Frida Kahlo may be Mexico's most famous artist. Her paintings are known and seen around the world. Learn what inspired and tortured one of the twentieth century's most famous women.

This intimate account offers a new, unexpected understanding of the artist's work and of the vibrant 1930s surrealist scene. In 1938, just as she was leaving Mexico for her first solo exhibition in New York, Frida Kahlo was devastated to learn from her husband, Diego Rivera, that he intended to divorce her. This latest blow followed a long series of betrayals, most painful of all his affair with her beloved younger sister, Cristina. In early 1939, anxious and adrift, Kahlo traveled

from the United States to France—her only trip to Europe, and the beginning of a unique period of her life when she was enjoying success on her own. Now, for the first time, this previously overlooked part of her story is brought to light in exquisite detail. Marc Petitjean takes the reader to Paris, where Kahlo spends her days alongside luminaries such as Pablo Picasso, André Breton, Dora Maar, and Marcel Duchamp. Using Kahlo's whirlwind romance with the author's father, Michel Petitjean, as a jumping-off point, *The Heart: Frida Kahlo in Paris* provides a striking portrait of the artist and an inside look at the history of one of her most powerful, enigmatic paintings.

Summary: Full-colour postcards featuring Frida Kahlo's popular works, as well as five photographs of herself.

What the Water Gave Me contains fifty-two poems in the voice of the Mexican painter Frida Kahlo. Some of the poems are close interpretations of Kahlo's work, while others are parallels or version homages where Petit draws on her experience as a visual artist to create alternative 'paintings' with words. More than just a verse biography, this collection explores how Kahlo transformed trauma into art after the artist's near-fatal bus accident. Petit, with her vivid style, her feel for nature and her understanding of pain and redemption, fully inhabits Kahlo's world. Each poem is an evocation of 'how art works on the pain spectrum', laced with splashes of ferocious colour. 'Their apparent shared sensibility makes the ventriloquism of these poems entirely unforced, and while Kahlo's voice is subtly distinguished from Petit's own, both women have a way of taking painful, private experiences and transmuting them, through imagery, into something that has the power of folklore. They capture the unsettling spirit of Frida Kahlo and her work perfectly.' Poetry London 'No other British poet I am aware of can match the powerful mythic imagination of Pascale Petit.' The riveting story of how three years spent in the United States transformed Frida Kahlo into the artist we know today "[An] insightful debut....Featuring meticulous research and elegant turns of phrase, Stahr's engrossing account provides scholarly though accessible analysis for both feminists and art lovers." —Publisher's Weekly Mexican artist Frida Kahlo adored adventure. In November, 1930, she was thrilled to realize her dream of traveling to the United States to live in San Francisco, Detroit, and New York. Still, leaving her family and her country for the first time was monumental. Only twenty-three and newly married to the already world-famous forty-three-year-old Diego Rivera, she was at a crossroads in her life and this new place, one filled with magnificent beauty, horrific poverty, racial tension, anti-Semitism, ethnic diversity, bland Midwestern food, and a thriving music scene, pushed Frida in unexpected directions. Shifts in her style of painting began to appear, cracks in her marriage widened, and tragedy struck, twice while she was living in Detroit. *Frida in America* is the first in-depth biography of these formative years spent in Gringolandia, a place Frida couldn't always understand. But it's precisely her feelings of being a stranger in a strange land that fueled her creative passions and an even stronger sense of Mexican identity. With vivid detail, *Frida in America* recreates the pivotal journey that made Senora Rivera the world famous Frida Kahlo.

Thoroughly researched and beautifully produced, this catalogue complements the first comprehensive retrospective in the United States of Imogen Cunningham's work in over thirty-five years. Celebrated American artist Imogen Cunningham (1883–1976) enjoyed a long career as a photographer, creating a large and diverse body of work that underscored her unique vision, versatility, and commitment to the medium. An early feminist and inspiration to future generations, Cunningham intensely engaged with Pictorialism and Modernism; genres of portraiture, landscape, the nude, still life, and street photography; and themes such as flora, dancers and music, hands, and the elderly. Organized chronologically, this volume explores the full range of the artist's life and career. It contains nearly two hundred color images of Cunningham's elegant, poignant, and groundbreaking photographs, both renowned and lesser known, including several that have not been published previously. Essays by Paul Martineau and

Susan Ehrens draw from extensive primary source material such as letters, family albums, and other intimate materials to enrich readers' understanding of Cunningham's motivations and work.

The notion of a person--or even an object--having a "double" has been explored in the visual arts for ages, and in myriad ways: portraying the body and its soul, a woman gazing at her reflection in a pool, or a man overwhelmed by his own shadow. In this edited collection focusing on nineteenth- and twentieth-century western art, scholars analyze doppelgangers, alter egos, mirror images, double portraits and other pairings, human and otherwise, appearing in a large variety of artistic media. Artists whose works are discussed at length include Richard Dadd, Salvador Dali, Egon Schiele, Frida Kahlo, the creators of Superman, and Nicola Costantino, among many others.

Frida Kahlo (1907-1954) hat in der Welt der Kunst neue Maßstäbe gesetzt: als eine Malerin, die ganz eigene, unerhörte Wege ging. Kahlo war geprägt durch die Ideale der mexikanischen Revolution, denen sie sich – wie ihr Mann Diego Rivera – schon früh verschrieb. Ihre Bilder enthalten aber mehr als einfache politische Botschaften, sie rücken Ursprüngliches in den Blick: die Mythologie präkolumbianischer Kultur, die Kraft organischen Wachstums, die Leiden des menschlichen Körpers. Die filigranen Werke dieser Künstlerin haben als Beispiel für das Abweichen vom «männlichen Prinzip» in der Malerei heute bereits klassischen Rang. Das Bildmaterial der Printausgabe ist in diesem E-Book nicht enthalten.

An outstanding exploration of a photographer, educator, and curator whose work both documented and created change in post-Revolutionary Mexico This stunning and lyrical volume highlights the personal work of Lola Álvarez Bravo (1903–1993), one of Mexico's foremost photographers. Álvarez Bravo worked as a photojournalist, commercial photographer, portraitist, and educator and played a critical role in her country's cultural renaissance. In the years following the Mexican Revolution, she captured a profoundly transformative moment for the country's land, architecture, and people. She remains best known for these works and for her portraits of prominent modernists working in Mexico, including Frida Kahlo, Diego Rivera, and David Alfaro Siqueiros. Lola Álvarez Bravo delves into a lesser-known body of work, in which attention to pattern, light, and abstraction guides the artist's depictions of urban and rural landscapes and their inhabitants. It also addresses her role in building and securing the legacy of the post-Revolutionary period, her dialogue with modernist photographers, and her place within the broader cultural sphere, offering new insight into the mutual influence she shared with prominent painters, filmmakers, and literary figures of her time.

This volume is a unique contribution to Latin American studies because it underscores the essential role that women have played in the arenas of modern and contemporary art. [This book] provides valuable and much-needed assistance to the researcher. (From the foreword by Elizabeth Ferrer) With more than 1,500 references on nearly 800 women Latin American Women Artists, Kahlo and Look Who Else pays tribute to the rich and multifaceted artistic accomplishments of women in and from 20th-century Latin America. Frida Kahlo has until recently dominated the interest of scholars, curators, and the public to the point of almost eclipsing the achievements of other artists from the region. This selectively annotated bibliography begins systematically to identify other women -- painters, sculptors, printmakers, photographers, performance artists, and others -- who have made significant contributions to the history of art in the region. The first section, the main part of the work, consists of individual artists grouped in an alphabetical country arrangement. Artists in each country are listed A-Z, as are the citations about them. Annotations are descriptive and highlight, among other details, the presence of biographical and professional development information in the analyzed materials. A section of general works arranged by country follows, consisting principally of periodical and monographic literature that deals with numerous women, and a listing of the women mentioned in the cited materials. The volume has two appendices. The first is an analyzed list of 77 collective exhibitions in which works by these women have been presented. The second appendix groups the artists by country, allowing for an in-brief look at all of the artists identified in the bibliography. The name index references artists to the main section by country code and also includes entries for authors, curators, and exhibition catalogue essayists.

María Izquierdo (1902–1955) and Frida Kahlo (1907–1954) were the first two Mexican women artists to achieve international recognition. During the height of the Mexican muralist movement, they established successful careers as easel painters and created work that has become an integral part of Mexican modernism. Although the iconic Kahlo is now more famous, the two artists had comparable reputations during their lives. Both were regularly included in major exhibitions of Mexican art, and they were invariably the only women chosen for the most important professional activities and honors. In a deeply informed study that prioritizes critical analysis over biographical interpretation, Nancy Deffebach places Kahlo's and Izquierdo's oeuvres in their cultural context, examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico. Through iconographic analysis of paintings and themes within each artist's oeuvre, Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era, especially Mexican national identity and the role of women in society. In a time when Mexican artistic and national discourses associated the nation with masculinity, Izquierdo and Kahlo created images of women that deconstructed gender roles, critiqued the status

quo, and presented more empowering alternatives for women. Deffebach demonstrates that, paradoxically, Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas about gender and what constitutes important art. Written by educators from diverse experiences, *Text Sets: Multimodal Learning for Multicultural Students* provides ready-to-use multicultural text sets complete with annotations, instructional activities, and multimedia tools, as well as a framework for building and using new sets.

Ms. Hooks' interest in Frida Kahlo began in 1975, when she first visited the artist's Casa Azul home and became acquainted with her life and work. Ms. Hooks lived many years in Mexico and is an authority on Latin American photography and the Mexican artistic milieu of the 1920s and 1930s. Except where indicated, these portraits are from the collection of gallerist and specialist in Latin American photographs, Spencer Throckmorton. This dynamic collection was initiated more than two decades ago and includes more than one hundred images of Frida Kahlo, many of them unique and published here for the first time. Chronicles the life of the famous Mexican painter, detailing her works, her marriage to artist Diego Rivera, and her struggle to overcome several personal tragedies.

„Ich bin eine Revolution!“ Frida Kahlo. Mexiko, 1925: Frida will Ärztin werden, ein Unfall macht dies zunichte. Dann verliebt sie sich in das Malergenie Diego Rivera. Mit ihm taucht sie in die Welt der Kunst ein, er ermutigt sie in ihrem Schaffen – und er betrügt sie. Frida ist tief verletzt, im Wissen, dass Glück nur geborgt ist, stürzt sie sich ins Leben. Die Pariser Surrealisten liegen ihr genauso zu Füßen wie Picasso und Trotzki. Frida geht ihren eigenen Weg, ob sie mit ihren Bildern Erfolge feiert oder den Schicksalsschlag einer Fehlgeburt hinnehmen muss – doch dann wird sie vor eine Entscheidung gestellt, bei der sie alles in Frage stellen muss, woran sie bisher geglaubt

hat. »Eine Liebeserklärung an die Kunst, an die Weiblichkeit, an die Freiheit und den Mut, sie jeden Tag neu zu erringen – ein wunderbar zartes und doch kraftvolles Herzensbuch.« Nina George.

Behind Frida Kahlo's portraits, lies the story of both her life and work. It is precisely this combination that draws the reader in. Frida's work is a record of her life, and rarely can we learn so much about an artist from what she records inside the picture frame. Frida Kahlo truly is Mexico's gift to the history of art. She was just eighteen years old when a terrible bus accident changed her life forever, leaving her handicapped and burdened with constant physical pain. But her explosive character, raw determination and hard work helped to shape her artistic talent. And although he was an obsessive womanizer, the great painter Diego Rivera was by her side. She won him over with her charm, talent and intelligence, and Kahlo learnt to lean on the success of her companion in order to explore the world, thus creating her own legacy whilst finding herself surrounded by a close-knit group of friends. Her personal life was turbulent, as she frequently left her relationship with Diego to one side whilst she cultivated her own bisexual relationships. Despite this, Frida and Diego managed to save their frayed relationship. The story and the paintings that Frida left us display a courageous account of a woman constantly on a search of self discovery.

"In the 1960s, activist Chicano artists forged a remarkable history of printmaking that remains vital today. Many artists came of age during the civil rights, labor, anti-war, feminist and LGBTQ+ movements and channeled the period's social activism into assertive aesthetic statements that announced a new political and cultural consciousness among people of Mexican descent in the United States. ¡Printing the Revolution! explores the rise of Chicano graphics within these early social movements and the ways in which Chicanx artists since then have advanced innovative printmaking practices attuned to social justice. More than reflecting the need for social change, the works featured in the catalogue and exhibition project and revise notions of Chicanx identity, spur political activism, and school viewers in new understandings of U.S. and international history. By employing diverse visual and artistic modes from satire, to portraiture, to appropriation, conceptualism, and politicized pop, the artists in this exhibition build an enduring and inventive graphic tradition that has yet to be fully integrated into the history of U.S. printmaking. This exhibition is the first to unite historic civil rights-era prints alongside works by contemporary printmakers, including several that embrace expanded graphics that exist beyond the paper substrate. While the dominant mode of printmaking among Chicanx artists remains screenprinting, the installation features works in a wide range of techniques and presentation strategies, from installation art to public interventions, augmented reality, and shareable graphics that circulate in the digital realm. The exhibition is also the first to consider how Chicanx mentors, print centers, and networks nurtured other artists, including several who drew inspiration from the example of Chicanx printmaking. Featured artists and collectives include Rupert García, Malaquias Montoya, Ester Hernández, the Royal Chicano Air Force, David Avalos, Elizabeth Sisco, Louis Hock, Sandra Fernández, Juan de Dios Mora, the Dominican York Proyecto Gráfica, Enrique Chagoya, René Castro, Juan Fuentes, and Linda Lucero, among others. ¡Printing the Revolution! features more than 100 works drawn from the Smithsonian American Art Museum's pioneering collection of Latinx art. The Museum's Chicanx graphics holdings rose significantly with an important

gift in 1995 from the renowned scholar Tomás Ybarra-Frausto. Since then, other major donations and an ambitious acquisition program have built one of the largest museum collections of Chicana graphics on the East Coast"--
