CBIP is the complete reference and buying guide to English-language Canadian books currently in print; consequently, the Author and Title Index, Subject Index and microfiche editions are indispensable to the book profession. With submissions from both small and large publishers, CBIP provides access to titles not listed anywhere else. Containing more than 48,000 titles, of which approximately 4,000 have a 2001 imprint, the Author and Title Index is extensively cross-referenced. The Subject Index lists the titles under 800 different subject categories. Both books offer the most complete directory of Canadian publishers available, listing the names and ISBN prefixes, as well as the street, e-mail and web addresses of more than 4,850 houses. The quarterly microfiche service provides updated information in April, July and October. CBIP is constantly referred to by order librarians, booksellers, researchers, and all those involved in book acquisition. In addition, CBIP is an invaluable record of the vast wealth of publishing and writing activity in the scientific, literary, academic and arts communities across Canada. A quarterly subscription service including the annual Author and Title Index (March 2001) plus quarterly microfiche updates (April, July, and October 2001) is also available. For some time now, the study of cognitive development has been far and away the most active discipline within developmental psychology. Although there would be much disagreement as to the exact proportion of papers published in developmental journals that could be considered cognitive, 50% seems like a conservative estimate. Hence, a series of scholarly books to be devoted to work in cognitive development is especially appropriate at this time. The Springer Series in Cognitive Development contains two basic types of books, namely, edited collections of original chapters by several authors, and original volumes written by one author or a small group of authors. The flagship for the Springer Series will be a serial publication of the "advances" type, carrying the subtitle Progress in Cognitive Development Research. Each volume in the Progress sequence will be strongly thematic, in that it will be limited to some well-defined domain of cognitive-developmental research (e. g. , logical and mathematical development, semantic development). All Progress volumes will be edited collections. Editors of such collections, upon consultation with the Series Editor, may elect to have their books published either as contributions to the Progress sequence or as separate volumes. All books written by one author or a small group of authors will be published as separate volumes within the series. A fairly broad definition of cognitive development is being used in the selection of books for this series.

Vol. 115 includes Diamond jubilee issue, 1867-1927.

Mit "Sohn ihres Vaters" erlebte Tahar Ben Jelloun seinen Durchbruch als Schriftsteller. Er erzählt darin im Stil eines orientalischen Märchens aus Tausendundeiner Nacht die Geschichte von Zahra, der achten Tochter des arabischen Kaufmanns Hadsch Ahmed Suleiman, der sich verzweifelt einen Sohn als Nachfolger wünscht. Weil er den Sohn nicht bekommt, erklärt er kurzerhand Zahra zu seinem "kleinen Prinzen". Und so wächst Zahra vor den Augen der Familie, der Verwandten, der Nachbarschaft als Knabe Ahmed auf ... Mit "Die Nacht der Unschuld" spinnt Ben Jelloun Zahras Geschichte fort. Sie ist zwanzig Jahre alt, als ihr Vater stirbt und sie sich endlich nicht mehr als Junge ausgeben muss. "Glücklich, verrückt und ganz neu" macht sie sich in einer haltlosen Männergesellschaft auf die Suche nach ihrer Identität. Der zärtlichste und zugleich zornigste Roman des großen Ben Jelloun, für den er den Prix Goncourt bekam.
