A teacher is a person who not only teaches but also guides his/her student in building a successful career. The future of a nation lies upon the level of knowledge the people in the country are having. Thus, the responsibility of a teacher goes far beyond what we think of it at an individual level. We have seen people are interested in making their career in many other professions but teaching as a profession is not the first choice in most cases. Nevertheless, teaching is one of the most interesting professions as it involves a continuous learning exercise and at the same time making others learned by delivering the knowledge one is having. The teachers assess their students but at first, they

also get assessed under UGC NET conducted by the National Testing Agency. The National Eligibility Test (NET), also known as UGC NET or NTA-UGC-NET, is the test for determining the eligibility for the post of Assistant Professor and/or Junior Research Fellowship (JRF) award in Indian universities and colleges. UGC NET is considered as one of the toughest exams in India, with success ratio of merely 6%. Previously, the passing ratio was around 3% - 4%. Assistant Professors in private colleges may or may not be NET qualified but NET qualification is mandatory for universities & government colleges.

This book gathers original studies presented at the PROMS 2016 conference on Rasch theories and Rasch-based applications. It provides significant examples used to address practical measurement problems across a range of disciplines, including: Classic Testing Theory (CTT), Item Response Theory (IRT), philosophy of measurement, dimensionality, the role of fit statistics and research, business and industrial applications, health-related research and the latest Rasch-based computer software. PROMS welcomes empirical and theoretical studies and workshops, preferably with an emphasis on the Rasch model. Special attention is paid to manuscripts submitted by non-native English-speaking authors from Pacific Rim countries, regions and beyond. PROMS 2016 (Pacific Rim Objective Measurement Symposium) was held July 30-August 3, 2016 in Xi'an, China. The goal of the conference was to bring together researchers, scholars and professors from research institutes, universities, hospitals, business and management sectors, as well as professional practitioners, to exchange and share ideas, problems and solutions regarding the multifaceted aspects of the Rasch model and on the much debated yet highly topical issues of objective

assessment.
