Essential AS Biology for OCR Nelson Thornes

Exam Board: OCR Level: AS/A-level Subject: Biology First Teaching: September 2015 First Exam: Summer 2016 Reinforce students' understanding throughout their course with clear topic summaries and sample questions and answers to help your students target higher grades. Written by experienced examiner Richard Fosbery, our Student Guides are divided into two key sections, content guidance and sample questions and answers. Content guidance will: - Develop students' understanding of key concepts and terminology; this guide covers modules 3 and 4: exchange and transport; biodiversity, evolution and disease. - Consolidate students' knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - Build students' understanding of the different question types, so they can approach questions from modules 3 and 4 with confidence. - Enable students to target top grades with sample answers and commentary explaining exactly why marks have been awarded.

Written by a senior examiner, Richard Fosbery, this OCR A2 Psychology Student Unit Guide is the essential study companion for Unit F214: Communication, Homeostasis and Energy. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.

Written by a senior examiner, Richard Fosbery, this OCR AS Psychology Student Unit Guide is the essential study companion for Unit F211: Cells, Exchange and Transport. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade

Exam Board: OCR Level: A-Level Subject: Biology First Teaching: September 2015 First Exam: Summer 2016 With My Revision Notes: OCR A Level Biology A you can: - Manage your own revision with step-by-step support from experienced teacher and examiner Frank Sochacki - Apply biological terms accurately with the help of definitions and key words - Plan and pace your revision with the revision planner - Test understanding with questions throughout the book - Get exam ready with last minute quick quizzes available on the Hodder Education website

Indexes the Times, Sunday times and magazine, Times literary supplement, Times educational supplement, and the Times higher education supplement.

Please note this title is suitable for any student studying: Exam Board: OCR Level: A Level Year 2 Subject: Biology First teaching: September 2015 First exams: June 2017 Written by curriculum and specification experts in partnership with OCR, this Student Book supports and extends students throughout their course while delivering the breadth, depth, and skills needed to succeed at A Level and beyond. This comprehensive guide delivers informed hope along with effective tools for reclaiming your vitality in the midst of cancer treatment, healing, and recovery. When you or a loved one is faced with a cancer diagnosis, the need for accurate and trusted medical information becomes urgent. Naturopathic physician Lise N. Alschuler and medical journalist Carolyn A. Gazella present an overview of what cancer is, its causes and preventative strategies, an in-depth approach to integrative treatment options, descriptions of key body functions, and discussions of more than twenty specific cancers. The Definitive Guide to Cancer, now in its third edition, encourages you to take an integrative approach that embraces both alternative and conventional therapies across the spectrum of cancer prevention, treatment, and healing.

From the same author as the popular first edition, the second edition of this trusted, accessible textbook is now accessible online, anytime, anywhere on Kerboodle. It breaks down content into manageable chunks to help students with the transition from GCSE to A Level study, and has been fully revised and updated for the new A Level specifications for first teaching September 2015. This online textbook provides plenty of examples and practice questions for consolidation of learning, with 'Biology at Work', 'Key Skills in Biology' and 'Study Skills' sections giving many applications of biology throughout. Suitable for AQA, OCR, WJEC and Edexcel.

This A-level magazine makes cutting-edge biology research accessible and relevant for students, supporting them to get their best grade. Featuring the latest thinking on advanced topics, Biological Sciences Review aims to challenge students and increase their confidence with data, technical terms, practical experiments and exam skills. Contents Marine bacteria and the plastisphere Robyn Wright Bioethics Tackling cancer: getting personal Chris Wilmott Snake venom Max Drakeley, Liz Sheffield and Catherine McCrohan The measure of a monkey: speciation and hybrids Duncan Wright Prospects Feeding the future Joseph Moughan What is...? Written by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also developing essential exam skills. Covers the second year of content required for the Advancing Biology A Level qualification.

Written by experienced authors and practising teachers the Essentials student book matches the OCR specifications for AS Biology and Human Biology.

Exam Board: OCR Level: A-level Subject: Biology First Teaching: September 2015 First Exam: June 2016 This is an OCR endorsed resource Encourage students to learn independently and build on their knowledge with this textbook that leads students seamlessly from basic biological concepts to more complicated theories. - Develop experimental, analytical and evaluation skills with activities that introduce the practicals required by OCR and other experimental investigations in Biology - Provide assessment guidance with synoptic questions and multiple choice questions throughout the book, and revision tips and skills all in one chapter - Strengthen understanding of key concepts with contemporary and engaging examples, illustrated with accessible diagrams and images - Give students the opportunity to apply their knowledge and understanding of all aspects of practical work with Test Yourself Questions and Exam Practice Questions - Offer detailed guidance and examples of method with a dedicated 'Maths in Biology' chapter and mathematical support throughout - Develop understanding with free online access to answers, an extended glossary, learning outcomes and topic summaries OCR A Level Biology Student Book 1 includes AS Level

Health-centred research has changed hugely over the last ten years, from the importance of computing software to the NHS becoming more involved in research. The expectations of grant-awarding bodies, ethics committees and publishers have evolved and increased in many senses. This new edition is designed for trainee clinicians, not only those preparing for membership of the

Royal College of Obstetricians and Gynaecologists (MRCOG) but also higher degree candidates and aspiring clinical academics. Chapter authors with extensive expertise make the path to embarking on research direct, straightforward and most importantly, fun and interesting, particularly aiming to support those who trained clinically and are now undertaking a research project or beginning an academic career. There remains no single book with so much relevant information gathered in a single, succinct volume. This edition now covers the wide spectrum of modern research methods for all specialities, with five supplementary chapters on major obstetric and gynaecological subspecialties.

Exam Board: OCR Level: A-level Subject: Biology First Teaching: September 2015 First Exam: Summer 2017 Reinforce students' understanding throughout their course with clear topic summaries and sample questions and answers to help your students target higher grades.
