The federal government's No Child Left Behind Act has thrust high-stakes testing - its goals, methods, and consequences - into the educational limelight. The four-fold purpose of this book is to: describe the nature of high-stakes testing; identify types of collateral damage that have attended the testing programs; analyze methods different groups of people have chosen for coping with the damage and suggest lessons to be learned from the high-stakes-testing experience. The six groups of people whose coping strategies are inspected include: politicians and their staffs; educational administrators and their staffs; parents and the public; test makers and test administrators; teachers and students. Importantly, the author avoids aligning himself

Read Book Tsi Assessment Sample Questions College Board

with the test-bashing rhetoric of those who oppose high-stakes testing, especially the No Child Left Behind Act. Key features of this outstanding new book include: illustrative cases. The book offers more than 350 cases of collateral damage from high-stakes testing--and people's coping strategies--as reported in newspapers over the 2002-2004 period. background perspectives. Part I examines the influence of high-stakes testing on: 1) what schools teach; 2) how student progress is evaluated; 3) how achievement standards are set; and 4) how test results are used. participant responses. Part II, which is the heart of the book, devotes a separate chapter to the coping strategies of each of the major participants in the high-stakes testing movement: politicians and their staffs, educational administrators and their staffs, parents and the public, test-makers and test-givers, teachers, and students. summary chapter. The last chapter (Lessons to Learn) offers suggestions for minimizing collateral damage by adopting alternative approaches not used in the creation of our current high-stakes testing programs, particularly the federal government's No Child Left Behind Act. This book is appropriate for any of the following audiences: students taking evaluation or administration courses in schools of education, inservice administrators and teachers, policy makers, and those members of the general public who are concerned about the fate of schooling in America. The second edition of the Handbook of Test Development provides graduate students and professionals with an up-to-date, research-oriented guide to the latest developments in the field. Including thirty-two chapters by well-known scholars and practitioners, it is divided into five sections, covering the foundations of test development, content definition, item development, test design and form assembly, and the processes of test administration, documentation, and evaluation. Keenly aware of developments in the field since the publication of the first edition, including changes in technology, the evolution of psychometric theory, and the increased demands for effective tests via educational policy, the editors of this edition include new chapters on assessing noncognitive skills, measuring growth and learning progressions, automated item generation and test assembly, and computerized scoring of constructed responses. The volume also includes expanded coverage of performance testing, validity, fairness, and

numerous other topics. Edited by Suzanne Lane, Mark R. Raymond, and Thomas M. Haladyna, *The Handbook of Test Development*, 2nd edition, is based on the revised Standards for Educational and Psychological Testing, and is appropriate for graduate courses and seminars that deal with test development and usage, professional testing services and credentialing agencies, state and local boards of education, and academic libraries serving these groups.

«Ein Wunder. Und kein geringes.» (Die Welt) Nach fast fünfzig Ehejahren hat Enid Lambert nur ein Ziel: ihre Familie zu einem letzten Weihnachtsfest um sich zu scharen. Alles könnte so schön sein, gemütlich, harmonisch. Doch Parkinson hat ihren Mann Alfred immer fester im Griff, und die drei erwachsenen Kinder durchleben eigene tragikomische Malaisen. Gary steckt in einer Ehekrise. Chip versucht sich als Autor. Und Denise ist zwar eine Meisterköchin, hat aber in der Liebe kein Glück. Jonathan Franzen ist ein großartiger Roman gelungen: Familien- und Gesellschaftsgeschichte in einem. «Eine Sensation.» (Der Spiegel) «Jonathan Franzen ist das größte Sprachtalent, das die amerikanische Literatur seit John Updike hervorgebracht hat.» (Literaturen) «Man möchte Jonathan Franzen genial nennen.» (Süddeutsche Zeitung) «Man geht mit jenem eigentümlichen Gefühl aus der Lektüre hervor, das nur große Literatur wecken kann: Man fühlt sich beschenkt und bereichert.» (Frankfurter Allgemeine

Zeitung)

Patty und Walter Berglund – Vorzeigeeltern und Umweltpioniere, fast schon ideale Nachbarn in ihrer selbst renovierten viktorianischen Villa in St. Paul – geben plötzlich Rätsel auf: Ihr halbwüchsiger Sohn zieht zur proletenhaften republikanischen Familie nebenan, Walter lässt sich zum Schutz einer einzigen Vogelart auf einen zwielichtigen Pakt mit der Kohleindustrie ein, und Patty, Exsportlerin und Eins-a-Hausfrau, entpuppt sich als wahrlich sonderbar. Hat Walters bester Freund, ein Rockmusiker, damit zu tun? Auf einmal lebt Patty ihre kühnsten Träume, führt sie ein Leben ohne Selbstbetrug. In diesem Roman einer Familie, der zugleich ein großes Epos der letzten dreißig Jahre amerikanischer Geschichte ist, erzählt Jonathan Franzen von Freiheit – dem Lebensnerv der westlichen Kulturen – und auch dem Gegenteil von ihr, zeigt die tragikomischen Verwerfungen zeitgenössischer Liebe und Ehe, Freundschaft und Sexualität. «Freiheit» ist ein bedeutsames Buch über unser Leben in einer immer unübersichtlicher und fragiler werdenden Welt.
