Strategic Marketing Management: Theory and Practice offers a systematic overview of the fundamentals of marketing theory, defines the key principles of marketing management, and presents a value-based framework for developing viable market offerings. The theory presented stems from the view of marketing as a value-creation process that is central to any business enterprise. The discussion of marketing theory is complemented by a set of practical tools that enable managers to apply the knowledge contained in the generalized frameworks to specific business problems and market opportunities. The information on marketing theory and practice contained in this book is organized into eight major parts. The first part defines the essence of

marketing as a business discipline and outlines an overarching framework for marketing management that serves as the organizing principle for the information presented in the rest of the book. Specifically, we discuss the role of marketing management as a value-creation process, the essentials of marketing strategy and tactics as the key components of a company's business model, and the process of developing an actionable marketing plan. Part Two focuses on understanding the market in which a company operates. Specifically, we examine how consumers make choices and outline the main steps in the customer decision journey that lead to the purchase of a company's offerings. We further discuss the ways in which companies conduct market research to gather market insights in order to make informed decisions and develop viable courses of action. Part Three covers issues pertaining to the development of a marketing strategy that will guide the company's tactical activities. Here we focus on three fundamental aspects of a company's marketing strategy: the identification of target customers, the development of a customer value proposition, and the development of a value proposition for the company and its collaborators. The discussion of the strategic aspects of marketing management includes an in-depth analysis of the key principles of creating market value in a competitive context. The next three parts of the book focus on the marketing tactics, viewed as a process of designing, communicating, and delivering value. Part Four describes how companies design their offerings and, specifically, how they develop key aspects of their products, services, brands, prices, and incentives. In Part Five, we address the ways in which companies manage their marketing communication and the role of personal selling as a means of persuading customers to choose, purchase, and use a company's offerings. Part Six explores the role of distribution channels in delivering the company's offerings to target customers by examining the value-delivery process both from a manufacturer's and a retailer's point of view. The seventh part of the book focuses on the ways in which companies manage growth. Specifically, we discuss strategies used by companies to gain and defend market position and, in this context, address the issues of pioneering advantage, managing sales growth, and managing product lines. We further address the process of developing new market offerings and the ways in which companies manage the relationship with their customers. The final part of this book presents a set of tools that illustrate the practical application of marketing theory. Specifically, Part Eight delineates two workbooks: a workbook for segmenting the market and identifying target customers and a workbook for developing the strategic and tactical components of a company's business model. This part also contains examples of two marketing plans—one dealing with the launch of a new offering and the other focused on managing an existing offering.

Marketing management support systems are designed to make marketing managers more effective decision makers in this electronic era. Developments in information technology have caused a marketing data explosion, but have also provided a powerful set of tools that can transform this data into applicable marketing knowledge. Consequently, companies are making major investments in such marketing decision aids. This book is the first comprehensive, systematic textbook on marketing management support systems. The basic issue is the question of how to determine the most effective type of support for a given marketing decision maker in a particular decision situation. The book takes a demand-oriented approach. Decision aids for marketing

Read Online Marketing Management Questions And Answers Objective Type

managers can only be effective if they match with the thinking and reasoning process of the decision makers who use them. Consequently, the important questions addressed in this book are: how do marketing managers make decisions; how can marketing management support systems help to overcome several (cognitive) limitations of human decision makers; and what is the most appropriate type of management support system for assisting the problem-solving methods employed by a marketing decision-maker?

Although marketing-related expenses are a significant portion of most organizations' budgets, it is often frustrating for those with budget oversight to get a clear picture of the returns on their marketing investment. This engaging book offers practical ways for non-marketing managers and executives to measure and improve marketing returns. It gives you the tools you need to be able to correctly assess the potential of your marketing and accurately evaluate the returns. You'll learn: Why market leaders achieve significantly greater returns on their marketing than others within their market. The 3 main reasons most marketing plans fail to live up to their potential, and the steps you must take to avoid these pitfalls. How to evaluate your marketing investment's likely ROI before you invest the money. When and how to assess the financial returns of your marketing efforts. How well your own organization is performing in the management of its marketing investments. The book includes: Case studies from companies of various sizes and in a cross-section of industries, including not-for-profits 4 tests to use prior to the approval of a marketing budget A marketing performance evaluation tool to assess and improve your organization's marketing management

Marketing as a practice is facing unprecedented challenges: a changing media landscape, an increasingly complex customer journey, innovative technologies, start-ups which disrupt traditional channels and a new generation of tech-savvy clients. How should students and practitioners adapt to this shifting landscape and address the skills gap that many of today's marketers face? Advanced Marketing Management prepares students for this new world of marketing. Since traditional marketing approaches fail to provide convincing solutions to modern business realities, a new approach is urgently needed if marketers are to regain trust within their organizations. Using contemporary examples, business case studies and supporting pedagogy, Advanced Marketing Management will provide a critical exploration into the more advanced aspects of marketing management, including the gap that exists between formal marketing literature and real-world practice, discussion of multidisciplinary tools, and the crucial evolution of the '4Ps'. Summarizing a large body of literature and academic research on new developments, this book is the go-to guide for students, lecturers and practitioners, wanting to succeed as modern marketers. Online resources include lecture slides and further questions for group discussion.
