On incarnating, human beings receive the mission of integrating divine qualities into their thoughts, feelings and actions in order to experience full spiritual autonomy one day. Initiatory science has always used the metaphor of winged beings to express how it feels when these powerful energies are re-activated in our consciousness. This companion to *The Book of Angels: Dreams, Signs, Meditations* re-introduces an initiatory teaching from the early Judeo-Christian tradition which defines 72 states of higher consciousness representing the qualities, virtues and powers of God.

In the second volume of the Sacred names series : "THE 72 ANGELS OF THE NAME - CALLING ON THE 72 ANGELS OF GOD " I discuss the 72 angels of God that correspond to the 72 Names of God. In this book, we will discuss the 72 demons of the name. Yes, there are 72 demons that are the shadow images of the 72 angels of the name. In this text, we will discuss the 72 demons that correspond to the 72 names of God. Each demon has its purpose. Working with the demons, differs in intensity. They are more , how shall we say, assertive. Whereas the angels appear in gentler forms (with a few exceptions of course). In this book, we will discuss how to communicate with these demon. The rituals are similar to the ones we used for the 72 angels. However, there are a few differences. For one, we will do a quick protection ritual before we call on them and upon banishing them, we will give them an offering. It's this extra step that might make some a bit nervous. No worries, we will not be hurting anything, but we will offer something that had potential life in it. This step is crucial for your ritual to work. Let Us Proceed.

This book helps us to read the "sign posts" that should not be switched off by pain killers, anti depressants, or drugs but which can be used to guide us to the root cause of physical, mental or emotional illnesses, to listen to our bodies, to understand the underlying cause of their problems and provides the solutions to really turn our lives around. It uses psychology, meditation, visualisation and prayer, enabling the harnessing of healing powers to remove the blockages preventing complete abundance in every area of our lives. This book provides the tools to find self love, personal growth, happiness, success, physical health and emotional healing and can be used to remove negative karma, whether in this life or previous lives, entrenched habits, negative characteristics or anxieties. It shows how to use ancient symbols such as those in Egypt, sacred geometry, the sacred names of the Angels and God and the teachings of the great Atlantean Thoth. It enables enlightenment and the reaching of "heaven on earth" by using the gifted Ancient Knowledge, regardless of denomination, faith, belief, colour or creed. Angels accompany our life and are part of it. They are Beings of Light that are near us and help us to find ourselves; who we really are, our light, our source and they help us understand our purpose on this earth. They speak to us through our wise inner voice. They show themselves to us through visible or more hidden signs. Believing in Angels is also to know that, if we ask them, they can help us, because by divine law they cannot intervene without our permission or explicit request. This book was born of an intuition, from a sign received, and I hope that it can help other people to find their own way and be an inspiration for any who wish to change themselves and their lives

In this book, we will discuss how to communicate with the 72 angels that are associated with the 72 names of God in volume 1 of this series. We will not be using any fancy and complicated rituals. With all due respect to those who plan elaborate rituals, the rituals end up being more of a distraction. The angels do not require certain hours of day or night or certain colors or garb. They are not human that they require such trivialities. Do you think an angel with a limitless mind requires such limited and minute actions to get its attention? I know this

may completely contradict what you have heard, but logically, this is so. If you are looking for elaborate rituals, you will be disappointed in this book. This book is for people who want a direct connection. Not those who wish to mire themselves in complexity that in actuality, is contrived. We know where many of those rituals in all those Grimoires come from and I assure you, the complexities are formalities only and not necessary for deep connection with these angels. With that, In this book, we will go into the significance of the 72 names of God and then proceed to the names of the angels. And finally, how to call upon them to help you.

This is trying to explore these phenomena called the Angels of God. Here you can learn about them and how you can develop your own relationship with God via the angels or expand the contact that you already have with him... Angels commonly thought of us as messengers and communicators between humans and God, By the Kabbalah teaching; the 72 angels are the inhabitants of the nine divine Choirs as described by the kabbalistic tree of life, and are what we all often refer as the Guardians angels, or Guide angels. By the Kabbalah and many other spiritual teachings the angels connect us to the energies of the Divine, by using the metaphor of the step down transformer-an electrical device (the angels) that decreases a high voltage source (the divine or God) so that it can be plugged into

a lower voltage receptor (humans), on the other side, when we invoke, pray or appeal to the divine, the angels serve as kind of amplifiers to transmit our small and finite communication to the vast and infinite universal divine. The angels are energetic embodiments and vibratory expressions of the qualities and person of the divine. They awaken our consciousness to the presence of the divine that already exist in each and every human being (our soul). By partaking of them we activate aspects of the divine within us. While we are said to contain all the angelic characters within us and tune to them in different degrees, we have correspondence to particular angelic forces more, according to our time and date of birth. Angels are neither male nor female, but they are often referred to as he or she. They do not have a human form because they are made up of divine energy; some call it love and light. Angels will project themselves to us in a manner we are most comfortable with, which means we often see them as human. If they have a message to give us, they may even come to us in the form of a departed loved one, so as not to scare us. Other ways Angels may appear to us is through lights, colors, sounds, feelings, thoughts, dreams and scents. Angels do not want to be worshipped, they do not want us to pray to them as we pray to God, but we can't expect guidance from them unless we ask for it. God has given all of us free will and Angels are not interfere with that, yet these

energy around us is pushing us to do things all the time, to fulfill God's wish for advance and push up our souls. To contact Angels, all you need to do is talk (real talking or just inside your head). It's as simple as that. There is nothing you can't discuss with Angels. They know everything, so you're able to discuss anything with them. Nothing is too small or trivial for Angels, they're here to guide and help you. If you really want, it is very simple to contact your Angels. All you need to do is call them. Many people choose to construct an altar, meditate, read from the bible, light candles, burn incense... there's as many ways to contact angels, as there are people. It's all personal preference. Even though these techniques may set the stage, make you more comfortable and make the Angels feel welcomed, this is not necessary. All you need to do is call out to them. It doesn't have to be in words, all it needs to be is a thought "Angel, I need your help." They always come if you open yourself up to their energy, you will feel their presence. Once you feel your Angels, ask them questions. Let your mind go blank and allow anything to flow, don't try to make it happen. You may want to keep a journal and write down anything that comes to mind. There are many ways to communicate with Angels, no way is better than the other. It depends on what is comfortable for you. Some people meditate, while others choose to communicate through dreams. Some people actually hear the Angels talking to

them, while others "feel" what the Angels are saying. Experiment and find what works best for you.

This book is the result of fourteen years research scrutinizing thousands of historical documents. Dr Matthews reveals never before seen facts regarding the earliest quartos and the first folio – even new research into the leather cover of the Bodleian first folio and how that particular copy came into the possession of the Turbutt family. Dr Matthews has forensically dated the majority of the Shakespearean plays twenty years before earlier scholars, such as Rowe, Malone and Chambers – some plays dated as early as 1561, 1559 and 1558 – up to six years before William Shakespeare was born. Dr Matthews' exemplary philosophical dissertation of the Shakespearean works and its critics, reveals much about the identity of the real authors. A unique reference work essential to Shakespearean scholars and students alike – this crucial work redates the Shakespearean works, scrutinizes each candidate, and definitively answers the authorship debate.

It has continued to sell for decades. And no wonder. Up until the time this book was published, very little information about true high magic was available to the public. In this book, Regardie reveals the secrets of real magic.

He begins with an explanation of what magic is and, just as importantly, what magic is not. He explains that it is a spiritual study and practice which, along with forms of yoga, forms the two branches of the tree that is mysticism. Magic is not being a medium or a psychic. Then he explains the tools of the magician, what they mean, and how to use them. He explains the techniques of evocation and invocation, skrying, and astral travel. He shows how the Qabalah unites everything. He even gives a description of the secrets of sexual magick. All of this is in a clear, lucid writing style. This book is simply a must for anyone who is, or aspires to be, a real magician. Although Chic and Sandra Tabatha Cicero were friends of Regardie and are Senior Adepts of the Hermetic Order of the Golden Dawn, what changes could they have made to this classic book? Well, they did change the spelling from British style to American. And they did change his transliterations of Hebrew into the more popular style he used in his later books. But nothing vital was changed or removed. Everything else they added was complementary to the text that was there. And what incredible additions they are! Extensive annotations throughout every chapter; over 100 illustrations; more descriptive contents pages; a glossary, a bibliography and an index. They've even added a biographical note on Regardie and the importance of this book to him and to the occult world. This book contains some of the finest occult writing

that has ever been produced. And with the new material by the Ciceros, it becomes a must-have for any magician!

An encyclopedia describing and giving the history of angels from the time when the earth was created forward, using texts from Hebrew, Arabic, ancient and contemporary works.

Christians face a conundrum when it comes to naming God, for if God is unnamable, as theologians maintain, he can also be called by every name. His proper name is thus an open-ended, all-encompassing list, a mystery the Church embraces in its rhetoric, but which many Christians have found difficult to accept. To explore this conflict, Valentina Izmirlieva examines two lists of God's names: one from *The Divine Names*, the classic treatise by Pseudo-Dionysius, and the other from *The 72 Names of the Lord*, an amulet whose history binds together Kabbalah and Christianity, Jews and Slavs, Palestine, Provence, and the Balkans. This unexpected juxtaposition of a theological treatise and a magical amulet allows Izmirlieva to reveal lists' rhetorical potential to create order and to function as both tools of knowledge and of power. Despite the two different visions of order represented by each list, Izmirlieva finds that their uses in Christian practice point to a complementary relationship between the existential need for God's protection and the metaphysical desire to submit to his infinite majesty—a compelling

claim sure to provoke discussion among scholars in many fields. The spiritual world blesses the Earth at least 58 times a year-here's how you can join the party. 72: Celestial Logbooks of the Gold and Copper Invaders describes the bright celestial objects that were used for calendars and navigation for the last 10,000 years. This required counting and measuring angles which the prehistory and even pre-Ice Age cultures knew. This enabled these cultures to hunt, gather, and explore by boat looking for precious metals to sustain their cultures. Initial editorial reviews: "WOW, Magnificent, Beyond Significant." Jim Egan, Curator, Newport Tower Museum: "Brilliant out of the box thinking." A past Kirkus Review stated: "...McMahon's reasoning is far from far-fetched... with an elegantly simple process of following history's clues...the ancient rock art symbols of seafaring communication." Lonnie Davis, Curator Historian, Ocmulgee Mounds National Historical Park, "Eye-opening The blinders finally came off!" The following bright celestial objects are described and analyzed: Sun: circles, rectangles, diamonds, spirals, and solstice latitudes Moon: crescents, circles, rectangles, and lunar standstill latitudes Venus (72): hearts, rectangles, pentagons, and relative longitudes Sirius and Canopus: the eyes as pointer stars to the North and

South Pole stars North Pole stars: Polaris, Thuban, Vega, and Deneb as the golden 30° rectangle Winter Triangle: Orion, the hunter, and his dogs, the equilateral triangle Summer Navigation Triangle: Northern Cross as passageways and chronometers Golden Location Triangle: Libra, le Balance, what is shipped is received The celestial object's geometries were built into a culture's mound and temple structures becoming celestial observatories. These were sacred because they represented information concerning the locations of mines, storage facilities, harbors, temples, and "home." Geometric diffusionism came from the westward-bound seafaring explorers with their roots coming from the Fertile Crescent. Celestial counting and geometries form a universal calendar and navigation language. The rock art shows the actual relative latitudes to the Sun solstices and Venus-based relative longitudes to a prime starting location of island locations (stargates) that were associated with the seafaring trips in search of gold and copper.
