As top-down educational reform policies at local and national levels increasingly isolate teachers from their own professional and instructional agency, and stultify children's passion for learning, new techniques are needed for understanding and transforming educational practices. *Narrative Inquiry in Early Childhood and Elementary School: Learning to Teach, Teaching Well* facilitates meaningful change in early years education by providing early childhood and elementary school teachers with methods to incorporate narrative into their instruction and inquiry. This book offers practical strategies for incorporating narrative tools and structures into the classroom, and encouraging effective conceptual, pedagogical, and personal avenues for engaged teaching and learning across languages and cultures. The book's chapters promote a lively discussion of central tenets of narrative inquiry and illustrative examples of teachers at work with narrative and inquiry for improving their practice and children's learning.

Help students improve their writing skills by implementing useful strategies that can be used by today's teachers.

They will enable students to find their way to the best resources for their own projects. From preparing the preliminary outline, work file, and bibliography, *Research Shortcuts* proceeds to using the appropriate resource guides, as well as modern aids to research. It also discusses shortcuts that reach the experts: writing letters that get questions answered, and making face-to-face (or telephone) interviews pay off. A final section is devoted to using the research data: first drafts, choosing specific quotes wisely, paraphrasing, and final drafts.

Writing studies has been dominated throughout its history by grand narratives of the discipline, but in this volume Bruce McComiskey begins to explore microhistory as a way to understand, enrich, and complicate how the field relates to its past. Microhistory investigates the dialectical interaction of social history and cultural history, enabling historians to examine uncommon sites, objects, and agents of historical significance overlooked by social history and restricted to local effects by cultural history. This approach to historical scholarship is ideally suited for exploring the complexities of a discipline like composition. Through an introduction and eleven chapters, McComiskey and his contributors—including major figures in the historical research of writing studies, such as Louise Wetherbee Phelps, Kelly Ritter, and Neal Lerner—develop focused narratives of particular significant moments or themes in disciplinary history. They introduce microhistorical methodologies and illustrate their application and value for composition historians, contributing to the complexity and adding momentum to the emerging trend within writing studies toward a richer reading of the field's past and future. Scholars and historians of both composition and rhetoric will appreciate the fresh perspectives on institutional and disciplinary histories and larger issues of rhetorical agency and engagement enacted in writing classrooms that are found in *Microhistories of Composition*. A truly liberated rhetoric and reader has at last become available to courses in composition, with the publication of *A Woman's Place*. This unique textbook explores the notion of writing as self-definition and, as a consequence, the relationship between gender and writing. Convinced that writing is a meaningful process, performed with commitment, Dr. Morahan has created a course that simultaneously sharpens writing and thinking skills and contributes to the consciousness-raising of women and men in today's world. Her "pedagogy for liberation" creates a student-centered classroom, in which a spirit of collaboration replaces one of competition, by means of peer editing, tutorial approaches, and small group activities. The literary passages of *A Woman's Place* are, both stylistically and thematically, tied in with the lessons directly. At the same time, they function as a compact women's studies course. Research and writing are organized around a cluster of shared themes—problems that all students are addressing in their lives: power vs. powerlessness, passivity vs. action, identity, oppression vs. freedom, and the nurturance of creativity. Taken from the works of professional writers, including such well-known individuals as Adrienne Rich, Tillie Olsen, Joan Didion, Virginia Woolf, Margaret Mead, Mary Wollstonecraft, Jonathan Swift, and Sylvia Plath, they are often accompanied by short excerpts from student

'Anthem Critical Thinking and Writing Skills: An Introductory Guide' helps readers in the process of critical thinking and persuasive speaking and writing. The concepts of critical thinking and evaluation are presented in a clear, easy-to-understand format. Students learn how to form a proposition, identify issues, gather evidence, and process an argument. Logic games, puzzles, and real life examples ask students to evaluate how we evaluate, analyze, and decide. Then a more formal look at induction and deduction challenges students to practice higher-level thinking skills, such as the use of analogies for evaluation, and working through syllogisms to process ideas. Instruction is included on processing a formal persuasive paper. Readers can have some literary logic fun by analyzing old standards like 'Love is a Fallacy' and the persuasive love poem 'The Passionate Shepherd'. Short chapters and clear practice exercises make the book easy to use as a basic or supplemental text.
