DO YOU WANT YOUR CHILDREN TO SUCCEED? I have three children who are still in school, and like you, I also want my children to succeed in life. Our children's success is what inspired me to write this book. Research shows that the more vocabulary words an elementary student knows, the more likely he or she is to do well in middle and high school. Research also shows that there is a direct link between a student's vocabulary and their reading comprehension skills. Consequently, the more words elementary school students learn, the better readers they will be, and the more likely they will be good students in high school and successful as adults. I became concerned when my daughter began to show difficulty with reading comprehension. Her biggest problem appeared to be not knowing the meaning of many important words in her reading material. In speaking with my daughter's teacher I was shocked and disturbed to learn that with the new Common Core requirements, teachers don't have the time to teach the definitions of words like they used to. Instead, they are forced to concentrate on spelling and teaching a limited number of definitions. So I began to look for a way that parents can help their children learn the definitions of words so that reading is fun . 4th Grade Vocabulary Building Crossword Puzzles is the result. With more than 2.5 million copies in print, Spanish Made Simple is the bestselling title in the Made Simple series. For years, this trusted guide has led students, tourists, and business travelers step-by-step through the basic vocabulary and grammar of this most-studied foreign language. Thoroughly revised and updated for our increasingly bilingual world, this new edition features verb conjugation and pronunciation charts, modern vocabulary including new idioms, review chapters, reading exercises, a complete answer section, and English-Spanish and Spanish-English dictionaries—tools that make mastering the language fun. With Spanish Made Simple, learning a language is as easy as uno, dos, tres. In her new book, bestselling author and professional developer Carol Booth Olson and colleagues show teachers how to help young readers and writers construct meaning from and with texts. This practical resource offers a rich array of research-based teaching strategies, activities, and extended lessons focused on the “thinking tools” employed by experienced readers and writers. It shows teachers how to draw on the natural connections between reading and writing, and how cognitive strategies can be embedded into the teaching of narrative, informational, and argumentative texts.

Including artifacts and written work produced by students across the grade levels, the authors connect the cognitive and affective domains for full student engagement. “This book seamlessly bridges the gap from research to everyday practice.... You get an extremely well-organized set of overarching instructional principles that are right for our era and brought to life through well-explained instructional guides and classroom activities.” —From the Foreword by Judith Langer, University at Albany, SUNY “I have always admired Carol Booth Olson’s work with secondary students and teachers. She now applies those essential principles and practices to elementary and middle school students. Bravo!” —P. David Pearson, professor emeritus, University of California, Berkeley

A professional development resource provides the knowledge and instructional tools to improve teaching and learning in reading. If I can't learn the way you teach, please teach me the way I can learn It is only when you read about real-life stories you want to believe that strategies work. The method suggested in Dyslexia Decoded have been tried and tested for more than two decades with different levels of difficulties, different students and a variety of situations. Processing information and using proper sound system results in learning differently, while styles of learning when incorporated in teaching, makes mild learning difficulties disappear. Emotional, social impacts of learning difficulties cannot be ignored as they cause greater harm than the difficulty itself. This book shows you just that and emphasizes the need to counsel students, teachers, parents and schools. Schools form a major part of children's lives and when they take on the task of supporting the 10% of their population with specific learning difficulties they go beyond their own limitations and contribute a great deal to the lives of all children. A special school system is detrimental for children with specific learning difficulties even though it may seem to be the answer for other special needs. This book encourages schools to include students with specific learning difficulties, while guiding them to use the support which the Boards willingly give.
