Several encyclopedias overview the contemporary system of criminal justice in America, but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems. Thus, this four-volume work surveys the history and philosophy of crime, punishment, and criminal justice institutions in America from colonial times to the present. It covers the whole of the criminal justice system, from crimes, law enforcement and policing, to courts, corrections and human services. Among other things, this encyclopedia will: explicate philosophical foundations underpinning our system of justice; chart changing patterns in criminal activity and subsequent effects on legal responses; identify major periods in the development of our system of criminal justice; and explore evolving debates and conflicts on how best to address issues of crime and punishment. Its signed entries provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U.S. system of law and justice.

The Cambridge Yearbook of European Legal Studies provides a new forum for the scrutiny of significant issues in European Union Law, the Law of the Council of Europe, and Comparative Law with a "European" dimension, and particularly those which have come to the fore during the year preceding publication. The contributions appearing in the collection are commissioned by the Centre for European Legal Studies (CELS) Cambridge, which is the research Centre of Cambridge University Law Faculty specialising in European legal issues. The papers presented are all at the cutting edge of the fields which they address, and reflect the views of recognised experts drawn from the University world, legal practice, and the civil services of both the EU and its Member States. Inclusion of the comparative dimension brings a fresh perspective to the study of European law, and highlights the effects of globalisation of the law more generally, and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders. The author of this book, Prof. S.K. Amor, is Acting Director of the Justice Training Centre and lecturer at the University of Namibia. The writing of this book was inspired mainly by the fact that, despite Namibia's independence in 1990, Namibian legal practitioners, academics and students lecturing and studying law at the University of Namibia (UNAM) still do not have a truly Namibian reference book. Instead, they rely heavily on legal literature from South Africa and other countries. An Introduction to Namibian Law is an attempt to bridge this gap by introducing law academics, lecturers and students to the most important aspects of Namibian law. It explains the origin of the country's law and looks at the various influences over the years. The book contains material covered in various UNAM courses, such as Jurisprudence, Introduction to Cases, Comparative Law, Constitutional and Administrative Law, Interpretation of Statutes, and Civil and Criminal Procedure. It also contains various extracts in support of legal arguments, in which legal concepts are illustrated and thoroughly explained, as well as sample legal forms. Full accounts of certain cases are included to give students of Namibian law a depth of understanding of how Namibian law has been applied over the years.
