A classic collection of titles from one of the most influential investors of all time: Philip A. Fisher

Regarded as one of the pioneers of modern investment theory, Philip A. Fisher's investment principles are studied and used by contemporary finance professionals including Warren Buffett.

Fisher was the first to consider a stock's worth in terms of potential growth instead of just price trends and absolute value. His principles espouse identifying long-term growth stocks and their emerging value as opposed to choosing short-term trades for initial profit. Now, for the first time ever, Philip Fisher Investment Classics brings together four classic titles, written by the man who is known as the "Father of Growth Investing."

Common Stocks and Uncommon Profits was the first investing book to reach the New York Times bestseller list. Outlining a 15-step process for identifying profitable stocks, it is one of the most influential investing books of all time.

After ten years of selecting great books from writers, new and established, Prairie Schooner celebrates the first decade of its Book Prize series by offering this collection of excerpts from each year's winners in fiction and poetry. Writers such as Brock Clarke, Anne Finger, Rynn Williams, and Paul Guest open windows to ordinary and fantastic experience showcasing the liveliness and power of contemporary literature. Greg Hrbek's darkly comic, genre-bending tales stand alongside Ted Gilley's stories about achieving bliss through pain and John Keeble's reflections on community and the difficulty

of love. Here Shane Book's poems serve as an elegiac witness to suffering, while Kathleen Flenniken's poems consider ordinary women constructing their own significance, and Kara Candito's explore sex, loss, and human passions. Whether the topic is fantastic or quotidian, childbirth or monsters, South American airplane disaster or suburban Wisconsin, this writing carries us to the furthest reaches of human experience.

Upon moving to a farm in rural Ohio to distance herself from memories of war, former military nurse Grace Connor meets the conservative Levi Troyer, who struggles with reconciling his feelings for outsider Grace with his Amish faith.

Offers a fresh translation of adolescence, asserting that this period of a child's growth is too often misunderstood as a phase to be dreaded instead of enjoyed.

The pages of this book reveal a truly uncommon life obtained from a highly credible and competent source. The author of the recollections, Tamás Kornfeld, i.e. Thomas DeKornfeld, M.D, was born into one of the richest families in Hungary in 1924. The young man clearly had practically unlimited opportunities but chose a medical career in order to help poor people. These plans came to naught after the German occupation of Hungary in March, 1944. Fortunately he and his family were able to leave Hungary under an agreement with the Germans and

were taken safely to Portugal. Thomas came to the United States in 1945 and, after some military service, resumed his education culminating eventually in a professorship in anesthesiology. He was most active in the development of education in respiratory care and is the author of some seventy papers and books. In the present volume he not only clearly demonstrates his deep obligation to his adopted country but also gives a sharp and sometimes incisive picture of his childhood, youth and extended family.

Widely respected and admired, Philip Fisher is among the most influential investors of all time. His investment philosophies, introduced almost forty years ago, are not only studied and applied by today's financiers and investors, but are also regarded by many as gospel. This book is invaluable reading and has been since it was first published in 1958. The updated paperback retains the investment wisdom of the original edition and includes the perspectives of the author's son Ken Fisher, an investment guru in his own right in an expanded preface and introduction "I sought out Phil Fisher after reading his *Common Stocks and Uncommon Profits*...A thorough understanding of the business, obtained by using Phil's techniques...enables one to make intelligent investment commitments." —Warren Buffet

The rise of Barack Obama is one of the great stories of this century: a defining moment for America, and one with truly global resonance. This is the book of his phenomenal journey to election. Through extensive on-the-record interviews with friends and teachers, mentors and disparagers, family members and Obama himself, David Remnick has put together a nuanced, unexpected and masterly portrait of the man who was determined to become the first African-American President. Most importantly, *The Bridge* argues that Obama imagined and fashioned an identity for himself against the epic drama of race in America. In a way that Obama's own memoirs cannot, it examines both the personal and political elements of the story, and gives shape not only to a decisive period of history, but also to the way it

crucially influenced, animated and motivated a gifted and complex man.

"This book was among the first ten on investing I ever read. . . . It remains important for anyone seriously interested in capital markets, financial journalism, or even their own personal investments." —From the Foreword by Ken Fisher, CEO of Fisher Investments and Forbes columnist "Loeb tells us to put all our eggs in one basket, and watch the basket." —John Rothchild, Financial Columnist, Time magazine "This book is very special in my life. It is the very first Wall Street book I ever read. After reading 1,200 additional finance books, The Battle for Investment Survival's principles and concepts are still valid for consistent success." —Victor Sperandeo, Author of Trader Vic on Commodities In The Battle for Investment Survival, the turf is Wall Street, the goal is to preserve your capital at all costs, and to win is to "make a killing without being killed." This memorable classic, originally written in 1935, offers a fresh perspective on investing from times past. The Battle for Investment Survival treats investors to a straightforward account of how to profit—and how to avoid profit loss—in what Loeb would describe as the constant tug-of-war

between rising and falling markets.

Because print publishing was often neither possible nor desirable for women in the early modern period, in order to understand the range of writing by women and indeed

women's literary history itself, it is important that scholars consider women's writing in manuscript. Since the body of critical studies on women's writing for the most part prioritizes print over manuscript, this essay collection provides an essential corrective. The essays in this volume discuss many of the ways in which women participated in early modern manuscript culture. The manuscripts studied by the contributors originated in a wide range of different milieux, including the royal Court, the universities, gentry and aristocratic households in England and Ireland, and French convents. Their contents are similarly varied: original and transcribed secular and devotional verse, religious meditations, letters, moral precepts in French and English, and recipes are among the genres represented. Emphasizing the manuscripts' social, political and religious contexts, the contributors challenge commonly held notions about women's writing in English in the early modern period, and bring to light many women whose work has not been considered before.

She has a dragon, and she's not afraid to use it. Nellie Dreessen is a kitchen maid in the palace of Regent Bernard of Saardam. She has worked for two kings and two regents, has seen two royal families murdered through magic, has seen ghosts and demons, and kept her head down like a good girl. Problem is, someone has stolen the box. Regent Bernard holds a banquet for his eldest son's sixteenth birthday.

Distinguished guests come from far and wide. Because she knows what the box looks like, Nellie discovers it in a nobleman's luggage. Removing the box from a thief's room is not stealing, right? Not if you intend to return it to the rightful owner: the church. But someone poisons the nobleman, and everyone in the kitchen is a suspect. Nellie's friend in the church advises Nellie to flee with the dragon box. The Regent is on a mission to stamp out magic, and Nellie plans to do what she does best: keep her head down and hide. Art, History, and the Historiography of Judaism in Roman Antiquity explores the complex interplay between visual culture, texts and their interpretations, arguing for an open-ended and self-aware approach to understanding Jewish culture from the first century CE through the rise of Islam.

Melbourne's a city you get to know from the inside out – you have to walk it to love it. My favourite time to do this is at night. That's when you capture glimpses of people – eating, laughing, talking, arguing, watching TV and reading – through half-open terrace house doors and windows ... It is a city of inside places and conversation. Of intimacy. Melbourne begins on Black Saturday, the day that bushfires tore through the outskirts of Melbourne, destroying the townships of Marysville and Kinglake, shattering thousands of lives. Sophie Cunningham writes about what happened over the year that followed. Sit through a heatwave, visit the drains underneath the city, participate in a letterpress workshop, wander beside the Yarra, cycle alongside tram tracks and cheer at the footy. Live through the drought before the storm, the rain before yet more fire and days of searing heat. Along the way, be captivated as Cunningham shares her Melbourne, its stories and its characters. In a new introduction, Cunningham returns to Melbourne after a period away and reflects on how much her city has changed since Melbourne was first published in 2011: it is hotter, greener and has endured the rollercoaster ride – from boom times to economic depression – that defined 2020. 'Cunningham has successfully captured the dynamics of a city in constant flux, while focusing on the essence of its inner life, which gives it an ambience quite unlike that found in any other Australian city.' – Robert Hefner, *The Canberra Times* 'It would be nice to imagine that the gift of this book to Melbourne is its greater capacity to understand itself and its webs of connection.' – David Sornig, *Melbourne*

Review 'An admirable response to the impossible task of writing about a city its history, its present, its characters, its stories, its politics and its personal meaning in a single, accessible volume when any one of these themes should take several. Cunningham is communicating this city's soul as though it's a person, full of contradictions but with an essential character.' — Waleed Aly, The Sunday Age 'This beautiful book provokes nostalgia and deeper thinking about the events, places and people who have defined Melbourne.' — Herald Sun 'Cunningham is communicating this city's soul as though it's a person, full of contradictions but with an essential character.' — Waleed Aly, Australian Book Review
