The editors identify three main themes: collaborativerelationships, operating both in frameworks and within networks ofcontacts, e.g. relational contracting in partnering, supply chainmanagement and other procurement-driven initiatives. The second theme is frameworks, both contractual frameworksbinding parties together over a series of contracts, and conceptualframeworks used to develop future performance improvement arisingfrom the proactive strategies of firms. The third theme is the network of relationships that supportsindividuals and firms within the project coalition in deliveringservices and adding value to improve performance. These networksdefine the investment and incentives supporting the inter-firm andintra-firm relationships, as well as the formal contractualconditions through which such incentives flow. Networks ofinformation exchange define the structure of the activity and helppredict organisational configurations for successful projectoutcomes.

Jede sinnvolle Entscheidung bezüglich einer bestimmten Aktivität, dazu gehört grundsätzlich auch immer die Unterlassensalternative, setzt ein Ziel voraus. In beiden Fällen, Ziel und Maßnahme/Aktivität, ist es unvermeidlich, vor der Entscheidung über ein Ziel bzw. eine Maßnahme systematisch Alternativen zu suchen und zu finden, sich mit letzteren auseinanderzusetzen, d. h. sie zu untersuchen und zu bewerten sowie die Auswahl der besten Aktivität zu treffen. Diesen Prozess nennt man Planung im engeren Sinne. Eine Planung ohne spätere Kontrolle führt jedoch oft nicht zu einem Optimum. Erst im Zuge einer Kontrolle des geplanten und entschiedenen Ziels bzw. einer Maßnahme wird klar, ob das Ziel das richtige war bzw. die Maßnahme zur Zielerreichung geführt hat. In dieser Schrift wird auf beide Themen grundlegend eingegangen, indem zunächst die Themen Planung und Kontrolle in den Kontext der

Unternehmensführung eingeordnet werden. Dabei wird explizit auf die Organisationseinheit "Unternehmen" als auch auf die Führungsebenen und -aufgaben sowie die Anforderungen an eine Führungskraft eingegangen sowie die Rahmenbedingungen der Unternehmensführung beschrieben. Das vorliegende Werk wendet sich an alle Leser, die sich in Studium oder Beruf mit Planung und Kontrolle in einem Unternehmen beschäftigen. Es richtet sich an Dozenten und Studierende der Wirtschaftswissenschaften an Fachhochschulen, Universitäten und Berufsakademien. Es ist gleichermaßen zum Selbststudium für Führungskräfte geeignet, die einen fundierten theoretischen Background für Planungen und Kontrollen im Unternehmen suchen.

HUMAN RESOURCE MANAGEMENT, 10TH EDITION

This book brings together distinguished writers from diverse fields and their specialised perspectives on new ideas and the challenges they pose to the hegemony of neo-classical scientific management. It explores various possibilities for the future development of the understanding of management and organisation in the context of new economic conditions taking shape in both the East and the West. The focus on these makes this volume topical. It provides today's managers with alternatives to conventional approaches to management that are

now facing a credibility crunch. Managing in Changing Times: A Guide for the Perplexed Manager shows the manager that there are no easy, quick-fix, off the shelf solutions to complex problems. Solutions require thinking and action with multiple perspectives and require considerable effort to master. This imparts the book a global appeal as it speaks to every manager. The initial chapters present the ideas of Schumacher and Capra which, the author shows, could be used as catalysts to evolve a post-scientific global management era. The book will be a handy reference material for students of management, managers and management pundits.
