Mind Your Manners! The Berenstain Bears know that it is always best to be polite. Their good manners come in handy all the time: when fishing with Papa Bear, when making mud pies, when playing pirates with friends, and when putting on the school play. Even a run-in with the neighborhood bully is an opportunity to be polite! Read along as Brother and Sister and Honey Bear learn when to say "Let me help," "You're welcome," "Excuse me," "I'm sorry," "How are you?" "Nice to meet you," and, of course, "Please" and "Thank you." If the Berenstain Bears can do it, you can too!

Brother Bear's act of kindness is repaid when he shares his knowledge of airplane modelmaking with young Billy. Includes Bible verses.

Collects five stories that convey the value of faith and friendship, including adventures about fishing and working on a farm.

Kindness Counts Harper Collins

"[S]tirring...a bold, inspiring and ultimately hopeful book." --Arianna Huffington, co-founder and editor-in-chief of The Huffington Post and author of the New York Times bestseller Thrive  
Kaitlin Roig-Debellis is the first-grade teacher at Sandy Hook Elementary School who saved her entire class of fifteen six- and seven-year-olds from the tragic events that took place on December 14, 2012, by piling them into a single-occupancy bathroom within her classroom, mere feet from the brutal and indiscriminate massacre taking place outside the door. Since then, despite the unimaginably painful experiences she endured, she has chosen to share her experience with others, in the hope that they too can find light in dark moments. Choosing Hope is a lot of things. A written witness to a tragedy that will never be forgotten. A gripping firsthand testament to the power of good over the power of destruction. An inspirational memoir by a brave young woman whose story is one of courage, heroism, faith, and resilience. And a celebration of all the people who make the choice to pass along their hope and positivity to young ones—parents, mentors, and especially teachers. There is no moving on, but there is

always moving forward. And how we move forward is a choice. "[M]oving" -Wally Lamb, New York Times bestselling author of *We Are Water and She's Come Undone* "[B]rave" -Karen Armstrong, New York Times bestselling author of *Twelve Steps to a Compassionate Life* and *The History of God* "Although now I have witnessed the worst of mankind, instead of feeling bitter or regretful I have chosen to embrace gratitude. I believe in the power of kindness, the influence of educators and mentors, faith and God, and most of all I believe in humanity. Bad things happen to all of us, things that test us and impact us and change us, but it is not those moments that define us. It is how we choose to react to them that does." —Kaitlin Roig-DeBellis

It's just not Easter until you and your family read The Berenstain Bears The Very First Easter. The Berenstain Bears The Very First Easter: Is an addition to the popular Zonderkidz Living Lights series of books, perfect for early readers, reading out loud, and sparking important conversations Continues in the much-loved footsteps of Stan and Jan Berenstain, the creators of the Berenstain Bears series of books that is approaching its 60th Anniversary Is part of one of the bestselling children's book series ever created, with more than 250 books published and nearly 300 million copies sold to date Will be read again and again by children ages 4 to 8 It is commonly accepted that the golden rule—most often formulated as "do unto others as you would have them do unto you"—is a unifying element between many diverse religious traditions, both Eastern and Western. Its influence also extends beyond such traditions, since many non-religious individuals hold up the

golden rule as central to their lives. Yet, while it is extraordinarily important and widespread, the golden rule is often dismissed by scholars as a vague proverb that quickly leads to absurdities when one attempts to formulate it in clear terms. In this book, Harry J. Gensler defends the golden rule and addresses all of the major philosophic objections, pointing out several common misunderstanding and misapplications. Gensler first discusses golden-rule reasoning and how to avoid the main pitfalls. He then relates the golden rule to world religions and history, and to areas like moral education, egoism, evolution, society, racism, business, and medicine. The book ends with a discussion of theoretical issues (like whether all morality reduces to the golden rule, which the author argues against). Ethics and the Golden Rule offers two introductory chapters, the first is simpler and the second more technical; a reader may start with either or both. One can then read any combination of further chapters, in any order, depending on one's interests; but Chapters 13 and 14 are technical and assume one has read Chapter 2. This is "a golden-rule book for everyone," accessible to a wide readership.
