The end of World War II led to increased interest in multicultural concerns and a flourishing of literary and artistic endeavors. It was also a time of decolonization and the emergence of new nations and cultures clamoring for recognition and respect. The political circumstances following World War II exposed many people to other cultures. This reference discusses the experiences of writers active since 1945 who were shaped by cultures other than their own. Included are alphabetically arranged entries for more than 100 writers, including Chinua Achebe, W.H. Auden, Mircea Eliade, Jamaica Kincaid, Salman Rushdie, and Elie Wiesel. The profiled authors either lived in another culture voluntarily or were wrenched from one culture into another. Each entry includes a brief biography, a discussion of multicultural themes in the writer's works, a review of criticism, and primary and secondary bibliographies. The volume closes with a selected, general bibliography. The reference demonstrates the value of multicultural experiences in the lives of writers around the world and fosters a greater appreciation of cultural diversity.

This book covers the full story of the Ustasha, a fascist movement in Croatia, from its historic roots to its downfall. The authors address key questions: In what international context did Ustasha terrorism grow and develop? How did this movement rise to power, and then exterminate hundreds of thousands of innocents? Who was Ante Paveli?, its leader? Was he a shrewd politician, able to exploit for his independent project Mussolini's imperial ambitions, Hitler's pan-German aims, and the anti-Bolshevism of the Holy See and the Western bloc? Or was he, consciously or not, a pawn in other hands, in a complex international scenario where Croatia was only arena among many? And after the movement's collapse, how were several of the most prominent Ustasha leaders able to evade capture by Tito's victorious army? The facts and documents confront us with the ambivalence of terrorism. The book places the appearance of the Ustasha movement not only in the context of the interwar Kingdom of Yugoslavia but also in the wider perspective of the emergence of European fascism.

Long celebrated as one of "the Three Crowns" of Florence, Giovanni Boccaccio (1313–75) experimented widely with the forms of literature. His prolific and innovative writings—which range beyond the novella, from lyric to epic, from biography to mythography and geography, from pastoral and romance to invective—became powerful models for authors in Italy and across the Continent. This collection of essays presents Boccaccio's life and creative output in its encyclopedic diversity. Exploring a variety of genres, Latin as well as Italian, it provides short descriptions of all his works, situates them in his oeuvre, and features critical expositions of their most salient features and innovations. Designed for readers at all levels, it will appeal to scholars of literature, medieval and Renaissance studies, humanism and the classical tradition; as well as European historians, art historians, and students of material culture and the history of the book. Anchored by an introduction and chronology, this volume contains contributions by prominent Boccaccio scholars in the United States, as well as essays by contributors from France, Italy, and the United Kingdom. The year 2013, Boccaccio's seven-hundredth birthday, will be an important one for the study of his work and will see an increase in academic interest in reassessing his legacy.
