Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region. Providing a sensible, objective, consumer's guide to travel, these easy-to-use travel handbooks provide useful evaluations of local hotels, attractions, and restaurants in all price ranges, honest advice on local attractions that are worth the time and money, detailed maps, tips on special events and festivals, and extensive information on local shopping, sports, nightlife, and other activities.

Get your students growing with this outstanding hands-on activity book! Through gardening, book-sharing, and other creative activities, students learn about topics ranging from flowers, vegetables, and mushrooms to windowsill gardens, butterflies, and scarecrows. Recipes, word play, and poetry embellish the activities. Designed to motivate and inform, these projects promote learning in a variety of subjects - from ecology, history, and geography to career exploration and the sciences. The authors also provide a list of resources related to gardening - legends, historical fiction, biography, picture books, how-to guides, and environmental books. This is an excellent resource for educators - school librarians, classroom teachers, science education teachers, home school parents, botanical garden education directors, social workers,

camp directors - and anyone else who would like to start a children's gardening program.

We have designed our publications to guide you and help you make the right decisions when preparing for your journey as well as to assist you throughout your stay. The digital versions open up our city and region by giving you direct links to the activities, events and service providers....

“What better way to begin to explore the natural world than to experience the magic and beauty of a family garden.” —Arden Bucklin-Sporer, author of *How to Grow a School Garden* Many gardeners find that once they have children gardening goes the way of late-night dinner parties and Sunday morning sleep-ins. Raising kids and maintaining a garden can be a juggling act, leaving the family garden forgotten and neglected. But kids can make great gardening companions, and the benefits of including them are impossible to ignore. Gardening gets kids outdoors and away from television and video games, increases their connection to plants and animals, and helps build enthusiasm for fresh fruits and vegetables. Their involvement becomes the real harvest of a family garden. In *The Book of Gardening Projects for Kids*, Whitney Cohen and John Fisher draw on years of experience in the Life Lab Garden Classroom and gardening with their own children to teach parents how to integrate the garden into their family life, no matter its scope or scale. The book features simple, practical gardening advice, including how to design a play-friendly garden, ideas for fun-filled

Evolution Z - Stufe Eins! Ein Zombieroman im Stile von „The Walking Dead“ Nach einem dramatischen Flugzeugabsturz in der Wildnis von Maine denken die Überlebenden des Augusta Airline Fluges 303, sie hätten das Schlimmste überstanden. Captain Raymond Thompson organisiert die Gruppe und bemüht sich um Hilfe, doch es wird schnell klar, dass es die Welt wie wir sie kennen nicht mehr gibt. Alles scheint aus den Fugen zu geraten und niemand weiß, wo die Katastrophe ihren Ursprung hat. Nur eine elementare Wahrheit wird der Gruppe schnell klar: Machst du einen Fehler, bezahlst du mit dem Leben und wirst wie "Sie"...Ein absolutes Muss für alle Fans von „The Walking Dead“!

Be inspired on where to go, learn what to bring, and hit the road!

Research has demonstrated that many young learners lose knowledge gained during the academic school year over the summer break. There are efforts to address this issue through “out of school time” (OST) programming. From summer camps to after school programs to home and community organizations, those working with K-12 children in these areas are eager to respond to the academic needs of the youth they serve. There is a clear gap between available supports and information needed by OST educators to appropriately address the need of young learners to sustain literacy gains. SPARK: Literacy Strategies and Supports for Out-of- School Time Spaces offers best practices and strategies from the academic literacy field and are described with examples specifically for implementation outside of the school classroom. The information in each chapter has been carefully written to guide the target audience as they work to link out-of-school time education and in-school literacy. This book also offers information on literature for children and youth and multiple free online supports. Geared towards parents with children between the ages of two and twelve, Fun with the Family Massachusetts features interesting facts and sidebars as well as practical tips about traveling with your little ones.

It is THE indispensable guide to the city. Period.

Bill Laar and Jackie Holderness' *Reclaiming the Curriculum* examines the nature of a broad-ranging, content-rich primary school curriculum and presents case studies that exemplify how it can be effectively delivered. Many schools believe that the value of their work is undermined by a test-driven agenda that limits the breadth of the education they provide and who can blame them? In *Reclaiming the Curriculum* Bill and Jackie inspire teachers to escape such narrow confines by unearthing a rich seam of case study examples from schools who are broadening their provision with specialist content that transcends the core curriculum: taking pupils into the realms of exploration and enquiry while also providing for higher attainment in the core subjects. Featuring a variety of exciting initiatives, ranging from the development of an IT-enabled collaborative learning space to the artful application of storytelling across the

curriculum, this book will embolden primary schools to identify and enhance their own creative practice and more effectively prepare pupils for the tests of life, not a life of tests. The 18 case studies written by a diverse line-up of contributors including school leaders, teachers and special-ist coaches are sourced from a mixture of different settings and offer detailed descriptions of the initiatives' unique backgrounds: their genesis and inspiration, their underpinning aims and objectives, and the ways in which they were resourced, realised and, eventually, evaluated. At the beginning of each chapter, Bill and Jackie briefly summarise the educa-tional value of each example of curriculum development, the significance of specific aspects and the ways in which they are likely to help maintain full and relevant learning. Each case study then presents the contributors' first-hand perspectives as they: describe in detail the structure that underpins the provision including the number of staff involved and the time and resources allocated; share interesting insights into the level of pupil involvement and, where relevant, the extent of parental and community participation; paint a vivid picture of how the initiatives have been made compatible with their school's wider educational programme; and provide practical guidance, useful links and relevant resources to aid readers' own pursuit of curriculum development. Suitable for primary school teachers and leaders.

With Cape Town's spectacular setting, cosmopolitan vibe and African roots, this city has a certain special something for even the most blasé traveller. While Cape Town manages to combine First World flair with a palpable Third World energy, its striking natural beauty is truly staggering to behold: with the Atlantic on its doorstep, Table Mountain overseeing goings-on in the City Bowl, and the
