"Hilton Carter's love for plants is infectious... His lush and exuberant displays are inspiring reminders that plants can be so much more than neat little containers on a window sill." Grace Bonney, Founder and Editor-in-Chief, Design*Sponge Take a tour through Hilton's own apartment and other lush spaces, filled with a huge array of thriving plants, and learn all you need to know to create your own urban jungle. As the owner of over 200 plants, Hilton feels strongly about the role of plants in one's home – not just for the beauty they add, but for health benefits as well: 'having plants in your home not only adds life, but changes the airflow throughout. It's also a key design element when styling your place. For me, it wasn't about just having greenery, but having the right variety of greenery. I like to see the different textures of foliage all grouped together. You take a fiddle leaf fig and sandwich it between a birds of paradise and a monstera and.... yes!' You will be armed with the know-how you need to care for your plants, where to place them, how to propagate, how to find the right pot, and much more, and most importantly, how to arrange them so that they look their best. Combine sizes and leaf shapes to stunning effect, grow your own succulents from leaf cuttings, create your own air plant display, and

A collection of patterns and projects employing such fine needlework skills as lace-making, tatting, Irish crochet, and netting

Have New Zealanders found paradise? Few would deny the magnificence of New Zealand's landscape; from its secluded bays, and numerous tranquil lakes to its glaciers and the soaring majesty of the Southern Alps, it is always surprising. As the Maori have always attested their country is more than simply what can be seen. It is also its ancestral history, legends, fauna and even its sea life. Travels with Suzy, Doc and Ella is ostensibly the account of two journeys around New Zealand. Though full of its people, their stories and vivid descriptions of its scenery, it is blended with observations that lead towards an understanding of that history and its development into a peaceable cosmopolitan nation. In parallel with these journeys are the Maori and their struggle for recognition and the route of New Zealand's constitution from initial chaos to the fifth most democratic country in the world. Out of this has also blossomed one of the most ecologically aware countries. These paths have not always been easy but this book does not shy from the truth or voiced criticism. Perhaps Kiwis have found
