Starr points the way toward new tools and techniques for the study of globalisation and world politics.

Reading Essentials, Student Edition provides concise content of the Student Edition written at a lower grade level, making it perfect for struggling readers and ELL students. Over the past 20 years the global political economy has experienced its most profound shifts since the onset of the industrial revolution. In South Africa and the World, Mills Soko reflects on some of the salient issues that have pervaded public discourse during this time, analysing them within the context of the contemporary South African political

economy and of the country's position in the world. Arranged thematically, the essays were all written during a defining period in recent history, a period that has witnessed, among others, the accession of China to the WTO, the 9/11 terrorist attacks on the US, the invention of the iPad, the birth of Facebook, the 2008/9 global financial crisis, Brexit and the global coronavirus pandemic which began at the end of 2019. The turbulent multipolar world demands visionary political and economic leadership, supported by institutions well attuned to contemporary conditions. Such leadership is in short supply. Nor is the existing institutional architecture sufficiently equipped to deal with a complex array of economic, social, environmental, technological and demographic challenges. Mills Soko highlights what has not worked in terms of politics, leadership, foreign policy, the economy, the African development trajectory, corporate ethics, international trade, global governance, and the thread which underlies all these issues – the importance of strong, decisive and accountable leadership. He counters his criticism with what has worked and offers views on how some of the problems that have constrained progress in South Africa and the world can be solved. A central message emerges from his writings: leadership and governance matter, whether in the national or international context. It is a message that permeates all the chapters in the book. And it goes to the heart of what South Africa has gone through over the past two decades and where it is today.

The essays in this book, groundbreaking for its focus on teaching Latin American

poetry, reflect the region's geographic and cultural heterogeneity. They address works from Mexico, Chile, Peru, Ecuador, Colombia, Cuba, Brazil, Argentina, Guatemala, Nicaragua, and Uruguay, as well as from indigenous communities found within these national distinctions, including the Kaqchikel Maya and Zapotec. The volume's essays help instructors teach poetry written from the second half of the twentieth century on, meaningfully connecting this contemporary corpus with older poetic traditions.

Contributors address teaching various topics, from the *silva* and the long poem to Afro-descendant poetry, in ways that bring performance, digital approaches, queer theory, and translation into action. The insights offered here will demonstrate how Latin American poetry can become a part of classes in African diasporic studies, indigenous studies, history, and anthropology.

Does believing in Christ mean refusing to ask hard questions in the midst of doubt? Doubt is familiar territory for Lee Strobel, the former atheist and award-winning author of books for skeptics and Christians. But he believes that faith and reason go hand in hand, and that Christianity is a defensible religion. In this six-session revised small group Bible study (DVD/digital video sold separately), Strobel explores the most common emotional obstacles to faith in Christ. These include the natural inclination to wrestle with faith and doubt, the troubling presence of evil and suffering in the world, and the exclusivity of the Christian gospel. They also include this compelling question: Can I doubt and be a Christian? Through compelling personal stories and experts

The Third Edition of Miles & Huberman's classic research methods text is updated and streamlined by Johnny Saldaña, author of *The Coding Manual for Qualitative Researchers*. Several of the data display strategies from previous editions are now presented in re-envisioned and reorganized formats to enhance reader accessibility and comprehension. The Third Edition's presentation of the fundamentals of research design and data management is followed by five distinct methods of analysis: exploring, describing, ordering, explaining, and predicting. Miles and Huberman's original research studies are profiled and accompanied with new examples from Saldaña's recent qualitative work. The book's most celebrated chapter, "Drawing and Verifying Conclusions," is retained and revised, and the chapter on report writing has been greatly expanded, and is now called "Writing About Qualitative Research."

Comprehensive and authoritative, *Qualitative Data Analysis* has been elegantly revised for a new generation of qualitative researchers.

spiritual directors, healthcare chaplains, local clergy, theological educators, youth workers, the authors of this groundbreaking book have become convinced of the need to provide a practical guide to the practice of pastoral supervision understood as a core discipline of the Christian church and enriched by the best of what other supervision disciplines have to offer. Each chapter focuses on a different aspect of pastoral supervision, embedding it theologically and offering rooted examples from their own practice. At the end of each chapter practical exercises are offered to help the reader reflect on their own practice and tools are suggested for use with supervision groups and in work with individuals.

"If you're a parent who has decided to educate your children yourself, this book is the first you should buy."—*Washington Times* The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Jessie Wise and Susan Wise Bauer outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," the middle school "logic stage," and the high school "rhetoric stage." Using this theory as your model, you'll be able to instruct your child in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of

Big History is a new field on a grand scale: it tells the story of the universe over time through a diverse range of disciplines that spans cosmology, physics, chemistry, astronomy, geology, evolutionary biology, anthropology, and archaeology, thereby reconciling traditional human history with environmental geography and natural history. Weaving the myriad threads of evidence-based human knowledge into a master narrative that stretches from the beginning of the universe to the present, the Big History framework helps students make sense of their studies in all disciplines by illuminating the structures that underlie the universe and the connections among them. Teaching Big History is a powerful analytic and pedagogical resource, and serves as a comprehensive guide for teaching Big History, as well for sharing ideas about the subject and planning a curriculum around it. Readers are also given helpful advice about the administrative and organizational challenges of instituting a general education program constructed around Big History. The book includes teaching materials, examples, and detailed sample exercises. This book is also an engaging first-hand

account of how a group of professors built an entire Big History general education curriculum for first-year students, demonstrating how this thoughtful integration of disciplines exemplifies liberal education at its best and illustrating how teaching and learning this incredible story can be transformative for professors and students alike. This book is a metaphorical journey through the English lexicon, viewed as a vehicle and a mirror of cultural identity. From the translatability of phrases and metaphors to genre-specific terms, from English as a Lingua Franca to English language teaching, the studies collected here testify to the fact that in English – and overall in language – word contextualization or lack of contextualization impinges on linguistic utterances and leads to differing interpretations of the textual message. The book may be of interest to a wide range of scholars and students who are concerned with the study of the English lexicon, bearing in mind that this lexicon provides the bricks of any language, and language, in turn, needs the cornerstone of Culture to stand firmly and thrive.

Durch einen isländischen Krater steigen der Geologe Lidenbrock und sein Neffe Axel in die Unterwelt. Sie haben zuvor in einer Chronik ein geheimnisvolles Pergament gefunden, das ihnen, wie sie glauben, den Weg zum Mittelpunkt der Erde zeigt. Dazu haben sie zunächst die verschlüsselte Runenschrift auf dem Pergament zu enträtseln. Die beiden Forscher gehen nicht nur geologisch in die Tiefe; sie reisen durch die Zeitalter der Erdgeschichte und werden nach Irrwegen durch die Unterwelt schließlich durch den Schlot des Vulkanes Stromboli wieder ans Tageslicht zurückbefördert.

several chapters as an integral part of teacher education, and is discussed specifically in chapters addressing research on praxis inquiry within Active Group Practice (a collaborative dynamic) – and on collaboration as a critical aspect of self-study research by teachers addressing efficacy of practice for students with significant disabilities. Included in the discussion on teacher education is research on the beliefs and practices of mid- and later-career literacy/English teacher educators. Professional Working Theory (PWT) addresses the critical aspects of teacher knowledge, experience, and ethics. Specifically, this book includes research on examining the process involved in developing a PWT, on the development of teacher identity of preservice teachers through their engagement in creating PWTs, and on the process of and reflections on developing PWTs with teacher educators and U.A.E. and U.S.A. graduate students within the context of literacy and special education. This book brings to the fore the work of Mary C. Dalmau as a teacher educator whose career embodies the values of inclusion across educational settings, the empowerment of teachers, and the importance of ethics in educational decision making.

Bava Metziah and deals with the conditions under which an oath may be administered in a civil lawsuit. On the surface this issue appears mundane and far removed from the domain of holiness. However, when the discourse is studied in relation to passages from Scripture, Midrash, and Mishnah that are also presented, it becomes a spiritual and ethical adventure. Before embarking on this journey of discovery, the reader is given a concise explanation of the rules of logic and the argumentative style utilized in the Talmud. It becomes evident that the Talmud's style is essential to its mission to understand the timeless messages of Torah in the context of the ever-changing world in which we live. A non-threatening entrance into texts from the Apostolic Fathers to Mary Daly. The SCM Studyguide: Liturgy, 2nd Edition is an introduction to liturgy that considers the basic 'building blocks' needed to grasp the subject area. It outlines the essential shape and content of Christian worship and explores a range of liturgical dynamics of which both students of liturgy and leaders of liturgy need to be aware. This 2nd edition of the popular Studyguide is fully revised, updated and expanded. The book takes account of new developments in scholarship, engages with new contexts for liturgical celebration (notably, fresh expressions as part of a mixed economy of church), encompasses recent revisions in liturgy and seeks to broaden the engagement beyond the British context to consider the wider global context.

M. Maul den Leser mit in die Welt des Alten Orients und erläutert ihm die politischen, gesellschaftlichen und religiösen Vorstellungen der Kultur, die das Gilgamesch-Epos hervorgebracht hat. Das Epos erzählt den Mythos des Königs Gilgamesch von Uruk, der seine Kräfte mit der ganzen Welt messen will, nach der Unsterblichkeit strebt und schließlich auf die Erkenntnis zurückgeworfen wird, daß auch für ihn das Leben endlich ist. Bis Gilgamesch bereit ist, diese Lehre anzunehmen, und dadurch die Fähigkeit erwirbt, ein guter Herrscher zu sein, muß er zahllose Abenteuer bestehen. Das Gilgamesch-Epos ist so einem modernen Entwicklungsroman vergleichbar, der von den Grundfragen des menschlichen Daseins handelt.

hydrogen molecule. But when it does come across something more exotic: wow! First and most obviously, stars and planets. Some are familiar from our own backyard: yellow suns, rocky planets like Mars, gas and ice giants like Jupiter and Neptune. But there are many more: giant stars, red and white dwarfs, super-earths and hot Jupiters. Elsewhere are swirling clouds of dust giving birth to stars, and infinitely dense regions of space-time called black holes. These clump together in the star clusters we call galaxies, and the clusters of galaxies we call... galaxy clusters. And that is just the start. As we travel further we encounter ever more weird, wonderful and dangerous entities: supernovas, supermassive black holes, quasars, pulsars, neutron stars, black dwarfs, quark stars, gamma ray bursts and cosmic strings. A Journey Through The Universe is a grand tour of the most amazing celestial objects and how they fit together to build the cosmos. As for the end of the journey - nobody knows. Gisele, born in prewar Silesia, then part of Germany, has to flee with her family to the West in January 1945 to escape the Russian invasion. She loves school, but following her father's premature death, is forced to complete an apprenticeship as a seamstress. At 18 she immigrates to Canada, ahead of her family, as a government sponsored domestic. Through sheer willpower and perseverance she completes high school and enters Premeds, then Medical School at the University of Toronto graduating in 1963. In this compelling, informative, as well as entertaining memoir she vividly describes her and her classmates journey through these six years of learning. She shares her professional experiences in what was then still much of a man's world. Her varied career gives her unique insights into many aspects of medicine and the medical profession. Concurrently she endeavours to fulfil her role as wife and mother. This is a story of determination, pioneering spirit and love, told with candour and a fine sense of humour. An inspiration.

New Edition Available 12/28/2012 This thorough revision maintains the same basic structure of the first edition of Public Health Leadership. In five parts, it explores the basic theories and principles of leadership and then describes how they may be applied in the public health setting. Leadership skills and competencies, as well as methods for measuring and evaluating leaders are also thoroughly covered. The final chapter has been expanded to cover the future of public health and global leadership. Four new chapters have been added to the Second Edition: a chapter on the interface between management and leadership, a chapter on systems and complexity leadership concerns, and a chapter on employee development. The final new chapter will explore the transition from traditional leadership roles to the new roles required by a focus on bioterrorism and other disasters. New case studies, interviews, and exercises have also been added. The Second Edition also features new sidebar boxes with quotes from classic and contemporary writers on leadership.

Emily Brontë's beloved novel *Wuthering Heights* has been adapted countless times for film and television over the decades. Valérie V. Hazette offers here a historical and transnational study of those adaptations, presenting the afterlife of the book as a series of cultural journeys that focus as much on the readers, film-makers, and viewers as on the dramas themselves. Taking in the British silent film; French, Mexican, and Japanese versions; the British television serials; and more, this richly theoretical volume is the first comprehensive global analysis of the adaptation of *Wuthering Heights* for film and television.
