This book analyzes the theory and practice of products liability litigation, whether the issue is drugs, food, chemicals, or any of the 100s of other products that may be the subject of litigation.

A contemporary, easy-to-teach text by the Reporters for the new Restatement of the Law Liability Insurance, this casebook invites students and teachers to re-imagine the field of Insurance Law. The authors demonstrate the big-picture role of insurance law and policy in American business and society, exploring federal-state regulatory roles in depth as well as the traditional topics covered in casebooks. Insurance Law and Policy: Cases and Materials uses more statutory material than any other casebook, with statutes typically presented through problems. Manageable assignments contain one major case followed by informative notes, questions and a problem. This text appeals to Insurance teachers as well as teachers of Torts and Contracts considering a new course. The Teacher's Manual—with case briefs, backgrounds on selected cases, simple diagrams that explain complex issues, and answers to questions and problems—is especially useful for instructors new to the course. New to the Fifth Edition: Expanded coverage of the role of insurance in disasters and catastrophes, including the COVID-19 pandemic Extensive treatment of the now-finalized Restatement of the Law, Liability Insurance Reorganization of the liability insurance chapters to facilitate more step-by-step learning Replacement of a few difficult-to-teach cases with new, more straightforward cases Professors and student will benefit from: Focus on the big picture of federal-state regulatory roles in addition to the traditional insurance coverage topics addressed in other Insurance Law casebooks Extensive use of statutory materials, with statutes typically presented through carefully-constructed problems Manageable assignments structured with one major case, informative notes, questions, and a problem Interesting, up-to-date cases, with context-setting introductions, on topics such as cyber insurance, the role of private insurance in responding to public catastrophes, and the new Restatement of the Law Liability Insurance Cases are longer, providing students better grounding in the art of extracting useful knowledge from judicial opinions Elimination of some of the arcane aspects of insurance law in favor of presenting a broad and conceptual overview of the field

"This book gives a brief yet thorough summary of the main components of police accountability in the 21st century. What works, what doesn't, and where are we going in the future? I love to use it with my undergraduate students to help them understand the complexities of policing in the modern era." —Janne E. Gaub, East Carolina University Completely revised to cover recent events and research, the Third Edition of *The New World of Police Accountability* provides an original and comprehensive analysis of some of the most important developments in police accountability and reform strategies. With a keen and incisive perspective, esteemed authors and policing researchers, Samuel Walker and Carol Archbold, address the most recent developments and provide an analysis of what works, what reforms are promising, and what has proven unsuccessful. The book's analysis draws on current research, as well as the President's Task Force on 21st Century Policing and the reforms embodied in Justice Department consent decrees. New to the Third Edition: The national crisis over police legitimacy and use of force, is put into context through extensive discussions of recent police shootings and the response to this national crisis, providing readers a valuable perspective on the positive steps that have been taken and the limits of those steps. Coverage of the issues related to police officer uses of force is now the prevailing topic in Chapter 3 and includes detailed discussion of the topic, including de-escalation, tactical decision making, and the important changes in training related to these issues. An updated examination of the impact of technology on policing, including citizens' use of recording devices, body-worn cameras, open data provided by police agencies, and use of social media, explores how technology contributes to police accountability in the United States. A complete, up-to-date discussion of citizen oversight of the police provides details on the work of selected oversight agencies, including the positive developments and their limitations, enabling readers to have an informed discussion of the subject. Detailed coverage of routine police activities that often generate public controversy now includes such topics as responding to mental health calls, domestic violence calls, and police "stop and frisk" practices. Issues related to policing and race relations are addressed head-on through a careful examination of the data, as well as the impact of recent reforms that have attempted to achieve professional, bias-free policing.
