“An eye-opening and riveting account of how guns make it into the black market and into the hands of criminals and drug lords.” –Adam Winkler The gun control debate is revived with every mass shooting. But far more people die from gun deaths on the street corners of inner city America and across the border as Mexico's powerful cartels battle to control the drug trade. Guns and drugs aren't often connected in our heated discussions of gun control--but they should be. In Ioan Grillo's groundbreaking new work of investigative journalism, he shows us this connection by following the market for guns in the Americas and how it has made the continent the most murderous on earth. Grillo travels to gun manufacturers, strolls the aisles of gun shows and gun shops, talks to FBI agents who have infiltrated biker gangs, hangs out on Baltimore street corners,

and visits the ATF gun tracing center in West Virginia. Along the way, he details the many ways that legal guns can cross over into the black market and into the hands of criminals, fueling violence here and south of the border. Simple legislative measures would help close these loopholes, but America's powerful gun lobby is uncompromising in its defense of the hallowed Second Amendment. Perhaps, however, if guns were seen not as symbols of freedom, but as key accessories in our epidemics of addiction, the conversation would shift. Blood Gun Money is that conversation shifter.

Filled with art, photographs, maps, and artifacts, this is a richly illustrated edition of first mate Owen Chase's memoir of the sinking of the Essex by a sperm whale. Read Owen Chase's memoir which inspired Moby-Dick and In the Heart of the Sea, the major motion picture from Ron Howard, which will be

released December 2015. Owen Chase was the first mate on the ill-fated American whaling ship Essex, which was attacked and sunk by a sperm whale in the southern Pacific Ocean in 1820. The crew spent months at sea in leaking boats and endured the blazing sun, attacks by killer whales, and lack of food. The men were forced to resort to cannibalism before the final eight survivors were rescued.

Herman Melville based his 1851 novel, *Moby-Dick*, on the sinking. Chase recorded the tale of the ship's sinking and the following events with harrowing clarity in the *Wreck of the Whale Ship Essex*. "I turned around and saw him about one hundred rods [500 m or 550 yards] directly ahead of us, coming down with twice his ordinary speed of around 24 knots (44 km/h), and it appeared with tenfold fury and vengeance in his aspect. The surf flew in all directions about him with the continual violent thrashing of his tail. His head about half out of the water, and in that way he came upon us, and again struck the ship." - Owen Chase. Filled with art, photographs, maps, and artifacts, this is a richly illustrated edition of Chase's memoir, augmented with memoirs of other participants, as well as the perspectives of historians, contemporary and modern. "If you are interested in a coffee-table book which covers the importance of the whaling industry and the wreck that influenced Herman Melville to write the American classic *Moby-Dick*, then get the

When the battle to protect the ancient trees heats up, sides are chosen and lines are crossed. When difficulties disrupt plans, some people are willing to do just about anything to prove their points, even if exploiting the

legendary Bigfoot compromises their beliefs and ideals. Indicator species like the spotted owl and the marbled murrelet have proven to be an exceptional tool in regulating timber harvest along California's North Coast. But for an elite group of environmental activists, it just wasn't enough. While a group of Bigfoot researchers probe the wilderness to prove the creature existence, others use the legend to protect thousands of privately owned forests'. Backed by media attention and public support, things run smoothly until something goes terribly wrong. The outcome takes the issues into the wilderness, one of the largest remaining continuous groves of ancient trees, and into a place where neither party ever expected to go.

From their founding in the 1820s up to the modern age, the Texas Rangers have shown the ability to adapt and survive. Part of that survival depended on their use of firearms. The evolving technology of these weapons often determined the effectiveness of these early day Rangers. John Coffee "Jack" Hays and Samuel Walker would leave their mark on the Rangers by incorporating new technology which allowed them to alter tactics when confronting their adversaries. The Frontier Battalion was created at about the same time as the Colt Peacemaker and the Winchester 73—these were the guns that "won the West." Firearms of the Texas Rangers, with more than 180 photographs, tells the history of the Texas Rangers primarily through the use of their firearms. Author Doug Dukes narrates famous episodes in Ranger history, including Jack Hays and the Paterson, the Walker Colt, the McCulloch Colt Revolver (smuggled

through the Union blockade during the Civil War), and the Frontier Battalion and their use of the Colt Peacemaker and Winchester and Sharps carbines. Readers will delight in learning of Frank Hamer's marksmanship with his Colt Single Action Army and his Remington, along with Captain J.W. McCormick and his two .45 Colt pistols, complete with photos. Whether it was a Ranger in 1844 with his Paterson on patrol for Indians north of San Antonio, or a Ranger in 2016 with his LaRue 7.62 rifle working the Rio Grande looking for smugglers and terrorists, the technology may have changed, but the gritty job of the Rangers has not. The World's Assault Rifles is a definitive, comprehensive reference book covering the militaries of 50 countries in 71 chapters. Matt Redmond is a tough and honest cop. He retired from the DEA when he could no longer stomach the politics and the corruption of Federal law enforcement, and returned to his native North Carolina to start a

second career as a detective for the State Bureau of Investigation. Now he has a new wife, an adopted daughter, a cheese-hungry cat, and a satisfying life of love and stability after many turbulent years of violence and intrigue. But his past continues to haunt him, and his very reputation for honesty, integrity, and fearlessness in the face of government corruption and oppression drags him and his loved ones into a web of bloodshed and danger. Redmond is on the case whether he likes it or not, and it turns into a race against death for himself, for his family, and for a young woman and her newborn baby. The trail of lies and murder finally leads back to its poisonous source in the very heart of the Clinton White House, and to save himself and his family, Matt must follow it there.

What separates "Extreme Guns and Babes for an Adult World" from all the other books about guns is it delivers exciting in-depth reviews of the most influential guns and weapons of the world with cutting edge adult photography of over 26 exotic dancers, many of whom are well known feature entertainers. Miss Nude World of 2004--she's here. And so is the M-1 Garand, the 454 Casull, the Browning 50 caliber machine gun, Thompson sub-machine gun, Walther PPK, AK-47, Colt Single Action Army revolver, 1861 Springfield, Mauser 98, Kentucky rifle, Winchester's lever actions, M-1 carbine, M-16, FAL, Colt Python to name just a few of the pivotal firearms. covered here in loving detail. Although many of the original pictures might have been shot in the nude, these have been tastefully edited out because this book is just too good to be kept out of the mainstream.

Americans Without Law shows how the racial boundaries of civic life are based on widespread perceptions about the relative capacity of minority groups for legal behavior, which Mark S. Weiner calls “juridical racialism.” The book follows the history of this civic discourse by examining the legal status of four minority groups in four successive historical periods: American Indians in the 1880s, Filipinos after the Spanish-American War, Japanese immigrants in the 1920s, and African Americans in the 1940s and 1950s. Weiner reveals the significance of juridical racialism for each group and, in turn, Americans as a whole by examining the work of anthropological social scientists who developed distinctive ways of understanding racial and legal identity, and through decisions of the U.S. Supreme Court that put these ethno-legal views into practice. Combining history, anthropology, and legal analysis, the book argues that the story of juridical racialism shows how race and citizenship served as a nexus for the professionalization of the social sciences, the growth of national state power, economic modernization, and modern practices of the self.

In the summer of 1984, Noble was within seconds of committing what would have been the largest domestic terrorist act in U.S. history at that time. As one of the founders of the Covenant, Sword, and Arm of the Lord (CSA), a cult paramilitary group, he carried a bomb into a gayaffirming church, intending to murder over seventy individuals. In *Tabernacle of Hate*, Noble provides an unprecedented first-person account of how a small

spiritual community progressed from mainstream religious beliefs to increasingly extreme positions, eventually transforming into a domestic terrorist group. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Wyoming game warden Joe Pickett's hunt for a fugitive reveals a conspiracy in this taut thriller in the #1 New York Times bestselling series. Joe Pickett always liked Butch Roberson—a hardworking local business-owner whose daughter is friends with his own. Little does he know that when Butch says he is heading into the mountains to scout elk, he is actually going on the run. Two EPA employees have been murdered, and all signs point to Butch as the killer. Soon, Joe hears of the land Butch and his wife had bought to retire on—until they are told the EPA declared it a wetland—and the penalties they charged Butch until the family was torn apart by debt. Finally, it seems, the man just cracked. It's an awful story. But is it the whole story? The more Joe investigates, the more he begins to wonder—and the more he finds himself in the middle of a war in which he must choose sides.

FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

Innocent children turned ruthless murderers...Hate-filled and deeply disturbed...They kill with cold-blooded savagery... Nothing was too good for precious Katy-- sports cars, jewelry, designer clothes. Her father, a successful South Florida businessman, could not resist any of her whims. But when he tried to curb her fast-lane lifestyle, she had him shot through the head while he slept. Behind closed doors of her suburban Chicago home, Nancy Knuckles was a sadistic disciplinarian who, for years, terrorised her four children with religious fanaticism, beatings, and psychological torture, until they finally rebelled with a vengeance. After the oldest daughter strangled mom and stuffed her in a trunk, the kids partied hard, inviting their friends over for booze and rock 'n' roll. Susan Cabot was a beautiful B-movie queen and obsessive mother. Her son Tim-- born a dwarf-- was pumped full of experimental drugs extracted from cadavers to increase his height. When the ex-film star's badly beaten body was discovered in her Hollywood home, little Timmy claimed she had been killed by men using Ninja methods-- before confessing. Killer Kids is Clifford L. Linedecker's shocking true crime book of children who turn to murder.

A new edition of a classic: the first complete picture of the public-health approach to gun violence

The Morningstar virus. Those infected suffer delerium, fever, violent behaviour ... and a hundred per cent mortality rate. But that's not the worst of it. The victims return from the dead to walk the earth. And when a massive military operation fails to contain the plague of the living dead, it escalates into a worldwide pandemic. On one side of the world, thousands of miles from home, a battle-hardened general surveys the remnants of his command: a young medic, a veteran photographer, a rash private, and dozens of refugees -- all of them his responsibility. Meanwhile in the United States, an army colonel discovers the darker side of Morningstar and collaborates with a well-known journalist to leak the information to the public...

Know which rifles can defend you and your family. In the chaos of a survival situation, firearms will be important tools for protecting yourself, your family, and your supplies as well as for hunting animals for food. In *A Prepper's Guide to Rifles*, Robert K. Campbell discusses the best rifles to have with you in any confrontation—including the end of the world as we know it. Rifles that are easy to carry and lightweight and that shoot accurately and reliably at close ranges are ideal candidates for personal protection. He covers the fairly standard AR family but also pistol calibers, .22s, and more nontraditional choices. In *A Prepper's Guide to Rifles*, Campbell explores specific rifles that are appropriate for urban, rural, and suburban environments, with tips on how to use them in each context. Whether at home or in a survival scenario, these rifles are the best for defense. *A Prepper's Guide to Rifles* not only reviews the specific features of defensive rifles but how to use them—whether on the move, in a defensive situation, while retreating, or in other circumstances. Campbell also offers expert tips on how to

Excerpt: The Mini-14, Mini Thirty, and Mini-6.8 are small, lightweight semi-automatic carbines manufactured by the U.S. firearms company Sturm, Ruger. The Mini-14 non-target versions can fire both the .223 Remington cartridge and the similar military 5.56x45mm cartridge. The target model Mini-14 rifles are chambered only for the .223 Remington cartridge. The Mini Thirty uses the 7.62x39mm and the Mini-6.8 fires 6.8 mm Remington SPC. Ruger offered a selective fire variant of the Mini-14, the AC-556, to police and military customers. AC-556 models have a slightly longer receiver (shared with early production "series 180" models) to allow for full automatic operation. These models are available with features such as short barrels and bayonet lugs. The Mini-14GB model is a semi-automatic variant for police and military sale with the additional factory options of a short barrel, folding paratrooper stock, flash suppressor and a bayonet lug. Designed by L. James Sullivan and William B. Ruger, the rifle employs an investment cast, heat-treated receiver and a version of the M1 rifle locking mechanism with a self-cleaning, fixed-piston

gas system. The Mini-14 product page describes it as a "simple, rugged Garand-style breechbolt locking system, with a fixed-piston gas system and self-cleaning, moving gas cylinder...".

Modern Law Enforcement The face of modern law enforcement is changing. The best cop with a maple night stick and Model 10 revolver has been replaced by partners in police cruisers carrying pepper spray, Tasers and polymer-framed pistols. Author Patrick Sweeney shows you the tools modern police agencies are using and how they are employed. From rifles, shotguns and pistols to the latest in flashlights and handcuff cases, Sweeney walks you through the latest gear and tactics employed by American law enforcement officers.

Food, water, and shelter are very important to survival. But you must also be ready to protect what is yours, because if somebody stronger, better prepared, and better equipped takes it all away, you will die. Your family will die. The only way to protect them is with firearms. Written with the law-abiding civilian in mind, Prepper Guns covers the firearms and tools needed to survive, not only for defense, but also for foraging. It is a comprehensive look at the realities of the firearms a prepper should have. Written by Bryce M. Towsley, a firearms expert and a full-time gun writer with thirty years of experience, it steps away from the "conventional wisdom" that is often spouted by prepper publishing and takes a hard, honest, look at the reality of the firearms, ammo, tools and training needed to survive at home and on the road. Prepper Guns takes a careful look

at each category of firearms, ammo, sights, and accessories. Other topics include gun care and maintenance, as well as some simple gunsmithing and reloading to keep firearms repaired and ammo on hand. Finally, Prepper Guns has training suggestions and drills, plus a look at the psychology of survival, using the expertise of some of the top people in the world in these fields. If you are worried that bad things are coming and are trying to prepare, this book is the most important piece of gear you can buy. Because if you can't protect your family, your food and your home, nothing else really matters. At a time when crime scene television shows are all the rage amongst the civilian population, knowledge of firearm forensics is of paramount importance to crime scene analysts, police detectives, and attorneys for both the prosecution and the defense. Cartridges and Firearm Identification brings together a unique, multidisciplined approach to quest
